Throughout history, most dictionaries have served the purpose of preserving the purity of the language, usually preferring the erudite vocabulary of the affluent upper classes to the salty, constantly evolving slang of their working-class counterparts. That began to change in the early modern period, when several innovative lexicographers began publishing collections of slang terms used by particular subcultures, such as criminals. According to scholars, Francis Grose's Dictionary of the Vulgar Tongue is one of the most important and complete of these early slang dictionaries. Spend some time with this fascinating volume to learn the slang definitions of words and phrases like "poisoned" (pregnant), "shooting the cat" (vomiting after excess alcohol consumption), and "snoozing ken" (a brothel).

A time-travel story that is both a poignant exploration of human identity and an absorbing tale of suspense. It's natural to feel a little out of place when you're the new girl, but when Charlotte Makepeace wakes up after her first night at boarding school, she's baffled: everyone thinks she's a girl called Clare Mobley, and even more shockingly, it seems she has traveled forty years back in time to 1918. In the months to follow, Charlotte wakes alternately in her own time and in Clare's. And instead of having only one new set of rules to learn, she also has to contend with the unprecedented strangeness of being an entirely new person in an era she knows nothing about. Her teachers think she's slow, the other girls find her odd, and, as she spends more and more time in 1918, Charlotte starts to wonder if she remembers how to be Charlotte at all. If she doesn't figure out some way to get back to the world she knows before the end of the term, she might never have another chance.
