This prize-winning novel of a fugitive priest in Mexico is quite simply “Graham Greene’s masterpiece” (John Updike, The

New York Review of Books). In the Mexican state of Tabasco in the 1930s, all vestiges of Catholicism are being outlawed by the government. As churches are razed, icons are banned, and the price of devotion is execution, an unnamed member of the clergy flees. He's known only as the "whisky priest." Beset by heretical vices, guilt, and an immoral past, he's torn between self-destruction and self-preservation. Too modest to be a martyr, too stubborn to follow the law, and too craven to take a bullet, he now travels as one of the hunted—attending, in secret, to the spiritual needs of the faithful. When a peasant begs him to return to Tabasco to hear the confessions of a dying man, the whisky priest knows it's a trap. But it's also his duty—and possibly his salvation. Named by Time magazine as one of the hundred best English-language novels written since 1923, *The Power and the Glory* is "a violent, raw" work on "suffering, strained faith, and ultimate redemption" (The Atlantic).

Down and Out in Paris and London

"Money is what God used to be. Good and evil have no meaning any longer except failure and success." Disgusted by society's materialism, Gordon Comstock leaves his job in advertising to pursue an ill-fated career as a poet. In his race to the bottom, only Rosemary, his long-suffering girlfriend, challenges Gordon's self-destructive course. The novel contains the most sustained reflections on the role of the author and the artistic imagination anywhere in Orwell's fiction, as the book's protagonist struggles (and ultimately fails) to reconcile his romantic-aestheticist sensibilities with the pressures of the literary marketplace and with social expectations. Completed while Orwell travelled north to work on The Road to Wigan Pier, this novel is a key transitional text in his career. Offering a powerful portrayal of the emotional toll of precarity and the desire to break with capitalism, *Keep the Aspidistra Flying* is a significant work of mid-century British fiction but it also speaks to our own time. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

"You can live on a shilling a day in Paris if you know how. But it is a complicated business." As a struggling writer in his twenties, Orwell lived as a down-and-out among the poorest members of society. In this, his early memoir, Orwell recalls with vivid clarity his time working as a penniless dishwasher in Paris, pawning clothes to buy a day's worth of bread and wine, sleeping in bug-infested bunks, trading survival skills and cigarette butts with fellow tramps, and trudging between London's workhouse spikes for a few hours' sleep and tea. With all of the sensitivity and compassion that Orwell is known and loved for, he exposed the hardships of poverty and gave readers an unprecedented look at life lived on the fringes of society. This vivid account is an enduring call to support the world's most vulnerable people and exemplifies his belief that 'The greatest of evils and the worst of crimes is poverty.'

Air Emissions from Animal Feeding Operations: Current Knowledge, Future Needs discusses the need for the U.S. Environmental Protection Agency to implement a new method for estimating the amount of ammonia, nitrous oxide, methane, and other pollutants emitted from livestock and poultry farms, and for determining how these emissions are dispersed in the atmosphere. The committee calls for the EPA and the U.S. Department of Agriculture to establish a joint council to coordinate and oversee short - and long-term research to estimate emissions from animal feeding operations accurately and to develop mitigation strategies. Their recommendation was for the joint council to focus its efforts first on those pollutants that pose the greatest risk to the environment and public health.

Things Fall Apart

George Orwell's triumphant first novel. Informed by his experiences as a police officer in Burma, the novel paints a vivid portrait of the waning days of British imperial rule, and the racism and corruption that ran rampant. It centres on John Flory, a European businessman in colonial Burma, disenfranchised by the bigotry he sees around him and his persistent feeling of being out of place. When he meets Elizabeth Lackersteen, a beautiful, sensitive young woman, he thinks he has found a kindred spirit, but the picture of her in his mind may not prove to match the real person. Animal Farm

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times
