What's Your Green Goldfish is based on the simple premise that employees are the key drivers of customer experience and that "Happy Employees Create Happy Customers." The book focuses on 15 different ways to drive employee engagement and reinforce a strong corporate culture. It's the second book in the goldfish trilogy. The first book was an Amazon Best Seller entitled, What's Your Purple Goldfish. Purple focused on customers, whereby Green focuses on employees. Both books are based on a revolutionary new approach called marketing g.l.u.e. (marketing by giving little unexpected extras). The book is based on the findings of the Green Goldfish Project, an effort which crowd sourced 1,001 examples of signature added value for employees. Key themes emerged from the Project. The book is filled with over 200 examples. PRAISE FOR WHAT'S YOUR GREEN GOLDFISH "Stan is the sherpa that guides executives along the journey between the heart and mind of business stakeholders. Stakeholders aren't always customers though. At a time when company vision and culture matters more than ever, it takes inspired and engaged employees to bring them to life." - Brian Solis, author of

What's the Future of Business #WTF, The End of Business as Usual and Engage "So often overlooked, and so very vital to building company value empowering employees to support each other and the brand. Stan Phelps 'gets' it and Green Goldfish will walk you step-by-step though achieving this critical goal." - Ted Rubin, author of Return on Relationship "Great customer centric organizations only exist because of engaged and empowered employees. The Green Goldfish is packed with awesome examples of what world class companies are doing today to inspire and reward their employees. If you see value in truly building an "A Team," Green Goldfish will be, without question, your single best reference." - Chris Zane, Founder and President of Zane's Cycles, author of Reinventing the Wheel, the Science of Creating Lifetime Customers "Stan Phelps takes customer service to a whole new level by focusing on EMPLOYEE service, and how to do well by your employees - so they take care of your customers. Packed with stories, insights and R.U.L.E.S. any company can follow, this book is a must-read for managers of companies of all shapes and sizes who know that employees don't leave jobs - they leave managers, especially when they don't feel your love and appreciation. Pick this up, and start engaging your team and making more GREEN - Phil Gerbyshak, author of The Naked Truth of Social Media "Our large-scale research shows unequivocally that engaged employees are more likely to work longer, try harder, make more suggestions for improvement, recruit others to join their company, and go out of their way to help customers. They even take less sick time. Companies can tap into the enormous value of engaged employees by following the 15 ideas

that Stan lays out in this book." - Bruce Temkin, author of The Six Laws of Customer Experience "Too often, the actual employment experience delivered on the job does not measure up to the version sold to job candidates during the interview process. In What's Your Green Goldfish, Stan Phelps offers 15 ways to close the gap." - Steve Curtin, author of Delight Your Customers: 7 Simple Ways to Raise Your Customer Service from Ordinary to Extraordinary (AMACOM, June 2013) "In What's Your Green Goldfish, Stan Phelps brilliantly applies the idea of 'doing a little something extra' for employees. You know, those people that actually get the work done and keep customers happy. Read it, put some of the ideas to work, and soon you'll be reaping more 'green' from your customers." - Bob Thompson, Founder and CEO, CustomerThink Corp.

IT was on the morning of the 26th of May, 1848, that after a short passage of twenty-nine days from Liverpool, we came to anchor opposite the southern entrance to the River Amazon, and obtained our first view of South America. In the afternoon the pilot came on board, and the next morning we sailed with a fair wind up the river, which for fifty miles could only be distinguished from the ocean by its calmness and discoloured water, the northern shore being invisible, and the southern at a distance of ten or twelve miles. Early on the morning of the 28th we again anchored; and when the sun rose in a cloudless sky, the city of Pará,

surrounded by the dense forest, and overtopped by palms and plantains, greeted our sight, appearing doubly beautiful from the presence of those luxuriant tropical productions in a state of nature, which we had so often admired in the conservatories of Kew and Chatsworth. The canoes passing with their motley crews of Negroes and Indians, the vultures soaring overhead or walking lazily about the beach, and the crowds of swallows on the churches and house-tops, all served to occupy our attention till the Custom-house officers visited us, and we were allowed to go on shore. Pará contains about 15,000 inhabitants, and does not cover a great extent of ground; yet it is the largest city on the greatest river in the world, the Amazon, and is the capital of a province equal in extent to all Western Europe. It is the residence of a President appointed by the Emperor of Brazil, and of a Bishop whose see extends two thousand miles into the interior, over a country peopled by countless tribes of unconverted Indians. The province of Pará is the most northern portion of Brazil, and though it is naturally the richest part of that vast empire, it is the least known, and at present of the least commercial importance. The appearance of the city from the river, which is the best view that can be obtained of it, is not more foreign than that of Calais or Boulogne. The houses are generally white, and several handsome churches and public buildings raise their towers and domes above them. The vigour of vegetation is everywhere apparent. The ledges and mouldings support a growth of small plants, and from the wall-tops and window-openings of the churches often spring luxuriant weeds and sometimes small trees. Above and below and behind the city, as far as the eye can reach,

extends the unbroken forest; all the small islands in the river are wooded to the water's edge, and many sandbanks flooded at high-water are covered with shrubs and small trees, whose tops only now appeared above the surface. The general aspect of the trees was not different from those of Europe, except where the "feathery palm-trees" raised their graceful forms; but our imaginations were busy picturing the wonderful scenes to be beheld in their dark recesses, and we longed for the time when we should be at liberty to explore them.

The growing mobility of people within and into the Asia Pacific region has created environments of increasing diversity as nations become hosts to both permanent and temporary multicultural societies. How do we begin to gauge the impact of mobility and multiculturalism on individuals and groups in this diverse region today? The authors of *The Asia Pacific in the Age of Transnational Mobility* turn to social media as a tool of inquiry to map how mobile subjects and minorities articulate their sense of community and identity. The authors see social media as a platform that allows users to document and express their individual and collective identities, sometimes in restrictive communication environments, while providing a sense of belonging and agency. They present original empirical work that attempts to help readers understand how mobile subjects who circulate in the Asia Pacific
