Presentation S.O.S.

After a car accident that triggers a spell set on her from birth, Estyria finds herself in a world where the gods walk the earth, magic is all too real, and political intrigue strikes close to home. Caught in a competition for the throne, she must learn to navigate the muddy waters of court politics, familial obligations, an entanglement of the heart and soon. More than just her heart or her life is at stake -- the fate of an entire nation could rest upon her choice.

Manual for Museums

Each Clymer manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine. This manual covers the Harley-Davidson XL Sportster built from 2014 to 2017. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box. Specific models covered include: XL883L SuperLow (2014-2017), XL883N Iron 883 (2014-2017), XL883R Roadster (2014-2015), XL1200C 1200 Custom (2014-2017), XL1200CA Custom Limited A (2014-2016), XL1200CB 1200 Custom Limited B (2014-2017), XL1200CP 1200 Custom (factory custom) (2014-2016), XL1200CX Roadster (2016-2017), XL1200T SuperLow (2014-2017), XL1200V Seventy-Two (2014-2016), and XL1200X Forty-Eight (2014-2017).

The Economics of Regional Clusters

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Clymer Mercruiser Stern Drive Shop Manual, 1998-2001

Among the most important contributions the National Park Service has made since its founding in 1916 has been the development of extraordinary museum technology and administration---national in scope and international in influence. This manual, a distillation of what many persons have learned about the day-to-day operations of museums, is meant to provide curatorial standards and serve as a reference for museum workers everywhere. This book was written by Ralph H. Lewis, an outstanding museum administrator and curator with many years of experience in the National Park Service. It is an outgrowth of an earlier (1941) volume entitled Field Manual for Museums by Ned J. Burns, a work that went out of print during World War II and is, even to this day, in demand by curators and museum managers. In this present manual, Mr. Lewis carries on a tradition of excellence in museum practice that can be traced back to the mid-1930's when Carl P. Russell set the basic pattern for museum work in the national parks. In those early years most park museums could not afford or were too small to engage a full time professional museum staff. Dr. Russell set up centralized laboratories staffed by curators and preparators and provided the parks with exhibition and preservation expertise from this pool. The ordinary maintenance and operation of the museums were left to the superintendents who managed the parks, and to the archeologists, historians and naturalists who interpreted them.

Developing Assessments for the Next Generation Science Standards

The truth that parents learn as much from their children as their children learn from them is poignantly captured in this book by father and son.

I'm A High School Teacher Just Like A Normal Teacher Except Much Cooler

Everything you need to make your next talk a resounding success is right here-even if you dread the thought of approaching a podium! In Presentation S.O.S., renowned communications expert Mark Wiskup gives you a quick, concise, and (yes!) fun way to confidently sell your ideas to any audience. Packed with unique tips and featuring nine easy, painless steps that will transform you into a great presenter, this book shows you how to: Develop a "Power Sound Bite" to grab your listeners' attention and focus your message. Get the most out of PowerPoint-and dodge its pitfalls. Avoid seemingly harmless words and expressions that can turn the audience against you. Finish big with a knock-'em-dead "Power Close." Win the Q&A battle-learn how to handle even the toughest questions and most difficult members of your audience. Book jacket.

Yuganta

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling

auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Twenty Fathoms Down

Willits is passionate about helping Christians share their faith. He's explored all kinds of ways to reach out--from radio and TV to various forms of social media--and he's learned a lot about what works and what doesn't.

Yamaha V-Star 1100

New York Times and USA Today Bestselling series! L.A. shoe designer Maddie Springer hasn't seen her father since he reportedly ran off to Las Vegas with a showgirl named Lola. So she's shocked when he leaves a desperate plea for help on her answering machine—ending in a loud bang. Gunshot? Car backfire? Never one to leave her curiosity unsatisfied, Maddie straps on her stilettos and, along with her trigger-happy best friend, makes tracks for Sin City in search of her MIA dad. Maddie hits the jackpot, all right. She finds not only her dad, but also a handful of aging drag queens, an organized crime ring smuggling fake Prada pumps, and one relentless killer. Plus, it seems the LAPD's sexiest cop is doing a little Vegas moonlighting of his own. In a town where odds are everything, Maddie bets it all on her ability to out-step a vicious murderer. She just hopes her gamble pays off...before her own luck runs out. Other Books in the High Heels Series: #1 Spying in High Heels #2 Killer in High Heels #3 Undercover in High Heels #3.5 Christmas in High Heels (short story) #4 Alibi in High Heels #5 Mayhem in High Heels #5.5 Honeymoon in High Heels (short story) #5.75 Sweetheart in High Heels (novella) #6 Fearless in High Heels #7 Danger in High Heels #8 Homicide in High Heels #9 Deadly in High Heels What critics are saying about Killer in High Heels: "This amusing whodunit scores big. Maddie's winning return, with her bold comical voice and knack for thinking fast on her strappy slingbacks, will elicit cheers from fans of the growing chick mystery field." ~ Publishers' Weekly "Blending romance and humor, Maddie and her madcap friends are an enjoyable treat." ~ Parkersburg Sentinel "Readers who crave light mystery mixed with romance will love this book!" ~ Fresh Fiction "KILLER IN HIGH HEELS is 'packing' with action, hilarity, danger, almost-sex, and fashion wows and woes. Gemma Halliday gives the reader

nothing but pure indulgence and fabulous fun!" ~ Once Upon a Romance "This is a first-rate, humorous mystery and one you can't help but grin and giggle all the way through." ~ Romance Reader at Heart "KILLER IN HIGH HEELS is a humorous, delectable romp you won't want to miss!" ~ Romance Junkies

A New Quantum Scientific Method

This important new book takes a critical view on regional industry clusters, in particular their identification and formation, and the policies which help create and support them.

The Jet Ski Manual

This book gives a comprehensive and thorough introduction to ideas and major results of the theory of functions of several variables and of modern vector calculus in two and three dimensions. Clear and easy-to-follow writing style, carefully crafted examples, wide spectrum of applications and numerous illustrations, diagrams, and graphs invite students to use the textbook actively, helping them to both enforce their understanding of the material and to brush up on necessary technical and computational skills. Particular attention has been given to the material that some students find challenging, such as the chain rule, Implicit Function Theorem, parametrizations, or the Change of Variables Theorem.

Viking Families and Farms

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

Strange Bedfellows

Raising Dad

Are you still looking for an awesome birthday present? Cute and funny birthday gift idea for your daughter, son, brother and sister, mother, dad.

Popular Mechanics

Quantum theory forces us to consider the usual scientific method invalid in several ways. It even questions the basis of scientific logic: cause and effect. The current scientific method ignores individual experience and the different states of awareness we go through in the sleep states of the brain. Phil Petersen, Ph.D., explores how to open science to study these states and better understand how the uncertainty of quantum theory applies to them and our waking state. He asserts that this helps us understand how to enable positive possibilities for our lives. The book will appeal to those who meditate or believe in the power of positive thinking as well as those who are open to questioning the very foundations of science. Readers will learn what history's greatest thinkers, including Francis Bacon, Stephen Hawking, Thomas Kuhn, Albert Einstein, and others, have said about the reality of the world in which we live. Discover an intriguing argument for reconsidering and replacing the scientific method to explore different realms of consciousness and enjoy spiritual awareness and healing with the insights in *A New Quantum Scientific Method*.

Whitaker's Book List

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual

Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Small Animal Surgical Nursing

Irawati Karve Studies The Humanity Of The Mahabharata S Great Figures, With All Their Virtues And Their Equally Numerous Faults. Sought Out By An Inquirer Like Her, Whose View Of Life Is Secular, Scientific, Anthropological In The Widest Sense, It Is Also Appreciative Of Literary Values, Social Problems Of The Past And Present Alike, And Human Needs And Responses In The Present And Past.

Optical Network Design and Planning

The gang is back! Taking place four years after the events of the first book, *The Hunt for Saturn* continues the saga of Vincent and his friends. The rebellion that started on Urtan has now spread throughout the entire galaxy, threatening to bring the Imperial Republic down to its knees once and for all. Follow the companions as they escape the madness of General Zeth and prepare for the biggest conflict of their lives. Once again, *Eternal Horizon* incorporates sci-fi, fantasy, and comic book elements to continue the "novel-encyclopedia" series with over 90 illustrations that include character profiles, starship diagrams, scenic chapter openers and other images that support the story.

Learning SolidWorks 2013

With focused coverage of the veterinary technician's specific role and responsibilities in small animal surgery, *Small Animal Surgical Nursing, 3rd Edition* helps you gain exceptional clinical competency. Topics include protocol, sterilization, gowning, gloving, anesthesia, wound management, and care of the animals before and after surgery. This new edition will also expand on common complications that might be encountered during surgical procedures and outlines how to best avoid or prepare for this situation. Plus, with enhanced online resources including interactive exercises, you will have all the tools needed to master the full gamut of surgical nursing responsibilities involving small animals. Complete coverage of small animal surgical nursing as it relates to the roles and responsibilities of the veterinary technician provides a full review of the role of the technician in the surgical setting. Focus on exceptional clinical skills and practice tips draws from the author's real-world experiences of what is most commonly encountered in the clinical setting. Attention to detail fosters appropriate comprehension levels in required veterinary technician surgical nursing courses.

Extensive full-color illustrations and photographs vividly guide learning in the areas of necessary equipment, instruments, sterile techniques, suturing techniques, and wound management. Well-written performance objectives are included at the beginning of each chapter to help readers identify what should be mastered in the upcoming chapter. Key points and review questions are included at the end of each chapter to focus and reinforce learning. Practical appendices cover dosage calculations, how to quickly set IV fluid drip rates, how to make up various solutions of medications for constant rate infusions, and more to further facilitate the reader's ability to work quickly and efficiently. NEW! Online user resources on the Evolve companion website include interactive activities.

Harley-Davidson XL883 XL1200 Sportster 2004-2013

Assessments, understood as tools for tracking what and how well students have learned, play a critical role in the classroom. *Developing Assessments for the Next Generation Science Standards* develops an approach to science assessment to meet the vision of science education for the future as it has been elaborated in *A Framework for K-12 Science Education (Framework)* and *Next Generation Science Standards (NGSS)*. These documents are brand new and the changes they call for are barely under way, but the new assessments will be needed as soon as states and districts begin the process of implementing the NGSS and changing their approach to science education. The new Framework and the NGSS are designed to guide educators in significantly altering the way K-12 science is taught. The Framework is aimed at making science education more closely resemble the way scientists actually work and think, and making instruction reflect research on learning that demonstrates the importance of building coherent understandings over time. It structures science education around three dimensions - the practices through which scientists and engineers do their work, the key crosscutting concepts that cut across disciplines, and the core ideas of the disciplines - and argues that they should be interwoven in every aspect of science education, building in sophistication as students progress through grades K-12. *Developing Assessments for the Next Generation Science Standards* recommends strategies for developing assessments that yield valid measures of student proficiency in science as described in the new Framework. This report reviews recent and current work in science assessment to determine which aspects of the Framework's vision can be assessed with available techniques and what additional research and development will be needed to support an assessment system that fully meets that vision. The report offers a systems approach to science assessment, in which a range of assessment strategies are designed to answer different kinds of questions with appropriate degrees of specificity and provide results that complement one another. *Developing Assessments for the Next Generation Science Standards* makes the case that a science assessment system that meets the Framework's vision should consist of assessments designed to support classroom instruction, assessments designed to monitor science learning on a broader scale, and indicators designed to track opportunity to learn. New standards for science education make clear that new modes of assessment designed to measure the integrated learning they promote are essential. The recommendations of this report will be key to making sure that the dramatic changes in curriculum and instruction signaled by Framework and the NGSS reduce inequities in science education and raise the level of science education for all students.

Auto Repair For Dummies

XLH883, XL883R, XLH1100, XL/XLH1200

Mariner 2-220 HP OB 1976-1989

How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business. Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture, in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobs while also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In *A Slice of the Pie* Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. *A Slice of the Pie* will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

Joline's Redemption

From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable

conclusion: these machines cannot be operated without loss of life and loss of habitat.

Feminism and the Politics of Travel After the Enlightenment

Looks at what life was like for those who were not on an expedition, including Viking houses and farms, the roles of men and women, slavery, and what Viking feasts were like.

Howling at the Moon

Just a Spoon Full of Laughter is a great read for anyone that's been to a doctor's office and made it out alive. Written by an actual physician, it will keep you in stitches (no pun intended) from one story to the next. See for yourself what could be so funny about the physician office visit. Whether it's recalling his first sigmoidoscopy or performing an autopsy, you'll keep this riveting series of short humorous stories right there in the bathroom for pleasurable reading. You may even find yourself somewhere between the pages. From an author who will never be a New York Times Best Seller, it's a great book for young or old, male or female, professional or not. It's especially ideal for that person in your life who has everything except a sense of humor. It's ideal as a stocking stuffer, white elephant gift or for future yard sales. "The funniest book I ever read." Says Dr. Zhivago "Yes! Yes! Yes!" Says Dr. No

A Slice of the Pie

Jet skis are immensely popular coastal 'playthings' - but they need careful handling and maintenance. This is a highly illustrated hands-on manual providing advice, hints and tips on choosing, driving, handling, maintaining and repairing a jet ski - the complete owner's manual. Many owners will prefer to service and maintain

their own machine (much like they would with an outboard motor), rather than take it to a service agent, and the step by step photos in this book will enable them to do just this. This is a brand new, highly illustrated step-by-step guide for the jet ski owner (of which there are many in the UK alone) which provides helpful advice on all the aspects of ownership, handling and maintenance. There is no other book on the market which does this.

The New Evangelization and You

Vector Calculus

This book takes a pragmatic approach to deploying state-of-the-art optical networking equipment in metro-core and backbone networks. The book is oriented towards practical implementation of optical network design. Algorithms and methodologies related to routing, regeneration, wavelength assignment, sub rate-traffic grooming and protection are presented, with an emphasis on optical-bypass-enabled (or all-optical) networks. The author has emphasized the economics of optical networking, with a full chapter of economic studies that offer guidelines as to when and how optical-bypass technology should be deployed. This new edition contains: new chapter on dynamic optical networking and a new chapter on flexible/elastic optical networks. Expanded coverage of new physical-layer technology (e.g., coherent detection) and its impact on network design and enhanced coverage of ROADM architectures and properties, including colorless, directionless, contentionless and gridless. Covers 'hot' topics, such as Software Defined Networking and energy efficiency, algorithmic advancements and techniques, especially in the area of impairment-aware routing and wavelength assignment. Provides more illustrative examples of concepts are provided, using three reference networks (the topology files for the networks are provided on a web site, for further studies by the reader). Also exercises have been added at the end of the chapters to enhance the book's utility as a course textbook.

Blue's Best Rainy Day

Daring and defiant there's no stopping diver Hawk Ridley as he takes the plunge into a briny world of untold riches and danger. The Caribbean is a fortune hunter's dream, salted with the gold of galleons long ago claimed by the deep. Now Hawk's headed for the Windward Passage of Haiti to stake his claim. But a rival team has also picked up the scent, and they're willing to turn the sea red with blood to get to the gold first. Fighting off ruthless competitors is nothing new to Hawk but fighting off a beautiful woman is a different story. Is she an innocent stowaway or a seductive saboteur? Between the cool millions lying on the bottom of the ocean, and the boiling-hot race to grab it, Hawk's about to find the answer and make a discovery Twenty Fathoms Down that will blow you out of the water. "Primo Pulp Fiction." —Booklist

Harley-Davidson XL/XLH Sportster 1986-2003

The latest in the Hot Blood series is a collection of terrifying and titillating stories by authors who embrace the seductive side of horror--where what happens in the dark stays in the dark.

Just a Spoonful of Laughter Helps the Medicine Go Down

This book will teach you everything you need to know to start using SolidWorks 2013 with easy to understand, step-by-step tutorials. This book features a simple robot design used as a project throughout the book. You will learn to model parts, create assemblies, run simulations and even create animations of your robot design. No previous experience with Computer Aided Drafting (CAD) is needed since this book starts at an introductory level. The author begins by getting you familiar with the SolidWorks interface and its basic tools right away. You will start by learning to model simple robot parts and before long you will graduate to creating more complex parts and multi-view drawings. Along the way you will learn the fundamentals of parametric modeling through the use of geometric constraints and relationships. You will also become familiar with many of SolidWorks's powerful tools and commands that enable you to easily construct complex features in your models. Also included is coverage of gears, gear trains and spur gear creation using SolidWorks. This book continues by examining the different mechanisms commonly used in walking robots. You will learn the basic types of planar four-bar linkages commonly used in mechanical designs and how to use the GeoGebra Dynamic Geometry software to simulate and analyze 2D linkages. Using the knowledge you gained about linkages and mechanism, you will learn how to modify your robot and change its behavior by modifying or creating new parts. In the final chapter of this book you learn how to combine all the robot parts into assemblies and then run motion analysis. You will finish off your project by creating 3D animations of your robot in action. There are many books that show you how to perform individual tasks with SolidWorks, but this book takes you through an entire project and shows you the complete engineering process. By the end of this book you will have modeled and assembled nearly all the parts that make up the TAMIYA® Mechanical Tiger and can start building your own robot.

Motorized Obsessions

Sea-Doo Water Vehicles Shop Manual: 1997-2001 (Clymer Personal Watercraft)

"It's raining outside, and Blue has planned a special scavenger hunt for all her friends to follow! Where will Blue's scavenger hunt lead? Find out in this interactive story."--P. [4] of cover.

Phoenix Chosen

Joline had lofty dreams of love and luxury, but after her husband leaves her and she makes a series of fateful decisions, Jo has fallen as far as any woman can. Bereft of all hope and with the threat of losing her son, Jo seeks refuge at her sister's home. Jo has a long list of secrets to keep and has to look over her shoulder, as the man she's running from may show up anywhere, anytime. Is it possible that God can redeem Jo, and give her hope for a happy future? Find out in Joline's Redemption—book 2 in Vickie McDonough's Land Rush Dreams trilogy.
