## The Woman's Firearm Guide

Why does life seem to be so unfair? Or is it? Is there a God? And if there is a God, how come God can be so unjust, and why do bad things happen to good people? Religious people and philosophers have tried to answer these questions about life in the past using the metaphors of their day and age, as well as of their professions. Old metaphor might have resonated with people back then and might still make sense to some today, but that is leaving out a multitude of others who are finding it difficult to relate to this language; especially the young. This book explains how things in life work using the language and the metaphors of mathematics, chemistry and physics that everybody has been acquiring in school. Here are some of the answers to how things work in life: -The word God is a metaphor. God is "everything," and God is fair. -The world is "thoughts," but that does not mean that you just sit there and think about becoming great to achieve greatness the way it's been touted in the book titled "The Secret" by Rhonda Byrne! No! That's wrong! And it's not how the equation works! -Good and bad are relative quantities. -War is necessary to keep the balance of power between good and bad, but it doesn't have to result in bloodshed. -Sex is a commodity and it has a sublime value that has to be implemented. -Love is a binding force. Lust and Dependency belong on the opposite ends of the spectrum of love. -Like does not belong on the spectrum of love. -We do have a choice, and our choice does make a difference. -Our reaction is the only variable that can change every equation in our

life. -There are different degrees of only two religions in the world: Conservative and Liberal. And more

Readers will feel they know someone just like the characters in this timely novel on social status and social media. Steen Sand, CEO of Stensure Networks, is the head honcho at an IT firm that's developed an Internet service to monitor, compute, and publish people's social status. His chief operating officer, Irene Lund, serves as his muse. He needs her to be part of his world, or he can't achieve anything of significance. But does she feel the same? Chief financial officer, Michael Jensen, is a hard-core pessimist who has learned the hard way not to speak up against the status quo, in spite of his natural inclination to do so. Jensen's a numbers guy. He relates to spreadsheets better than he does to people. Will this cost him in the end? Louise Hald, chief marketing officer, joined Stensure's management team after leaving her post as an assistant professor at a business school. She's beginning to wonder if she'll ever move past the "assistant" part in the eyes of her coworkers. What can she do to ensure she gets ahead? And then there's Sophie Bech. She's made the long trip back to Denmark from South Africa for her own private reasons, and everything looks different to her now. She wonders what her return will hold for her. Was it a mistake? Will her fresh set of eyes-and values-help or hinder the team? Reductionism-understanding complex things by reducing them to fundamental parts and interactions-comes up against social status, so subtle, intricate, and sought-after, in this intriguing modern-day novel. Will these characters-and their supporting players-make the changes they need to survive in today's world? Or will they succumb to the allure of using easy but underhanded methods to get ahead?

Do you believe in re-births? If not, read--A Woman In Time Transit--where the same spirit of a woman is born time and again in different time and geographical zones of human history. These births had taken place among different societies. Thus the book comprises of three separate stories, each having different characters, cultures and circumstances; hence a 'trilogy'. The first birth had taken place in antiquity, when humans lived in individual groups. They were food gatherers and hunters but their lingual apparatuses were not developed, therefore there was no language. The reader would find the answer to the question; how women used to head such groups, where only brute force ruled. People could hardly pronounce 'Shuh', as they called their leader. In the second birth, the heroine was born in household of an Egyptian priest and was named Nekhebi, and whose forefathers were the initiators of moralistic laws, and she was fully trained in every discipline of priesthood by her father. Despite that, only one instance changed her all perceptions of faith. She seduces a male of her own tribe in the first instance and from there her libido drives, controlled by her Physis did not let her stop from indulging in every act there was to indulge. Nekhebi, in her mastery of manipulations forged a plan which was later on used by Pharaohs to claim themselves as spiritual leaders. In the third birth the lax spirit was born in the City State of Sparta, and continued in the similar promiscuous manner as that of her two counter-parts. In each episode characters have been developed, who would be found antithesis to the debauch spirit and those contradiction and conflicts would be enjoyable to read.

## **Personality Plus: Some Experiences of Emma McChesney and Her Son, Jock**

LOVE RISES is pure, well, not so pure, fiction based on fact. A young Confederate lieutenant and a daring, older woman break all the taboos of the South in their efforts to survive a war-shattered world. When the Civil War ends, dashing Confederate Lieutenant Charlie Irving helps Julia's husband, General Robert Toombs, flee to France to avoid Union charges for treason. For years, Charlie has lusted after Julia even though she is a married woman twenty years his senior, and the South's most celebrated beauty. Under Charlie's smoldering looks, Julia goes weak in the knees and dreams of falling with Charlie on the thick, Persian carpet in her mansion's parlor. The aftermath of war offers a world based on survival and a chance to explore their passion if the two can survive the North's continuing effort to crush the South. But Julia still loves her husband, and code-of-honor-bound Charlie has sworn to take care of Julia in the General's absence. Is General Toombs' desperate plea to Charlie to do whatever is necessary to keep his wife safe and happy, curse or blessing on what the future holds?

'What holds sway over this country without morals, beliefs, or feelings? Gold and pleasure.' Sexual attraction, artistic insight, and the often ironic relationship between them is the dominant theme in the three short works collected in this volume. In *Sarrasine* an impetuous young sculptor falls in love with a diva of the Roman stage, but rapture turns to rage when he discovers the reality behind the seductiveness of the singer's voice. The ageing artist in *The Unknown Masterpiece*, obsessed with his creation of the perfect image of an ideal woman, tries to hide it from the jealous young student who is desperate for a glimpse of it. And in *The Girl with the Golden Eyes*, the hero is a dandy whose attractiveness for the mysterious Paquita has an unexpected origin. These enigmatic and disturbing forays into the margins of madness, sexuality, and creativity show Balzac spinning fantastic tales as profound as any of his longer fictions. His mastery of the seductions of storytelling places these novellas among the nineteenth-century's richest explorations of art and desire. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

At the age of forty-four, Jan Vallone is everything her Italian American parents brought her up to be—a lawyer, wife and mother who owns a vintage home and takes European vacations. But instead of feeling happy and successful, she's consumed by frustration and anxiety that threaten to shatter her marriage and have dimmed her faith. Discarding prosperity and prestige, she takes a job teaching English at a yeshiva—an Orthodox Jewish high school—though she was raised Catholic. There, she opens her heart to her students, who bloom under her tutelage and teach her the meaning of faith and fulfillment. Set in New York, Seattle and Italy, *Pieces of Someday* portrays how one woman fuses the facets of her life—family, career, ethnicity, spirituality and dreams—into a cohesive picture as luminous as stained glass. From Reviewers *Pieces of Someday* is a gripping chronicle of one woman's disappointments and blessings. In this striking debut, Jan Vallone writes with tenderness, wisdom, and humor about family, faith, and legacies, and finding a place in the world. —Jocelyn Lieu, author of *What Isn't There: Inside a Season of Change* Jan Vallone's memoir is something rare: a story that is

deeply personal, and yet one that will resonate with countless contemporary women seeking some deeper gratification beneath the surface of success. Her candor and her pointillist's eye for detail emerge in writing crafted with power and precision. -David Sobel, editor and writer, instructor at Eugene Lang College, *The New School* Vallone's prose shifts and gleams as surely and mysteriously as kaleidoscopic light. -Dani Boss, teacher, author of the memoir *Little America* *Pieces of Someday* is a beautifully-written account of fathers and daughters, teachers and students, successes and failures-the wonderful offspring of what Vallone calls her "dominant ponder gene." Holding up a defiant hand against the cynicism that has come to mark so much of America's story, she insists that the greatest success may be measured, not in the things we accumulate, but in the lives we touch. -Les Lamkin, teacher, author of the fiction collection *Happiness is a Dead Wife* Jan Vallone pulls our common experience into her personal memoir by weaving surprises through every chapter-some challenging, some unsettling, some smashing into truth, others gently leading to revelation. -Gwen Mansfield, teacher, author of the novel *Experiment Station Road I laughed, I cried-mostly I related.* *Pieces of Someday* is unflinching-a heart-wrenching memoir about one woman's battle against expectations. With this book, Jan Vallone brings light into the world and shows you've got to believe in people. -Isla McKetta, editor of *Forum Magazine* A gripping and earnest account of one woman's search for what truly matters in life. -Roxana Arama I was at once seized by this book. The story of Vallone's life in New York, Seattle and Italy is one to which every hungry reader can relate.

Vallone's work is joyful, impassioned, and endearing; her book is truly a celebration of her life as a teacher, her reverence for tradition, and the embracing of multicultural paths. -Julie Greene, author of the memoir *This Hunger Is Secret: My Journeys through Mental Illness and Wellness*. <http://juliemadblogger.wordpress.com>

Vallone's life blooms on these pages like the flowers in her garden-fragrant, colorful, real. -David Berg, computer technician and musician
