billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Walt McCall follows up his successful Classic American Ambulances 1900-1979 Photo Archive with a new and expanded title that fills in a heretofore missing chapter in American emergency vehicle history. This book chronicles in words and photos the evolution of the emergency ambulance in America over the past 100 years. From the slow jouncing horse-drawn vehicles in use at the turn of the last century to the fleet electronics-laden advanced life support units on the streets and highways of today - you'll find it all here. A fascinating story that is long
