### WALNECK'S CLASSIC CYCLE TRADER, JUNE 2005

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

If you haven't been snapped by Richard Young, you haven't made the A-List. He's the most sought-after celebrity photographer in the world. Known for having a remarkable rapport with his subjects, he was the official photographer at Sting's wedding to Trudie Styler, shot the final photographs of Princess Diana at her last official engagement, visited the orphanages of Romania with Michael Jackson, toured the country with the Sex Pistols, and partied with Madonna and Sean Combs to produce some of the most iconic images of the late 1990s. Showcasing Richard Young's finest work, Shooting Stars is a singular record of popular culture over the last three decades.

This dynamic volume chronicles the design and development of the Evolution engine and the machines it powers. Told through firsthand accounts from engineers and designers, this story goes beyond the new engine to Harley-Davidson's shift to a more nostalgic look. The book also covers the softtail suspension that has the appearance of 1940's-era suspension while providing a smooth and comfortable ride. Field taps into how Harley-Davidson transformed the motorcycle of choice for outlaws and outcasts into a cultural icon for affluent excitement.

### **John Haynes**

Harley-Davidson: words that evoke the open American road and the 'Made in America' tradition like no others. The sweeping chopper handlebars, the distinctive throaty 'potato potato' roar of the engine and the unmistakable logo are all emblems recognized the world over. This book expertly ties together the mechanical evolution of the Harley's engines - from the earliest motorized pedal bicycles to the iconic heavyweight twin cylinder V-engines we know and love today - and the social history of the brand's phenomenal rise in the twentieth century, as innovative survivor of the Great Depression, supplier of the military during both World Wars and enduring symbol of freedom and rebellion in movies such as 'Easy Rider'. It is fully illustrated with pictures of the bikes and those who have ridden them as well as beautiful examples of H-D's distinctive design aesthetic in advertising and collectibles.

Demize," a sophisticated computer virus compromises the security of the Internet and all e-commerce transactions by producing millions of fictitious Web transactions. It begins to attack all computers and financial systems, quickly closing down the world's banks, shops and offices. Demize then creates false demand across all electrical grids, causing massive power surges and widespread blackouts, resulting in the shutdown of electrical services. Third-world diseases begin to appear in all major cities because of a lack of (clean) water and overflowing sewage systems. The people of the world start dying by the million, their leaders powerless to prevent large-scale looting, rioting, panic and devastation. The world is suddenly without food, water, electricity, fuel and medical supplies and millions evacuate large metropolitan areas, looking to country areas for their survival. One such group is the Rebel Angels Motorbike Club. After stealing a petrol tanker, the 30 club members travel north on their Electra Glide, Harley Davidson Motorbikes, looking for a place to stay that has food, water and accommodation for their large group. The story focuses on the struggle for survival of the Glenford family on the Mid North Coast of Australia, who because of their isolated forest location, have food and water in abundance. Their struggle for survival is typical of millions of other small family units as the world tries to come to grips with the new o
