While My Sister Sleeps

In Shakespeare and the Dawn of Modern Science, renowned astronomy expert Peter Usher expands upon his allegorical interpretation of Hamlet and analyzes four more plays, Love's Labour's Lost, Cymbeline, The Merchant of Venice, and The Winter's Tale. With painstaking thoroughness, he dissects the plays and reveals that, contrary to current belief, Shakespeare was well aware of the scientific revolutions of his time. Moreover, Shakespeare imbeds in the allegorical subtext information on the appearances of the Sun, Moon, planets, and stars that he could not have known without telescopic aid, yet these plays appeared coeval with or prior to the commonly accepted date of 1610 for the invention and first use of the astronomical telescope. Dr. Usher argues that an early telescope, the so-called perspective glass, was the likely means for the acquisition of these data. This device was invented by the mathematician Leonard Digges, whose grandson of the same name contributed poems to the First and Second Folio editions of Shakespeare's plays. Shakespeare and the Dawn of Modern Science is an important addition to literature, history, and science collections as well as to personal libraries.

As teachers around the world deal with the challenges of inclusive education, they must find effective ways of enhancing their classroom teaching methods. What Really Works in Special and Inclusive Education presents teachers with a range of evidence-based strategies they can immediately put into practice in their classrooms. This unique book will be an invaluable resource for educators who may not have the time or the inclination to engage with theory-heavy research, but who wish to ensure that their teaching strategies are up-to-the-minute and proven to be the most effective best practices. Each of the 27 strategies that this book comprises has a substantial research base, a strong theoretical rationale and clear guidelines on their implementation, as well as cautionary advice where necessary. In this new second edition, David Mitchell, a leading writer in special and inclusive education, continues to break new ground with revised and updated strategies based on evidence from the most recent studies in the field. From the myriad of related research available, only those studies with genuine potential for improving the practices of teachers and schools have been included, with the aim of facilitating high-quality learning and social outcomes for all learners in schools. Updates to this new edition include: four new chapters, on response to intervention, universal design for learning, inter-agency cooperation and one on the Finnish education system over 350 new references an even wider international focus, including evidence drawn from Asia references to recent developments in neuroscience a new companion website, with extra case studies, links to further reading, journal articles and videos, and an interactive quiz, at www.routledge.com/cw/mitchell This book will be essential reading for anyone with a vocational or academic interest in evidence-based special educational needs teaching strategies, whether a student in initial teacher education or a qualified classroom teacher, teacher educator, educational psychologist, special needs coordinator, parent, consultant or researcher. David Mitchell is an Adjunct Professor in the College of

Education, University of Canterbury, Christchurch, New Zealand, and a consultant in inclusive education. 'This is the book I wish I had written, synthesizing an enormous literature focused on special needs students. It is robust, it is readable, and it is your right-hand resource. A stunner of a book.' -Professor John Hattie, University of Melbourne, author of Visible Learning

Hollywood and Hitler, 1933-1939

Much like Greek and Roman mythology, Norse myths are still with us. Famous storytellers from JRR Tolkien to Neil Gaiman have drawn their inspiration from the long-haired, mead-drinking, marauding and pillaging Vikings. Their creator is a thirteenth-century Icelandic chieftain by the name of Snorri Sturluson. Like Homer, Snorri was a bard, writing down and embellishing the folklore and pagan legends of medieval Scandinavia. Unlike Homer, Snorri was a man of the world—a wily political power player, one of the richest men in Iceland who came close to ruling it, and even closer to betraying it In Song of the Vikings, award-winning author Nancy Marie Brown brings Snorri Sturluson's story to life in a richly textured narrative that draws on newly available sources.

Haunted London Pubs

London is a historical city full of mysteries and curiosities, and is home to many of England's oldest and quirky pubs. It comes as no surprise that these pubs have a great deal more than their fair share of ghosts, phantoms, and ghouls! A menacing ghostly soldier lurks in Mayfair's Grenadier pub; the hooves of Dick Turpin's Black Bess can be heard galloping up to the Spaniard's Inn at Hampstead; a scary nun does the rounds at the Horns in Bermondsey; and many people have heard the voices of long-dead drinkers killed when the King's Arms in Peckham Rye was blitzed. Combining some well-known stories with others that are long-forgotten, this fascinating book delves into the rich tapestry of London's pub history, with a perfect mix of the past, folklore, popular culture, and the supernatural.

As voters articulate their judgments of the parties and leaders in their fifth democratic election, Election 2014 South Africa: The Campaigns, Results & Future Prospects provides a platform for in-depth discussion and analysis of party campaigns, voting patterns, and election results of the 2014 general elections. Following the tradition of previous volumes that cover South Africa's national and provincial elections since 1994, this book draws on the expertise of renowned authors to cover important aspects of the election, including the major political party campaigns, the media's coverage of the campaigns, the latest trends in political participation and party fortunes, gender dynamics, the black middle class, as well as insights into the voter and public opinion on the eve of the election. Readers are presented with more than a mere study of a single election; they are also presented with a contemporary understanding of electoral politics and democracy in South Africa over two democratic decades and reflections on how elections strengthen the quality and prospects for democracy.

Ordinary in Brighton? offers the first large scale examination of the impact of the UK equalities legislation on lesbian, gay, bi- and trans (LGBT) lives, and the effects of these changes on LGBT political activism. Using the participatory research project, Count Me In Too, this book investigates the material issues of social/spatial injustice that were pertinent for some - but not all- LGBT people, and explores activism working in partnership that operated with/within the state. Ordinary in Brighton? explores the unevenly felt consequences of assimilation and inclusion in a city that was compelled to provide a place (literally and figuratively) for LGBT people. Brighton itself is understood to be exceptional, and exploring this specific location provides insights into how place operates as constitutive of lives and activism. Despite its placing as 'the gay capital' and its long history as a favoured location of LGBT people, there is very little academic or popular literature published about this city. This book offers insights into the first decade of the 21st century when sexual and gender dissidents supposedly became ordinary here, rather than exceptional and transgressive. It argues that geographical imaginings of this city as the 'gay capital' formed activism that sought positive social change for LGBT people. The possibilities of legislative change and urban inclusivities enabled some LGBT people to live ordinary lives, but this potential existed in tension with normalisations and exclusions. Alongside the necessary critiques, Ordinary in Brighton? asks for conceptualisations of the creative and co-operative possibilities of ordinariness. The book concludes by differentiating the exclusionary ideals of normalisation from the possibilities of ordinariness, which has the potential to render a range of people not only in-place, but commonplace. General Dynamics Aircraft and Their Predecessors

One of the last places you'd expect to find fun is in an elementary-school janitor's cleaning closet. Creator Jef Mallett has given life to Renaissance man/janitor Edwin Frazier, better known as "Frazz," who took the job at Bryson Elementary School when he was a struggling songwriter. He then surprised everyone by sticking around after selling his first hit song; the school will never be the same. Frazz: Live from Bryson Elementary features the diverse cast of charming characters Frazz readers have come to love. There's eight-year-old budding genius Caulfield. He's a constant thorn in the side of burned-out third-grade teacher Mrs. Olsen, who still remembers having Frazz in her class more than 20 years ago. Caulfield needs Frazz to challenge him as he remarks, "School would be OK if it didn't interfere so much with my education." Hilariously naive Principal Spaetzle wants to be like Frazz, and first-grade teacher (and first-rate babe!) Miss Plainwell is getting to know him better. And the kids at Bryson Elementary can't get enough of him! Live from Bryson Elementary is the first Frazz collection and will leave fans begging for more.

The behind-the-scenes story of Hollywood's struggle with Nazism before the outbreak of war. The abundance of WWII-era documentaries and the huge cache of archival footage that has emerged since 1945 make it seem as if cinematic images of the Nazis were always as vivid and plentiful as they are today. Yet between 1933 and 1939, representations of the Nazis and the full meaning of Nazism came slowly to Hollywood, growing more distinct and ominous only as the decade wore on. Recapturing what ordinary Americans saw on the screen during the emerging Nazi threat, Thomas Doherty reclaims forgotten films, such as Hitler's Reign of Terror (1934), a pioneering anti-Nazi docu-drama by Cornelius Vanderbilt, Jr.; I Was a Captive of Nazi Germany (1936), a sensational true tale of "a Hollywood girl in Naziland!"; and Professor Mamlock (1938), an anti-Nazi film made by German refugees living in the Soviet Union. Doherty also recounts how the disproportionately Jewish backgrounds of the executives of the studios.
