## **Gendering the Renaissance Commonwealth**

Book 3 in the popular series. “And they lived happily ever after.” In fairy tales, that’s always how things end. The prince and princess ride away on his white horse, and from then on all’s right with the world. But what if it wasn’t? What if the prince’s life didn’t suit the princess? What if she felt stifled by life inside the castle walls? Could she tell him? And if she loved him—really loved him—how could she ask him to give up his kingdom?

## **Italy**

The first comprehensive guide to women's promotion and use of textual culture, in manuscript and print, in Renaissance Italy.

## **Women and the Circulation of Texts in Renaissance Italy**

Beginning in the heady days just after the First Crusade, this volume—the third in the series that began with and —chronicles the contradictions of a world in transition.

This pioneering and innovative study challenges modern assumptions of what constitutes the political and the public in Renaissance thought. Offering gendered readings of a wide array of fifteenth- and sixteenth-century political thinkers, with a particular focus on the two prime thinkers of the early modern state, Niccol-Machiavelli and Jean Bodin, Anna Becker reconstructs a neglected but important classical tradition in political thought. Exploring how 'the political' was incorporated into a wide array of 'private' or 'apolitical' topics by early modern thinkers, Becker demonstrates how both republican and absolutist thinkers - the two poles which organise early modern political thought - relied on gendered justifications. In doing so, she reveals how the foundations of the modern state were significantly shaped by gendered concerns.

### **AP European History Premium**

Originally published in 1983, Leo Steinberg's classic work has changed the viewing habits of a generation. After centuries of repression and censorship, the sexual component in thousands of revered icons of Christ is restored to visibility. Steinberg's evidence resides in the imagery of the overtly sexed Christ, in Infancy and again after death. Steinberg argues that the artists regarded the deliberate exposure of Christ's genitalia as an affirmation of kinship with the human condition. Christ's lifelong virginity, understood as potency under check, and the

first offer of blood in the circumcision, both required acknowledgment of the genital organ. More than exercises in realism, these unabashed images underscore the crucial theological import of the Incarnation. This revised and greatly expanded edition not only adduces new visual evidence, but deepens the theological argument and engages the controversy aroused by the book's first publication.

### **The Book of the Courtier**

### **The Book of the Courtier**

Interest in nuclear energy has surged in recent years, yet there are risks that accompany the global diffusion of nuclear power—especially the possibility that the spread of nuclear energy will facilitate nuclear weapons proliferation. In this book, leading experts analyze the tradeoffs associated with nuclear energy and put the nuclear renaissance in historical context, evaluating both the causes and the strategic effects of nuclear energy development. They probe critical issues relating to the nuclear renaissance, including if and how peaceful nuclear programs contribute to nuclear weapons proliferation, whether the diffusion of nuclear technologies lead to an increase in the trafficking of nuclear materials, and under what circumstances the diffusion of nuclear technologies and latent nuclear

weapons capabilities can influence international stability and conflict. The book will help scholars and policymakers understand why countries are pursuing nuclear energy and evaluate whether this is a trend we should welcome or fear.

### **Document-Based Assessment Activities**

More than ever before, the Renaissance stands as one of the defining moments in world history. Between 1400 and 1600, European perceptions of society, culture, politics and even humanity itself emerged in ways that continue to affect not only Europe but the entire world. This wide-ranging exploration of the Renaissance sees the period as a time of unprecedented intellectual excitement and cultural experimentation and interaction on a global scale, alongside a darker side of religion, intolerance, slavery, and massive inequality of wealth and status. It guides the reader through the key issues that defined the period, from its art, architecture, and literature, to advancements in the fields of science, trade, and travel. In its incisive account of the complexities of the political and religious upheavals of the period, the book argues that Europe's reciprocal relationship with its eastern neighbours offers us a timely perspective on the Renaissance as a moment of global inclusiveness that still has much to teach us today.

## **Middle Ages, Renaissance, and Reformation History**

"The Renaissance" (1300—1500) provides an overview of the years from the Late Middle Ages through the Renaissance. Special emphasis is given to the natural and

political disasters that ravaged 14th-century Europe, as well as the unprecedented intellectual, cultural, and artistic flourishing of the 15th and 16th centuries. The Black Death, The Hundred Years' War, the invention of the printing press, the birth of humanism, and the life of Leonardo da Vinci are among the dramatic events vividly documented in this richly illustrated text. Challenging map exercises and provocative review questions encourage meaningful reflection and historical analysis. Tests and answer keys are included.

William Golding's unforgettable classic of boyhood adventure and the savagery of humanity comes to Penguin Classics in a stunning Graphic Deluxe Edition with a new foreword by Lois Lowry. As provocative today as when it was first published in 1954, *Lord of the Flies* continues to ignite passionate debate with its startling, brutal portrait of human nature. William Golding's compelling story about a group of very ordinary boys marooned on a coral island has been labeled a parable, an allegory, a myth, a morality tale, a parody, a political treatise, and even a vision of the apocalypse. But above all, it has earned its place as one of the indisputable classics of the twentieth century for readers of any age. This Penguin Classics Graphic Deluxe Edition features an array of special features to supplement the novel, including a foreword by Lois Lowry, an introduction by Stephen King, an essay by E. M. Forster, an essay on teaching and reading the novel and suggestions for further exploration by scholar Jennifer Buehler, and an extended note by E. L. Epstein, the publisher of the first American paperback edition of *Lord of the Flies*. For more than seventy years, Penguin has been the leading publisher

of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Painting is a cardinal work that revolutionized Western art. In this volume Rocco Sinisgalli presents a new English translation and critical examination of Alberti's seminal text. Dr Sinisgalli reverses the received understanding of the relationship between the Italian and Latin versions of Alberti's treatise by demonstrating that Alberti wrote it first in Italian and then translated it into a polished Latin over the course of several decades. This volume is richly illustrated to help demonstrate how Alberti understood optics and art.

## Access Free Answer Key Renaissance Section 1 2

popular imagination. The outsized reputations of the best-known figures from the period—Michelangelo, Niccolo Machiavelli, Lorenzo the Magnificent, Pope Julius II, Isabella d'Este, and so many others—engender a kind of wonder. How could so many geniuses or exceptional characters be produced by one small territory near the extreme south of Europe at a moment when much of the rest of the continent still labored under the restrictions of the Middle Ages? How did so many of the driving principles behind Western civilization emerge during this period—and how were they defined and developed? And why is it that geniuses such as Leonardo, Raphael, Petrarch, Brunelleschi, Bramante, and Palladio all sustain their towering authority to this day? To answer these questions, Kenneth Bartlett delves into the lives and works of the artists, patrons, and intellectuals—the privileged, educated, influential elites—who created a rarefied world of power, money, and sophisticated talent in which individual curiosity and skill were prized above all else. The result is a dynamic, highly readable, copiously illustrated history of the Renaissance in Italy—and of the artists that gave birth to some of the most enduring ideas and artifacts of Western civilization.

## **The Renaissance Bazaar**

## **The Renaissance in Italy**

### **Worldly Goods**

A gripping and beautifully written narrative that reads like a novel, *Fire in the City* presents a compelling account of a key moment in the history of the Renaissance, illuminating the remarkable man who dominated the period, the charismatic Girolamo Savonarola. Lauro Martines, whose decades of scholarship have made him one of the most admired historians of Renaissance Italy, here provides a remarkably fresh perspective on Savonarola, the preacher and agitator who flamed like a comet through late fifteenth-century Florence. The Dominican friar has long been portrayed as a dour, puritanical demagogue who urged his followers to burn their worldly goods in "the bonfire of the vanities." But as Martines shows, this is a caricature of the truth--the version propagated by the wealthy and powerful who feared the political reforms he represented. Here, Savonarola emerges as a complex and subtle man, both a religious and a civic leader--who inspired an outpouring of political debate in a city newly freed from the tyranny of the Medici.

## Access Free Answer Key Renaissance Section 1 2

In the end, the volatile passions he unleashed--and the powerful families he threatened--sent the friar to his own fiery death. But the fusion of morality and politics that he represented would leave a lasting mark on Renaissance Florence. For the many readers fascinated by histories of Renaissance Italy--such as Brunelleschi's Dome or Galileo's Daughter, and Martines's acclaimed April Blood--Fire in the City offers a vivid portrait of one of the most memorable characters from that dazzling era.
