## 10 Years Solved Papers - Humanities: ISC Class 12 for 2021 Examination

This is the first International Conference on Advances in Computing (ICAdC-2012). The scope of the conference includes all the areas of New Theoretical Computer Science, Systems and Software, and Intelligent systems. Conference Proceedings is a culmination of research results, papers and the theory related to all the three major areas of computing mentioned above. Helps budding researchers, graduates in the areas of Computer Science, Information Science, Electronics, Telecommunication, Instrumentation, Networking to take forward their research work based on the reviewed results in the paper by mutual interaction through e-mail contacts in the proceedings.

## ISC Commerce Class-XII (Vol.II)

PART I Molecular Biology  
1. Molecular Biology and Genetic Engineering  
Definition, History and Scope  
2. Chemistry of the Cell:  
1. Micromolecules (Sugars, Fatty Acids, Amino Acids, Nucleotides and Lipids)  
Sugars (Carbohydrates)  
3. Chemistry of the Cell .  
2. Macromolecules (Nucleic Acids; Proteins and Polysaccharides)  
Covalent and Weak Non-covalent Bonds  
4. Chemistry of the Gene: Synthesis, Modification and Repair of DNA  
DNA Replication: General Features  
5. Organisation of Genetic Material  
1. Packaging of DNA as Nucleosomes in Eukaryotes  
Techniques Leading to Nucleosome Discovery  
6. Organization of Genetic Material  
2. Repetitive and Unique DNA Sequences  
7. Organization of Genetic Material:  
3. Split

Genes, Overlapping Genes, Pseudogenes and Cryptic Genes Split Genes or .Interrupted Genes 8. Multigene Families in Eukaryotes 9. Organization of Mitochondrial and Chloroplast Genomes 10. The Genetic Code 11. Protein Synthesis Apparatus Ribosome, Transfer RNA and Aminoacyl-tRNA Synthetases Ribosome 12. Expression of Gene . Protein Synthesis 1. Transcription in Prokaryotes and Eukaryotes 13. Expression of Gene: Protein Synthesis: 2. RNA Processing (RNA Splicing, RNA Editing and Ribozymes) Polyadenylation of mRNA in Prokaryotes Addition of Cap (m7G) and Tail (Poly A) for mRNA in Eukaryotes 14. Expression of Gene: Protein Synthesis: 3. Synthesis and Transport of Proteins (Prokaryotes and Eukaryotes) Formation of Aminoacyl tRNA 15. Regulation of Gene Expression: 1. Operon Circuits in Bacteria and Other Prokaryotes 16. Regulation of Gene Expression . 2. Circuits for Lytic Cycle and Lysogeny in Bacteriophages 17. Regulation of Gene Expression 3. A Variety of Mechanisms in Eukaryotes (Including Cell Receptors and Cell Signalling) PART II Genetic Engineering 18. Recombinant DNA and Gene Cloning 1. Cloning and Expression Vectors 19. Recombinant DNA and Gene Cloning 2. Chimeric DNA, Molecular Probes and Gene Libraries 20. Polymerase Chain Reaction (PCR) and Gene Amplification 21. Isolation, Sequencing and Synthesis of Genes 22. Proteins: Separation, Purification and Identification 23. Immunotechnology 1. B-Cells, Antibodies, Interferons and Vaccines 24. Immunotechnology 2. T-Cell Receptors and MHC Restriction 25. Immunotechnology 3. Hybridoma and Monoclonal Antibodies (mAbs) Hybridoma Technology and the Production of Monoclonal Antibodies 26. Transfection Methods and Transgenic Animals 27. Animal and Human Genomics: Molecular Maps and Genome Sequences Molecular Markers 28. Biotechnology in Medicine: I.Vaccines, Diagnostics and Forensics Animal and Human Health Care 29. Biotechnology in Medicine 2. Gene Therapy Human Diseases Targeted for Gene Therapy Vectors and Other Delivery Systems for Gene Therapy 30. Biotechnology in Medicine: 3. Pharmacogenetics / Pharmacogenomics and Personalized Medicine Phannacogenetics and Personalized 31. Plant Cell and Tissue Culture' Production and Uses of Haploids 32. Gene Transfer Methods in Plants 33. Transgenic Plants . Genetically Modified (GM) Crops and Floricultural Plants 34. Plant Genomics: 35. Genetically Engineered Microbes (GEMs) and Microbial Genomics References

## **Accountancy Class XI (CBSE Syllabus)**

Saraswati Health and Physical Education is a much acclaimed and popular series in Health and Physical Education. The series demonstrates a deep understanding of the principles and concepts related to the subject while providing students with all the pedagogical tools necessary for comprehension and application. The fully revised edition, which includes all the latest developments in the field, in its colourful avatar will not only enhance the teaching-learning process but will also make it more enjoyable.

## **India's New Capitalists**

## **ISC Commerce Class-XI (Vol.I)**

Gurukul Books' New ISC Last 10 Years Solved Papers for Arts Stream is strictly based on the latest ISC Curriculum for March 2021 Exams. This comprehensive question bank enables Time Bound Practice of Previous Years Papers as per the new Marking Scheme. March 2020 Papers and Solutions included. Subjects included are English 1, English 2, Hindi, Physical Education, Economics, Geography, Sociology, Political Science, History, Psychology, Home Science and Environmental Science. Year Wise papers with expert solutions for focused study will help students prepare well for the final exams.

VK Global Publications Pvt. Ltd. is a household name now. Established in 1979, with more than three decades of leadership in the area of Economics and Commerce, we take pride in claiming that we continue with the unstirred readership in the country. Specialising in the area of Economics and Commerce, we are not averse to the idea of diversification. Keeping this in view, more than a decade ago, a series of 'Xam idea' was launched in all the subjects for classes IX -X However, success of our publication is admittedly due to prudent prolific writers. We have resource-pool of reputed authors, who leave no stone unturned in bringing out the best of study material, which makes our readers versatile in their thought processes and equips them with the exam-oriented acumen. Thousands of acknowledgments and accolades that we receive every year from our readers are a good testimony to the genuine efforts and trustworthy endeavours of our authors.

## **IRON MAKING AND STEELMAKING**

Explore the physiology of 30 key yoga poses, in-depth and from every angle, and master each asana with confidence and control. Did you know that yoga practice can help lower your blood pressure, decrease inflammation and prevent age-related brain changes? Recent scientific research now backs up what were once anecdotal claims about the benefits of yoga to every system in the body. Science of Yoga reveals the facts, with annotated artworks that show the mechanics, the angles, how your blood flow and respiration are affected, the key muscle and joint actions working below the surface of

each pose, safe alignment and much more. With insight into variations on the poses and a Q&A section that explores the science behind every aspect of yoga, this easy-to-understand, comprehensive book is an invaluable resource to achieve technical excellence in your practice and optimize the benefits of yoga for your body and mind.

## **Statistics for Economics**

This volume is the result of the 11th International Conference on Information Systems Development: Methods and Tools, Theory and Practice, held in Riga, Latvia, September 12-14, 2002. The purpose of this conference was to address issues facing academia and industry when specifying, developing, managing, reengineering and improving information systems. This volume should be a useful reference for anyone in the fields of general management, systems and control theory, software engineering and operation systems.

## **Information Technology and Mobile Communication**

'A Khushwant Singh short story is not flamboyant but modest, restrained, well-crafted Perhaps his greatest gift as a writer is a wonderful particularity of description'—London Magazine Khushwant Singh first established his reputation as a writer through the short story. His stories—wry, poignant, erotic and, above all, human—bear testimony to Khushwant Singh's remarkable range and his ability to create an unforgettable PBI - World. Spanning over half a century, this volume contains all the short stories Khushwant Singh has ever written, including the delightfully tongue-in-cheek 'The Maharani of Chootiapuram', written in 2008. 'Khushwant's stories enthrall[He has]an ability akin to that of Somerset Maughamthe ability

to entertain intelligently’—PBI - India Today ‘His stories are better than [those of] any PBI - Indian writing in English—Times of PBI - India ‘The Collected Short Stories leaves the reader in a delightful, inebriated trance’—Sunday Chronicle ‘He is not an ordinary short story writer[Collected Stories] is delightful reading’—Hindustan Times

## **Macroeconomics**

This book constitutes the refereed proceedings of the Third International Conference on Pattern Recognition and Machine Intelligence, PReMI 2009, held in New Delhi, India in December 2009. The 98 revised papers presented were carefully reviewed and selected from 221 initial submissions. The papers are organized in topical sections on pattern recognition and machine learning, soft computing and applications, bio and chemo informatics, text and data mining, image analysis, document image processing, watermarking and steganography, biometrics, image and video retrieval, speech and audio processing, as well as on applications.

## **Pattern Recognition and Machine Intelligence**

"This inspiring story introduces Ron, an average guy, who is increasingly disturbed by social media updates from his peers and feels he is not doing as well in his own life. He feels stuck in his day-to-day routine and is struggling to accept if that is all life had to offer, after all the hard work that he put in over the years to establish himself. Although his life is comfortable, he feels something is missing within the entire scheme of things. One day, through a ‘magical meeting’, he is introduced to the step-by-step approach to finding one’s answers. Ron embarks on this journey, becomes his best self and in the process, discovers his life purpose, a sense of passion and ever-lasting contentment. The book offers those key concepts from the science of achievement and personal development that can have maximum impact on your life. In addition, simple exercises have been provided, each of which can be integrated into your busy day-to-day lives. If you are new to self-help and personal development, this book will provide you with most of what you need to become your best self and continue pushing further. If you are already a self-help enthusiast, this book will serve as a quick reminder of the core principles and high-impact exercises."

## **Return Inward Book**

S Chand's ISC Mathematics is structured according to the latest syllabus as per the new CISCE(Council for the Indian School Certificate Examinations), New Delhi, for ISC students taking classes XI & XII examinations.

## Concepts Of Physics

CBSE Curriculum was most recently updated on 29th March 2019 for Academic year 2019 – 2020. There were major changes observed which will have direct impact on the Question Paper design for Board Examinations 2019. Keeping this in mind Oswaal Sample Question Papers have been thoroughly updated as per the latest Board guidelines. This makes them extremely relevant for Exam oriented study. IMPORTANT FEATURES OF THE BOOK: Self-Study Mode Fifteen Sample Question Papers covering important concepts from an examination perspective (1-5 solved and 6-15 for Self-Assessment) Exam Preparatory Material Answers from the CBSE Marking Scheme upto March 2019 Exam with detailed explanations as per the word limit for exam-oriented study. Answering Tips & Commonly Made Errors for clearer thinking. On Tips Notes On tips notes, Mind Maps & Grammar charts facilitate quick revision of chapters WHAT THIS BOOK HAS FOR YOU: Latest CBSE Curriculum Strictly based on the latest CBSE curriculum issued on 29th March 2019 for Academic Year 2019-2020, for classes 9 to 12 following the latest NCERT Textbook. Latest Typology OF Questions Objective Type Questions included as per the latest design of the question paper issued by CBSE Most Likely Questions 'Most likely questions' generated by our editorial Board with 100+ years of teaching experience About Oswaal Books: Oswaal Books strongly believes in Making Learning Simple. To ensure student-friendly, yet highly exam-oriented content, we take due care in developing our Panel of Experts. Accomplished teachers with 100+ years of combined experience, Subject Matter Experts with unmatched subject knowledge, dynamic educationists, professionals with a keen interest in education and topper students from the length and breadth of the country, together form the coveted Oswaal Panel of Experts. It is with their expertise, guidance and a keen eye for details that the content in each offering meets the need of the students. No wonder, Oswaal Books holds an enviable place in every student's heart!

## S.Chand' S Biology -XII - CBSE

This authoritative account covers the entire spectrum from iron ore to finished steel. It begins by tracing the history of iron and steel production, right from the earlier days to today's world of oxygen steelmaking, electric steelmaking, secondary steelmaking and continuous casting. The physicochemical fundamental concepts of chemical equilibrium, activity-composition relationships, and structure-properties of molten metals are introduced before going into details of transport phenomena, i.e. kinetics, mixing and mass transfer in ironmaking and steelmaking processes. Particular emphasis is laid on the understanding of the fundamental principles of the processes and their application to the optimisation of actual processes. Modern developments in blast furnaces, including modelling and process control are discussed along with an introduction to the alternative methods of ironmaking. In the area of steelmaking, BOF plant practice including pre-

treatment of hot metal, metallurgical features of oxygen steelmaking processes, and their control form part of the book. It also covers basic open hearth, electric arc furnace and stainless steelmaking, before discussing the area of casting of liquid steel—ingot casting, continuous casting and near net shape casting. The book concludes with a chapter on the status of the ironmaking and steelmaking in India. In line with the application of theoretical principles, several worked-out examples dealing with fundamental principles as applied to actual plant situations are presented. The book is primarily intended for undergraduate and postgraduate students of metallurgical engineering. It would also be immensely useful to researchers in the area of iron and steel.

## **Business Studies -Poonam Gandhi (2020-21)**

## **Proceedings of International Conference on Advances in Computing**

This two-volume set (CCIS 1045 and CCIS 1046) constitutes the refereed proceedings of the Third International Conference on Advances in Computing and Data Sciences, ICACDS 2019, held in Ghaziabad, India, in April 2019. The 112 full papers were carefully reviewed and selected from 621 submissions. The papers are centered around topics like advanced computing, data sciences, distributed systems organizing principles, development frameworks and environments, software verification and validation, computational complexity and cryptography, machine learning theory, database theory, probabilistic representations.

## **Trial Balance Book**

## **ISC Mathematics book 1 for Class- 11**

Lakhmir Singh's Science is a series of books which conforms to the NCERT syllabus. The main aim of writing this series is to help students understand difficult scientific concepts in a simple manner in easy language. The ebook version does not

contain CD.

## **Information Systems Development**

The eBooks is authored by proficient Teachers and Professors. The Text of the eBooks is simple and lucid. The contents of the book have been organised carefully and to the point.

## **The Portrait of a Lady**

History Book

## **Begin with "I"**

Innovations and Advances in Computer Sciences and Engineering includes a set of rigorously reviewed world-class manuscripts addressing and detailing state-of-the-art research projects in the areas of Computer Science, Software Engineering, Computer Engineering, and Systems Engineering and Sciences. Innovations and Advances in Computer Sciences and Engineering includes selected papers form the conference proceedings of the International Conference on Systems, Computing Sciences and Software Engineering (SCSS 2008) which was part of the International Joint Conferences on Computer, Information and Systems Sciences and Engineering (CISSE 2008).

In order to do business effectively in contemporary South Asia, it is necessary to understand the culture, the ethos, and the region's new trading communities. In tracing the modern-day evolution of business communities in India, this book uses social history to systematically document and understand India's new entrepreneurial groups.

## **Accountancy For Class Xi**

Plants have to manage a series of environmental stresses throughout their entire lifespan. Among these, abiotic stress is the most detrimental; one that is responsible for nearly 50% of crop yield reduction and appears to be a potential threat to global food security in coming decades. Plant growth and development reduces drastically due to adverse effects of abiotic stresses. It has been estimated that crop can exhibit only 30% of their genetic potentiality under abiotic stress condition. So, this is a fundamental need to understand the stress responses to facilitate breeders to develop stress resistant and stress tolerant cultivars along with good management practices to withstand abiotic stresses. Also, a holistic approach to understanding the molecular and biochemical interactions of plants is important to implement the knowledge of resistance mechanisms under abiotic stresses. Agronomic practices like selecting cultivars that is tolerant to wide range of climatic condition, planting date, irrigation scheduling, fertilizer management could be some of the effective short-term adaptive tools to fight against abiotic stresses. In addition, "system biology" and "omics approaches" in recent studies offer a long-term opportunity at the molecular level in dealing with abiotic stresses. The genetic approach, for example, selection and identification of major conditioning genes by linkage mapping and quantitative trait loci (QTL), production of mutant genes and transgenic introduction of novel genes, has imparted some tolerant characteristics in crop varieties from their wild ancestors. Recently research has revealed the interactions between micro-RNAs (miRNAs) and plant stress responses exposed to salinity, freezing stress and dehydration. Accordingly transgenic approaches to generate stress-tolerant plant are one of the most interesting researches to date. This book presents the recent development of agronomic and molecular approaches in conferring plant abiotic stress tolerance in an organized way. The present volume will be of great interest among research students and teaching community, and can also be used as reference material by professional researchers.

## **Modern Physics for IIT-JEE**

Artists and curators have long reached beyond the constraints of established institutional structures and traditional exhibition spaces. These tendencies were first clearly articulated (with some notable historical avant-garde precedents) in the language that framed conceptual and systems-based art in the 1960s and 1970s. The focus then, as it is today, was upon locating or creating alternative circuits. Today, notwithstanding our significantly technologically augmented capacity to reach and create new audiences, much contemporary artistic activity still invariably plays directly to an audience of connected peers. Moreover, given that much of this activity is now documented and disseminated as it happens through its surrounding peer network, the robustness of documentation and critical discussion can become easily distorted.

Consequently, an inherent correlation to social acceptance and favorability can limit our capacity to meaningfully evaluate quality, and often excludes contributions outside a core group. Also, given that much art now shares media with other databases and websites, algorithmically driven perceptions of popularity can further influence ways in which art is evaluated, interpreted and valued. This situation invariably presents challenges to artists and curators seeking to establish new audiences or disseminate ideas. Today, new artistic and curatorial approaches are emerging in tandem with digitally-activated modes of presentation and dissemination distinguished by perpetual reproducibility, multiple intersecting temporalities and materializations, and the subsidence of physical space. Significantly, many of these approaches are no longer necessarily connected to singular events or spaces and are perhaps better understood as omnidirectional movements between modes of conception, production and dissemination connected through the screen as a communal space. This communal space might offer either access to new works, illuminate the existence of works understood to be elsewhere in time and space, or offer multiple or alternative materializations, versions, attributions, interpretations and representations of existing works. Artistic research can be represented in multiple ways as it moves between modes of conception, production and dissemination. This volume explores a broad range of questions associated with presenting,

experiencing, discussing and evaluating art located anywhere and elsewhere in space and time. We are delighted to welcome you to the many worlds contained within.

## **Plant Abiotic Stress Tolerance**

This book constitutes the refereed proceedings of the International Conference on Advances in Information Technology and Mobile Communication, AIM 2011, held at Nagpur, India, in April 2011. The 31 revised full papers presented together with 27 short papers and 34 poster papers were carefully reviewed and selected from 313 submissions. The papers cover all current issues in theory, practices, and applications of Information Technology, Computer and Mobile Communication Technology and related topics.

## **History of Indian Art**

Modern Physics for IIT-JEE, board exams and other competitive exams. Chapters covered are: Photoelectric Effect, Atomic Structure, X-Rays, Nuclear Physics. Features of the Book: 1. Comprehensive theory in simple and easy language. 2. Explanations with examples which help in stronger understanding. 3. Lots of solved examples. 4. Practice questions with answers. 5. As per the current trend of competitive exams.
