Wrong Bed, Right Guy

In this stunning follow-up to his best-selling book, *The Five Temptations of a CEO*, Patrick Lencioni offers up another leadership fable that's every bit as compelling and illuminating as its predecessor. This time, Lencioni's focus is on a leader's crucial role in building a healthy organization--an often overlooked but essential element of business life that is the linchpin of sustained success. Readers are treated to a story of corporate intrigue as the frustrated head of one consulting firm faces a leadership challenge so great that it threatens to topple his company, his career, and everything he holds true about leadership itself. In the story's telling, Lencioni helps his readers understand the disarming simplicity and power of creating organizational health, and reveals four key disciplines that they can follow to achieve it.

"Large-scale efforts have been made since the 1990s to ensure that all children of the world go to school. But mere enrollment is not sufficient, students must become fluent in reading and calculation by the end of grade 2. Fluency is needed to process large amounts of text quickly and use the information for decisions that may ultimately reduce poverty. State-of-the-art brain imaging and cognitive psychology research can help formulate effective policies for improving the basic skills of low-income students. This book integrates research into applications that extend from preschool brain development to the memory of adult educators. In layman's terms, it provides explanations and answers to questions such as: Why do children have to read fast before they can understand what they read? How do health, nutrition, and stimulation influence brain development? Why should students learn basic skills in their maternal language? Is there such a thing as an

untrained teacher? What signs in a classroom show whether students are getting a quality education? How must information be presented in class so that students can retain it and use it? What training techniques are most likely to help staff put their learning into use? This book would be useful to policymakers, donor agency staff, teacher trainers, supervisors, and inspectors, as well as university professors and students."

Charles Osgood, one of America's favorite news personalities, offers a hilarious compendium of anecdotes from the last seventy years of presidential campaigns. With anecdotes from Harry Truman to JFK to George W. Bush, *A Funny Thing Happened on the Way to the White House* captures the wit and humor of the campaign trail. Culled from speeches, interviews, press conferences, as well as articles written by and about the candidates--no source is left untapped. From Bob Dole telling reporters after a loss in the primary that "I slept like a baby--every two hours I woke up and cried," and Barry Goldwater's comment that his talkative opponent Hubert Humphreys "has been clocked at 275 words a minute with gusts up to 340," to Adlai Stevenson declaring that "If I talk over the people's head, Ike must be talking under their feet," this is the go-to source for campaign humor. Just when America most needs a good laugh, *A Funny Thing Happened on the Way to the White House* makes the seemingly endless race to the presidency a lot more fun.
