What makes a leader a Christian leader? Too many churches and parachurch groups operate under secular leadership principles and strategies without considering what Scripture teaches. In this accessible and comprehensive book, leadership expert Aubrey Malphurs articulates a working definition of Christian leadership based on the Bible and his own extensive research. Malphurs begins by defining a uniquely Christian leader from the inside out, from godly character and commitment to pure motives and a servant attitude. He examines the leaders of the first-century church and then discusses qualities such as credibility, capability, and influence that are essential for successful leadership. Each chapter contains helpful questions for reflection and discussion. The appendix includes numerous audits to help readers evaluate themselves on various leadership components. Being Leaders is the first book of a two-part series on leadership. The companion book will address the how-to of building leaders.

Antistatic sprays from several different manufacturers are examined. The sprays are examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center

BMW 7 Series (E32) Service Manual 1988, 1989, 1990, 1991, 1992, 1993 1994

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

BMW F800 (F650, F700) Twins

How do the rich get rich? An updated edition of the “remarkable” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don’t live in Beverly Hills or on Park Avenue. They live next door. America’s wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don’t realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “rich” are actually a tiny minority of America’s truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America’s rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today’s earn-and-consume culture.”
