### The Americans

A NEW YORK TIMES NOTABLE BOOK • The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. “Stirring . . . [a] blueprint for all those who believe . . . that ‘the world . . . should be full of people raising their voices.’” —The New York Times “Revealing, with the gripping intrigue of a Grisham thriller.” —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don’t See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family’s activist roots inspired her pursuit of justice. *What the Eyes Don’t See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for *What the Eyes Don’t See* “It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero.” —Erin Brockovich “A clarion call to live a life of purpose.” —The Washington Post “Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page.” —The New York Times Book Review “Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . ‘Flint will not be defined by this crisis,’ vows Ms. Hanna-Attisha.” —The Economist “Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case.” —Rachel Maddow

Neta Lohnes Frazier's story of the seven Sager children and their travails on the Western frontier in a new, illustrated edition. An almost incredible true tale of tragedy, persistence, and youthful courage on the Western frontier. Based on an account written by one of the survivors, the story still has the power to astonish readers. In 1844, the Sager family set off on the Oregon Trail, a dangerous and adventure-filled journey. Tragically, the parents succumbed to fever on the way, orphaning the children - the youngest just three months old. Cared for by other families in the wagon train, the children were eventually brought to Whitman Mission at the site of what would become Walla Walla, Washington. There, the children were adopted by missionaries Marcus and Narcissa Whitman and settled into frontier life until, three years later, in the midst of a measles epidemic, the mission was attacked by Cayuse Indians. The Whitmans and two of the Sager children were killed in the ensuing massacre, and the other five children, now orphaned a second time, were captured and held hostage by the Cayuse. One died of illness just days after the murders, but the surviving four sisters were eventually ransomed. A decade later, the eldest sister, Caroline, described her experiences in a manuscript that provided the basis for Frazier's remarkable book, a classic of frontier literature. Children today will be amazed at the strength of the Sager children in the face of tragedy and hardship.

During World War II a community called Manzanar was hastily created in the high mountain desert country of California, east of the Sierras. Its purpose was to house thousands of Japanese American internees. One of the first families to arrive was the Wakatsukis, who were ordered to leave their fishing business in Long Beach and take with them only the belongings they could carry. For Jeanne Wakatsuki, a seven-year-old child, Manzanar became a way of life in which she struggled and adapted, observed and grew. For her father it was essentially the end of his life. At age thirty-seven, Jeanne Wakatsuki Houston recalls life at Manzanar through the eyes of the child she was. She tells of her fear, confusion, and bewilderment as well as the dignity and great resourcefulness of people in oppressive and demeaning circumstances. Written with her husband, Jeanne delivers a powerful first-person account that reveals her search for the meaning of Manzanar. Farewell to Manzanar has become a staple of curriculum in schools and on campuses across the country. Last year the San Francisco Chronicle named it one of the twentieth century's 100 best nonfiction books from west of the Rockies. First published in 1973, this new edition of the classic memoir of a devastating Japanese American experience includes an inspiring afterword by the authors.

Olympe de Gouges was the most important fighter for women's rights you've never heard of. An activist and writer in revolutionary Paris, she published 'The Declaration of the Rights of Women' in 1791, and was beheaded two years later, her articulate demands for equality proving too much for their time. Over one hundred and fifty years later, the key statements of her declaration were internationally endorsed by the United Nations in its Declaration on the Elimination of Discrimination Against Women, which in turn went on to be legally recognized by nearly every country in the world. This volume presents both of these key texts along with enlightening and inspiring commentary from a host of powerful women, from Virginia Woolf to Hillary Clinton.

And when James asked what colour God was, she said 'God is the colour of water.' As an adult, McBride finally persuaded his mother to tell her story - the story of a rabbi's daughter, born in Poland and raised in the South, who fled to Harlem, married a black man, founded a Baptist church, and put twelve children through

college.

Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.
