The Duke's Shotgun Wedding

A critical analysis of the opinions of famous Muslim jurists and their methodologies.

This is the second volume of the 12th-century work, translated from the Arabic.

The Happy Brain

Didactically, a textbook of criminology should start at the beginning. The learning process, also an emotional process, begins in criminology with the concepts, views, emotions, attitudes and ideas we have regarding crime and criminals. Exploration of these underlying factors is one of the aims of the present book. We can free our thinking only by being aware of the significance of our own feelings and thoughts about a phenomenon like crime. 'That is the basic problem confronting us. In scientific thinking implicit postulates as to the *sensus communis*, unless recognized and 1 neutralized, grow into idols.' The fight against crime is one example of such an idol. Crimes and criminals exist only by virtue of reactions to certain forms of behavior. For this reason this book will begin by examining the reactions of society to crime. Criminology is primarily a science of others than offenders. In this sense I invert criminology. The history of criminology is not so much a history of offenders, 2 as a history of the reactions of those in power.

If you are tired of feeling stressed, working too many hours or just feeling miserable, Carl Vernon's *The Less-Stress Lifestyle* will help you manage it all. As a follow-up to his best-selling book *Anxiety Rebalance*, Carl shares the tools and techniques he used to go from being highly anxious and stressed, to enjoying a lifestyle of freedom and choice. Carl's advice is that we cannot remove stress from life - it helps us get things done - but when stress starts to take over it's time to take back control. For example, Carl suggests you should throw away the concept of a work/life balance. Why? Because they are the same thing. Instead he shows you how to use stress to your advantage and gives you the tools to: - Move stress

out of your way using his 'Stress Wall' technique - Make money work for you, instead of you working for money - Instantly improve your mood and stay positive with 'The Happiness Trick' - Get back time and energy by distinguishing bad stress from good - Effectively organise and manage your life to create more time for the things you enjoy The Less-Stress Lifestyle is an invaluable guide for the many thousands of people affected by stress and its related disorders and will help you to rediscover all aspects of your life.

the pressure for democracy and point to unchanging 'Asian' values, and those who believe that the appeal of democracy is universal. The author examines the case for both sides and concludes that the strong state will be a fixture of South-East Asian politics for some considerable time to come. Increasingly close links between the ten states of South-East Asia are likely to reinforce perceptions of a common culture and in the end put up more effective defences against external cultural influence.

Buku ini merupakan kumpulan 160 esai pendek Goenawan Mohamad yang pernah dimuat majalah Tempo dari Januari 1986 sampai Februari 1990. Diawali dengan esai berjudul "Ding" (4 Januari 1986) sampai yang terakhir "Asongan" (24 Februari 1990). Esai-esai yang dikenal sebagai Catatan Pinggir itu berbicara beragam hal, bahkan hampir semua hal yang dekat dengan peristiwa di masyarakat dalam kurun waktu empat tahun itu: tentang kecemasan, kebebasan, kekuasaan, kemerdekaan, keserakahan, kebahagiaan, demokrasi. Mengenai topik yang disebut terakhir, William Liddle, dalam Kata Pengantar untuk buku ini, mengatakan kiranya jelas bahwa Goenawan sangat menyakini demokrasi sebagai jenis pemerintahan yang terbaik bagi negara kebangsaan Dunia Ketiga seperti Indonesia. Tetapi dia tidak berpretensi seolah-olah demokrasi dengan sendirinya mampu menyelesaikan segala persoalan.... Goenawan Mohamad, kata Liddle,

In this path breaking study, Jasser Auda presents a systems approach to the philosophy and juridical theory of Islamic law based on its purposes, intents, and higher objectives (maqasid). For Islamic rulings to fulfill their original purposes of justice, freedom, rights, common good, and tolerance in today's context, Auda presents maqasid as the heart and the very philosophy of Islamic law. He also introduces a novel method for analysis and critique, one that utilizes relevant features from systems theory, such as, wholeness, multidimensionality, openness, and especially, purposefulness of systems. This book will benefit all those interested in the relationship between Islam and a wide variety of subjects, such as philosophy of law, morality, human rights, interfaith commonality, civil society, integration, development, feminism, modernism, postmodernism, systems theory, and culture.

From Jail to Jail is the political autobiography of Sutan Ibrahim gelar Tan Malaka, an enigmatic and colorful political thinker of twentieth-century Asia, who was one of the most influential figures of the Indonesian Revolution. Variouslly labeled a communist, Trotskyite, and nationalist, Tan Malaka managed to run afoul of nearly every political group and faction involved in the Indonesian struggle for independence. During his decades of political activity, he spent periods of exile and hiding in nearly every country in Southeast Asia. As a Marxist who was expelled from and became a bitter enemy of his country's Communist Party and as a nationalist who was imprisoned and murdered by his own government's forces as a danger to its anticolonial struggle, Tan Malaka was and continues to be soaked in contradiction and controversy. Translated by Helen Jarvis and with a new introduction from Harry A. Poeze, this edition of From Jail to Jail contextualizes the life and political accomplishments of Tan Malaka in one of the few known autobiographies by a Marxist of this political era and region.

Indonesian Islam is often portrayed as being intrinsically moderate by virtue of the role that mystical Sufism played in shaping its traditions. According to Western observers--from Dutch colonial administrators and orientalist scholars to modern anthropologists such as the late Clifford Geertz--Indonesia's peaceful interpretation of Islam has been perpetually under threat from outside by more violent, intolerant Islamic traditions that were originally imposed by conquering Arab armies. *The Makings of Indonesian Islam* challenges this widely accepted narrative, offering a more balanced assessment of the intellectual and cultural history of the most populous Muslim nation on Earth. Michael Laffan traces how the popular image of Indonesian Islam was shaped by encounters between colonial Dutch scholars and reformist Islamic thinkers. He shows how Dutch religious preoccupations sometimes echoed Muslim concerns about the relationship between faith and the state, and how Dutch-Islamic discourse throughout the long centuries of European colonialism helped give rise to Indonesia's distinctive national and religious culture. *The Makings of Indonesian Islam* presents Islamic and colonial history as an integrated whole, revealing the ways our understanding of Indonesian Islam, both past and present, came to be.
