The American Pageant

A master historian's provocative new interpretation of FDR's role in the coming of World War II. Brilliant. —Arthur M. Schlesinger, Jr. American Ways Series.

Bankrupting the Enemy

A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

American Pageant

Huey Long (1893–1935) was one of the most extraordinary American politicians, simultaneously cursed as a dictator and applauded as a benefactor of the masses. A product of the poor north Louisiana hills, he was elected governor of Louisiana in 1928, and proceeded to subjugate the powerful state political hierarchy after narrowly defeating an impeachment attempt. The only Southern popular leader who truly delivered on his promises, he increased the miles of paved roads and number of bridges in Louisiana tenfold and established free night schools and state hospitals, meeting the huge costs by taxing corporations and issuing bonds. Soon Long had become the absolute ruler of the state, in the process lifting Louisiana from near feudalism into the modern world almost overnight, and inspiring poor whites of the South to a vision of a better life. As Louisiana Senator and one of Roosevelt's most vociferous critics, "The Kingfish," as he called himself, gained a nationwide following, forcing Roosevelt to turn his New Deal significantly to the left. But before he could progress farther, he was assassinated in Baton Rouge in 1935. Long's ultimate ambition, of course, was the presidency, and it was doubtless with this goal in mind that he wrote this spirited and fascinating account of his life, an autobiography every bit as daring and controversial as was The Kingfish himself.

Isolationism in America, 1935-1941

During World War II a community called Manzanar was hastily created in the high mountain desert country of California, east of the Sierras. Its purpose was to house thousands of Japanese American internees. One of the first families to arrive was the Wakatsukis, who were ordered to leave their fishing business in Long Beach and take with them only the belongings they could carry. For Jeanne Wakatsuki, a seven-year-old child, Manzanar became a way of life in which she struggled and adapted, observed and grew. For her father it was essentially the end of his life. At age thirty-seven, Jeanne Wakatsuki Houston recalls life at Manzanar through the eyes of the child she was. She tells of her fear, confusion, and bewilderment as well as the dignity and great resourcefulness of people in oppressive and demeaning circumstances. Written with her husband, Jeanne delivers a powerful first-person account that reveals her search for the meaning of Manzanar. Farewell to Manzanar has become a staple of curriculum in schools and on campuses across the country. Last year the San Francisco Chronicle named it one of the twentieth century's 100 best nonfiction books from west of the Rockies. First published in 1973, this new edition of the classic memoir of a devastating Japanese American experience includes an inspiring afterword by the authors.

The Impending Crisis of the South

Farewell to Manzanar

Award-winning author Edward S. Miller contends in this new work that the United States forced Japan into international bankruptcy to deter its aggression. While researching newly declassified records of the Treasury and Federal Reserve, Miller, a retired chief financial executive of a Fortune 500 resources corporation, uncovered just how much money mattered. Washington experts confidently predicted that the war in China would bankrupt Japan, not knowing that the Japanese government had a huge cache of dollars fraudulently hidden in New York. Once discovered, Japan scrambled to extract the money. But, Miller explains, in July 1941 President Roosevelt invoked a long-forgotten clause of the Trading with the Enemy Act of 1917 to freeze Japan's dollars and forbade it to sell its hoard of gold to the U.S. Treasury, the only open gold market after 1939. Roosevelt's temporary gambit to bring Japan to its senses, not its knees, was thwarted, however, by opportunistic bureaucrats. Dean Acheson, his handpicked administrator, slyly maneuvered to deny Japan the dollars needed to buy oil and other resources for war and for economic survival. Miller's lucid writing and thorough understanding of the complexities of international finance enable readers unfamiliar with financial concepts and terminology to grasp his explanation of the impact of U.S. economic policies on Japan. His review of thirty-seven studies of Japan's resource deficiencies begs the question of why no U.S. agency calculated the impact of the freeze on Japan's overall economy. His analysis of a massive OSS-State Department study of prewar Japan clearly demonstrates that the deprivations facing the Japanese people were the country to remain in financial limbo buttressed its choice of war at Pearl Harbor. Such a well-documented study is certain to be recognized for its significant contributions to the historiography of the origins of the Pacific War.
