The Philosophy of Friedrich Nietzsche

When We Believed in Mermaids

The Joyful Wisdom, written in 1882, just before "Zarathustra," is rightly judged to be one of Nietzsche's best books. Here the essentially grave and masculine face of the poet-philosopher is seen to light up and suddenly break into a delightful smile. The warmth and kindness that beam from his features will astonish those hasty psychologists who have never divined that behind the destroyer is the creator, and behind the blasphemer the lover of life. In the retrospective valuation of his work which appears in "Ecce Homo" the author himself observes with truth that the fourth book, "Sanctus Januarius," deserves especial attention: "The whole book is a gift from the Saint, and the introductory verses express my gratitude for the most wonderful month of January that I have ever spent."

The age of reason

The Essential Nietzsche

"Beyond Good and Evil" is Nietzsche at his best. In the book the philosopher attempts to systematically sum up his philosophy through a collection of 296 aphorisms grouped into nine different chapters based on their common theme. For

the reader who has yet to discover Nietzsche in this translation by Helen Zimmern will be found a fabulous introduction. For those who have already discovered Nietzsche here you will find the opportunity to understand the whole of Nietzsche's philosophy.

Beyond Good and Evil

Psychopath. The word conjurs up images of serial killers, rapists, suicide bombers, gangsters. But think again: you could probably benefit from being a little more psychopathic yourself. Psychologist Kevin Dutton has made a speciality of psychopathy, and is on first-name terms with many notorious killers. But unlike those incarcerated psychopaths, and all those depicted in movies and crime fiction, most are not violent, he explains. In fact, says Prof Dutton, they have a lot of good things going for them. Psychopaths are fearless, confident, charismatic and focused--qualities tailor-made for success in today's society. The Wisdom of Psychopaths is an intellectual rollercoaster ride that combines lightning-hot science with unprecedented access to secret monasteries, Special Forces training camps, and high-security hospitals. In it, you will meet serial killers, war heroes, financiers, movie stars and attorneys--and discover that beneath the hype and popular characterization, psychopaths have something to teach us. Like the knobs on a mixing deck, psychopathy is graded. And finding the right combination of psychopathic traits, sampled and mixed at carefully calibrated volumes, can put us ahead of the game.

God is Dead. God Remains Dead. And We Have Killed Him.

This carefully edited collection has been designed and formatted to the highest digital standards and adjusted for readability on all devices. Beyond Good and Evil The Genealogy of Morals The Birth of Tragedy or, Hellenism And Pessimism The Antichrist Thus Spake Zarathustra: A Book for All and None The Case of Wagner The Twilight of the Idols The Will to Power (Vol. 1&2) The Gay Science or, The Joyful Wisdom We Philologists Ecce Homo: How One Becomes What One Is The Greek State The Greek Woman On Music and Words Homer's Contest The Relation of Schopenhauer's Philosophy to a German Culture Philosophy During the Tragic Age of the Greeks On Truth and Falsity in Their Ultramoral Sense Collected Letters Friedrich Nietzsche (1844-1900) was a German philosopher, poet and Latin and Greek scholar whose work has exerted a profound influence on Western philosophy and modern intellectual history. Because of Nietzsche's evocative style and provocative ideas, his philosophy generates passionate reactions. His works remain controversial, due to varying interpretations and misinterpretations of his work. In the Western philosophy tradition, Nietzsche's writings have been described as the unique case of free revolutionary thought, that is, revolutionary in its structure and problems, although not tied to any revolutionary project. Some prominent elements of his philosophy include his genealogical critique of religion and Christian morality; the related theory of master-slave morality; the characterization of the human subject as the

expression of competing wills, collectively understood as the will to power; and influential concepts such as the Übermensch and the doctrine of eternal return.

Nietzsche on Truth and Philosophy

One of the most iconoclastic philosophers of all time, the author dramatically rejected notions of good and evil, truth and God. With wit and subversive energy, he demands that the individual impose their own 'will to power' upon the world. This book demonstrates that the world is steeped in false piety and infected with a 'slave morality'.

The Complete Works of Friedrich Nietzsche: Beyond good and evil

Beyond Good and Evil: Prelude to a Philosophy of the Future (German: Jenseits von Gut und Böse: Vorspiel einer Philosophie der Zukunft) is a book by philosopher Friedrich Nietzsche that expands the ideas of his previous work Thus Spoke Zarathustra with a more critical and polemical approach. It was first published in 1886. In Beyond Good and Evil, Nietzsche accuses past philosophers of lacking critical sense and blindly accepting dogmatic premises in their consideration of morality. Specifically, he accuses them of founding grand metaphysical systems upon the faith that the good man is the opposite of the evil man, rather than just a different expression of the same basic impulses that find more direct expression in the evil man. The work moves into the realm "beyond good and evil" in the sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favour of what he regards as an affirmative approach that fearlessly confronts the perspectival nature of knowledge and the perilous condition of the modern individual.-EXTENDED CONTENTBook IntroductionBook Background And ThemesOn Books Morality And Religion

The Lost Girls of Devon

A peculiar forgery that, while not succeeding as either philosophy or erotica, at least gives us insights into what some people thought the great man might have been up to in his sanitarium days.

Friedrich Nietzsche Collection

'We must learn to love, learn to be kind, and this from our earliest youth Likewise, hatred must be learned and nurtured, if one wishes to become a proficient hater' This volume contains a selection of Nietzsche's brilliant and challenging aphorisms, examining the pleasures of revenge, the falsity of pity, and the incompatibility of marriage with the philosophical life. Introducing Little Black Classics: 80 books for Penguin's 80th birthday. Little Black Classics celebrate the huge range and diversity of Penguin Classics, with books from around the world and across many centuries. They take us from a balloon ride over Victorian London to a garden of blossom in Japan, from Tierra del Fuego to 16th-century California and the Russian steppe. Here are stories lyrical and savage; poems epic and intimate; essays satirical and inspirational; and ideas that have shaped the lives of millions. Friedrich Nietzsche (1844-1900). Nietzsche's works available in Penguin Classics are A Nietzsche Reader, Beyond Good and Evil, Ecce Homo, Human, All Too Human, On the Genealogy of Morals, The Birth of Tragedy, The Portable Nietzsche, Thus Spoke Zarathustra, Twilight of Idols and Anti-Christ.

Beyond Good and Evil

"This book isn't for everybody. You've got to be willing to take a trip through some pretty dark places and entertain some of the most perverse ideas committed to paper, completely free of moral judgement." - Author, Alex Swery (sharpobjectspress.com) If sins, vices and illicit encounters are what makes transgressive fiction, then this book is its wet dream or some might say nightmare. Inside this "disturbingly well-written collection of stories" (Linda, Amazon Reviewer) you'll be confronted with a cast of debauched characters who view desire as the solution to their problems without realising it to be the main cause of their woe. Opening this collection of disturbing short stories is the suitably ceremonious, 'Something Borrowed, Something Blue', where a womanising, drunk and depressed late-teen has his life thrown out of balance after he's sloppily seduced by an older woman and the traces of white powder under her nose, only to find himself inside the midst of a dirty divorce, an even dirtier, decaying friend and a videotape which gives a whole new meaning to the phrase 'Revenge Porn'. The Importance of Safe Sex Max likes Hannah. Hannah likes Max. They've seen each other naked, but never actually met. How? Through the wonders of modern technology, of course. Take a trip down memory lane as Max reminisces over the events surrounding his first time and how they made him into the man he is today. You'll never look at your favourite childhood toy in the same light again. A few drinks in we take a turn into 'A Lesson Worth Unlearning', where

a father and son bond over their mutual appreciation for teachers, pornography and the best places to masturbate during a mysterious road trip out of town. A 'coming of age' story dripping with debauchery. The Perfect Client As a mysterious stranger struggles to knock on the door beyond which a seventeen-year-old prostitute waits, we're left to wonder what he's actually doing there as the girl recalls the reasons why she ended up hooking in the first place. Abandonment is never clear-cut. Bloodhound Lust A man with a missing dog shows more concern over his pet than his newborn son, who he finds difficult to even look at. Using his absent best friend as an excuse for eyes to go wander, we soon begin to question the mindset of our protagonist and the disjointed thoughts he expresses. It seems that the missing best friend isn't his dog but more the beast between his legs, which a certain ex-fling clutches the leash of

Friedrich Nietzsche: Thus Spoke Zarathustra, Beyond Good and Evil, Ecce Homo, Genealogy of Morals, Birth of Tragedy, The Antichrist, The Twilight of the Idols, The Case of Wagner, Letters & Essays

NEW YORK TIMES Editors' Choice • THE TIMES BIOGRAPHY OF THE YEAR • WINNER OF THE HAWTHORNDEN PRIZE A groundbreaking new biography of philosophy's greatest iconoclast Friedrich Nietzsche is one of the most enigmatic figures in philosophy, and his concepts—the Übermensch, the will to power, slave morality—have fundamentally reshaped our understanding of the human condition. But what do most people really know of Nietzsche—beyond the mustache, the scowl, and the lingering association with nihilism and fascism? Where do we place a thinker who was equally beloved by Albert Camus, Ayn Rand, Martin Buber, and Adolf Hitler? Nietzsche wrote that all philosophy is autobiographical, and in this vividly compelling, myth-shattering biography, Sue Prideaux brings readers into the world of this brilliant, eccentric, and deeply troubled man, illuminating the events and people that shaped his life and work. From his placid, devoutly Christian upbringing—overshadowed by the mysterious death of his father—through his teaching career, lonely philosophizing on high mountains, and heart-breaking descent into madness, Prideaux documents Nietzsche's intellectual and emotional life with a novelist's insight and sensitivity. She also produces unforgettable portraits of the people who were most important to him, including Richard and Cosima Wagner, Lou Salomé, the femme fatale who broke his heart; and his sister Elizabeth, a rabid German nationalist and anti-Semite who manipulated his texts and turned the Nietzsche archive into a destination for Nazi ideologues. *I Am Dynamite!* is the essential biography for anyone seeking to understand history's most misunderstood philosopher.

On Truth and Lies in a Nonmoral Sense

A deluxe, high-quality edition of Friedrich Nietzsche's seminal work *Beyond Good and Evil* is one of the final books by German philosopher Friedrich Nietzsche. This landmark work continues to be one of the most well-known and influential

explorations of moral and ethical philosophy ever conceived. Expanding on the concepts from his previous work *Thus Spoke Zarathustra*, Nietzsche adopts a polemic approach to past philosophers who, in his view, lacked critical sense in accepting flawed premises in their consideration of morality. The metaphysics of morality, Nietzsche argues, should not assume that a good man is simply the opposite of an evil man, rather merely different expression of humanity's common basic impulses. Controversial in its time, as well as hotly debated in the present, Nietzsche's work moves beyond conventional ethics to suggest that a universal morality for all human beings is non-existent – perception, reason and experience are not static, but change according to an individual's perspective and interpretation. The work further argues that philosophic traditions such as "truth," "self-consciousness" and "free will" are merely inventions of Western morality and that the "will to power" is the real driving force of all human behaviour. This volume: Critiques the belief that actions, including domination or injury to the weak, can be universally objectionable Explores themes of religion and "master and slave" morality Includes a collection of stunning aphorisms and observations of the human condition Part of the bestselling Capstone Classics Series edited by Tom Butler-Bowdon, this collectible, hard-back edition of *Beyond Good and Evil* provides an accessible and insightful Introduction by leading Nietzsche authority Dr Christopher Janaway. This deluxe volume is perfect for anyone with interest in philosophy, psychology, science, history and literature.

Travels with a Writing Brush

Friedrich Nietzsche was one of the most revolutionary thinkers in Western philosophy. Here he sets out his subversive views in a series of aphorisms on subjects ranging from art to arrogance, boredom to passion, science to vanity, rejecting conventional notions of morality to celebrate the individual's 'will to power'. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

A Beginner's Guide to Nietzsche's Beyond Good and Evil

A concise and very readable summary of Nietzsche's *Beyond Good and Evil*, geared toward students embarking on their studies and general readers. It is an ideal companion for those new to the study of this challenging and often misunderstood classic. Offers clear explanations of the central themes and ideas, terminology, and arguments Includes a glossary of difficult terms as well as helpful biographical and historical information Illustrates arguments and ideas with useful tables, diagrams, and images; and includes references to further readings Forms part of a series of Guides designed specifically for A-level philosophy students by an experienced teacher and founder of the popular website *Philosophy Online*

Beyond Good and Evil by Friedrich Nietzsche - Delphi Classics (Illustrated)

He's one of the most debated writers of the 19th century: Nietzsche and his works have been by turns vilified, lauded, and subjected to numerous contradictory interpretations, and yet he remains a figure of profound import, and his works a necessary component of a well-rounded education. This 1885 book serves as both vital introduction to and valuable summation of Nietzsche's philosophy as a whole. Here, broken down into bite-size segments are the great thinker's outlook on philosophical bias, religion, morality, virtue, nationalism, free-spiritedness, scholarship, gender relations, and other weighty topics. German psychologist and philosopher FRIEDRICH WILHELM NIETZSCHE (1844-1900) was appointed special professor of classical philology at the University of Basel at the precocious age of 24, but soon found himself dissatisfied with academic life and created an alternative intellectual society for himself among friends including composer Richard Wagner, historian Jakob Burckhardt, and theologian Franz Overbeck. Among his philosophical works are Thus Spoke Zarathustra, Beyond Good and Evil, and Ecce Homo. _____ ALSO FROM COSIMO Nietzsche's The Use and Abuse of History, Thus Spake Zarathustra, and The Anti-Christ

The Portable Nietzsche (Portable Library)

An expert on Nietzsche presents highlights from The Birth of Tragedy, Thus Spake Zarathustra, Beyond Good and Evil, and other works, and explains their significance to modern readers.

Beyond Good and Evil

A new edition of this important work of Nietzsche's 'mature' philosophy.

Utilitarianism

Man Alone with Himself

A rich, exquisite and original anthology that illuminates Japanese travel writing over a thousand years 'Oh journey upon journey, my life is a brief moment, and I cannot hope that we will meet again' Roaming over mountains and along perilous shores, this anthology illuminates over a thousand years of Japanese travel writing. It takes in songs, diaries, tales and poetry, and ranges from famous works including The Pillow Book and the works of Basho to pieces such as the diary of a young girl who longs to return to the capital and her beloved books, or the writings of travelling monks who sleep on pillows

of grass. Together they illuminate a long literary tradition, with intense poetic experience at its heart. Translated and edited with an introduction by Meredith McKinney

The Anti-Christ

No philosopher could be a better example of creative thinking in action than Friedrich Nietzsche: a German iconoclast who systematically attacked the traditionally accepted views of academic philosophers, seeking to tear down their rickety platform and replace it with a platform of his own. Creative thinkers are people who redefine issues and topics in novel ways to create novel connections, explanations and hypotheses ? people, in short, who can turn a topic on its head and present it in an entirely new light. Nietzsche called them ?free spirits? ? those unwilling to accept the dogmas of the past, wanting instead to think clearly for themselves. In *Beyond Good and Evil*, Nietzsche focuses his attention on nothing less than the underlying basis of our moral assumptions, unleashing a powerful, polemical critique of the moral dogmas of the past and his own time. His book, which remains one of the most influential works of moral philosophy ever written, is not just an example of creative thinking at work, it is also a passionate argument for its importance. As Nietzsche wrote, ?Morality in Europe ? is the morality of herd animals.? But if one is ready to think differently and stand out from the herd, ?other (and especially higher) moralities are ? possible.?

Aphorisms on Love and Hate

"On Truth and Lie in an Extra-Moral Sense") is an (initially) unpublished work of Friedrich Nietzsche written in 1873, one year after *The Birth of Tragedy*. It deals largely with epistemological questions of truth and language, including the formation of concepts. Every word immediately becomes a concept, inasmuch as it is not intended to serve as a reminder of the unique and wholly individualized original experience to which it owes its birth, but must at the same time fit innumerable, more or less similar cases-which means, strictly speaking, never equal-in other words, a lot of unequal cases. Every concept originates through our equating what is unequal. According to Paul F. Glenn, Nietzsche is arguing that "concepts are metaphors which do not correspond to reality." Although all concepts are human inventions (created by common agreement to facilitate ease of communication), human beings forget this fact after inventing them, and come to believe that they are "true" and do correspond to reality. Thus Nietzsche argues that "truth" is actually: A mobile army of metaphors, metonyms, and anthropomorphisms-in short, a sum of human relations which have been enhanced, transposed, and embellished poetically and rhetorically, and which after long use seem firm, canonical, and obligatory to a people: truths are illusions about which one has forgotten that this is what they are; metaphors which are worn out and without sensuous power; coins which have lost their pictures and now matter only as metal, no longer as coins. These ideas about truth and its relation to human language have been particularly influential among postmodern theorists, and "On Truth and

Lies in a Nonmoral Sense" is one of the works most responsible for Nietzsche's reputation (albeit a contentious one) as "the godfather of postmodernism."

The Virtue of Selfishness

'We have left dry land and put out to sea! We have burned the bridge behind us - what is more, we have burned the land behind us!' Nietzsche's devastating demolition of religion would have seismic consequences for future generations. With God dead, he envisages a brilliant future for humanity: one in which individuals would at last be responsible for their destinies. One of twenty new books in the bestselling Penguin Great Ideas series. This new selection showcases a diverse list of thinkers who have helped shape our world today, from anarchists to stoics, feminists to prophets, satirists to Zen Buddhists.

Nietzsche: Daybreak

From the author of *The Art of Inheriting Secrets* comes an emotional new tale of two sisters, an ocean of lies, and a search for the truth. Her sister has been dead for fifteen years when she sees her on the TV news Josie Bianci was killed years ago on a train during a terrorist attack. Gone forever. It's what her sister, Kit, an ER doctor in Santa Cruz, has always believed. Yet all it takes is a few heart-wrenching seconds to upend Kit's world. Live coverage of a club fire in Auckland has captured the image of a woman stumbling through the smoke and debris. Her resemblance to Josie is unbelievable. And unmistakable. With it comes a flood of emotions--grief, loss, and anger--that Kit finally has a chance to put to rest: by finding the sister who's been living a lie. After arriving in New Zealand, Kit begins her journey with the memories of the past: of days spent on the beach with Josie. Of a lost teenage boy who'd become part of their family. And of a trauma that has haunted Kit and Josie their entire lives. Now, if two sisters are to reunite, it can only be by unearthing long-buried secrets and facing a devastating truth that has kept them apart far too long. To regain their relationship, they may have to lose everything.

The Works of Friedrich Nietzsche

A collection of essays that sets forth the moral principles of Objectivism, Ayn Rand's controversial, groundbreaking philosophy. Since their initial publication, Rand's fictional works—*Anthem*, *The Fountainhead*, and *Atlas Shrugged*—have had a major impact on the intellectual scene. The underlying theme of her famous novels is her philosophy, a new morality—the ethics of rational self-interest—that offers a robust challenge to altruist-collectivist thought. Known as Objectivism, her divisive philosophy holds human life—the life proper to a rational being—as the standard of moral values

and regards altruism as incompatible with man's nature. In this series of essays, Rand asks why man needs morality in the first place, and arrives at an answer that redefines a new code of ethics based on the virtue of selfishness. More Than 1 Million Copies Sold!

My Sister and I

Beyond Good and Evil: Prelude to a Philosophy of the Future is a book by philosopher Friedrich Nietzsche, first published in 1886. It draws on and expands the ideas of his previous work, Thus Spoke Zarathustra, but with a more critical and polemical approach. In Beyond Good and Evil, Nietzsche accuses past philosophers of lacking critical sense and blindly accepting dogmatic premises in their consideration of morality. Specifically, he accuses them of founding grand metaphysical systems upon the faith that the good man is the opposite of the evil man, rather than just a different expression of the same basic impulses that find more direct expression in the evil man. The work moves into the realm "beyond good and evil" in the sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favour of what he regards as an affirmative approach that fearlessly confronts the perspectival nature of knowledge and the perilous condition of the modern individual. Includes a biography of the author.

Beyond Good and Evil

From the Washington Post and Amazon Charts bestselling author of When We Believed in Mermaids comes a story of four generations of women grappling with family betrayals and long-buried secrets. It's been years since Zoe Fairchild has been to the small Devon village of her birth, but the wounds she suffered there still ache. When she learns that her old friend and grandmother's caretaker has gone missing, Zoe and her fifteen-year-old daughter return to England to help. Zoe dreads seeing her estranged mother, who left when Zoe was seven to travel the world. As the four generations of women reunite, the emotional pain of the past is awakened. And to complicate matters further, Zoe must also confront the ex-boyfriend she betrayed many years before. Anxieties spike when tragedy befalls another woman in the village. As the mystery turns more sinister, new grief melds with old betrayal. Now the four Fairchild women will be tested in ways they couldn't imagine as they contend with dangers within and without, desperate to heal themselves and their relationships with each other.

The Joyful Wisdom

In 1886, Friedrich Nietzsche self-published Beyond Good and Evil. Structured into 296 separate sections, and nine parts, this work deconstructs the metaphysics and dogma established by previous philosophers. Nietzsche traced the roots of issues that he viewed hindered mankind in his society. He spoke about what it means to be a free spirit, the prejudice of

philosophers, and begins questioning traditional morality. On the Genealogy of Morals was published a year later in 1887. Influenced by Fyodor Dostoevsky and Soren Kierkegaard, the book consisted of three overlapping essays. It follows the evolution of morals and the moral prejudices of Christianity and Judaism. In this book, Nietzsche goes into the history of values and why we've put so much emphasis these values. In his treatises, Nietzsche delves into the origin of good and evil, guilt, bad conscience, resentment, and how these parts of the human condition have evolved over time.

The Wisdom of Psychopaths

"This is the best introductory text on Nietzsche in English, German or French, and in three respects: it is genuinely introductory without being superficial; it reflects good philosophical judgment; and it stakes out interesting and plausible hypotheses on some vexed questions of interpretation. The writing is also crisp and engaging throughout." —Brian Leiter, Karl N. Llewellyn Professor of Jurisprudence, Director of the Center for Law, Philosophy, and Human Values, The University of Chicago Born and raised in a small town in Prussia, Friedrich Wilhelm Nietzsche (1844-1900) began his career in philology (the study of language), and served as a professor at the University of Basel. In 1879, he was forced to leave due to health issues, which afflicted him throughout his life. Supported by his university pension and aided by friends, he spent the next decade as an independent author, writing the books for which he would become famous, including Thus Spake Zarathustra, Beyond Good and Evil, and On the Genealogy of Morals. In 1889, at the age of 44, Nietzsche had a mental breakdown from which he never recovered, dying in 1900. Yet in just ten years, he produced a body of work that would mark him as one of the most influential philosophers of all time. In Simply Nietzsche, Professor Peter Kail traces the development of Nietzsche's thought through the various phases of his life. Emphasizing the philosopher's critique of modern morality and his revolutionary conception of the self, he also discusses key motifs of Nietzsche's thought, such as the death of God, the will to power and the eternal recurrence. Even those who have never read Nietzsche or are unsure of why he's important have heard his name. With Prof. Kail as a guide, Simply Nietzsche provides an unparalleled and accessible introduction to the life and ideas of this most remarkable thinker.

The Essential Nietzsche

This work dramatically rejects the tradition of Western thought with its notions of truth and God, good and evil. Nietzsche demonstrates that the Christian world is steeped in a false piety and infected with a "slave morality." With wit and energy, he turns from this critique to a philosophy that celebrates the present and demands that the individual imposes their own "will to power" upon the world.

Penguin Classics Beyond Good and Evil

"The Christian concept of a god-the god as the patron of the sick, the god as a spinner of cobwebs, the god as a spirit-is one of the most corrupt concepts that has ever been set up in the world In him nothingness is deified, and the will to nothingness is made holy." See Sharp Press; Tuscon, AZ -from The Anti-Christ. He's one of the most debated thinkers of the 19th century: Nietzsche and his works have been by turns vilified, lauded, and subjected to numerous contradictory interpretations, and yet he remains a figure of profound import, and his works a necessary component of a well-rounded education. The Anti-Christ, first published in German in 1895, is absolutely vital to any meaningful understanding of Nietzsche the man and Nietzsche the philosopher. An insightful and entertaining indictment of Christianity, it has enraged and inspired generations of readers, and this 1920 translation, by H. L. Mencken, considered the best available, is almost as controversial as the work itself, highlighting the darkest side of Mencken's cynicism. Also available from Cosimo Classics: Nietzsche's The Use and Abuse of History.

Beyond Good and Evil

Contents: - Beyond Good and Evil - The Antichrist - Thus Spake Zarathustra

Beyond Good And Evil (Extended Edition) - By Friedrich Nietzsche

An analytical account of the central topics of Nietzsche's epistemology and metaphysics, includes his views on truth and language, his perspectivism, and his doctrines of the will-to-power and the eternal recurrence.

Basic Writings of Nietzsche (Modern Library Classics)

Contents: - Beyond Good and Evil - The Antichrist - Thus Spake Zarathustra Friedrich Wilhelm Nietzsche was a German philosopher, cultural critic, composer, poet, philologist, and Latin and Greek scholar whose work has exerted a profound influence on modern intellectual history. He began his career as a classical philologist before turning to philosophy. He became the youngest ever to hold the Chair of Classical Philology at the University of Basel in 1869 at the age of 24. Nietzsche resigned in 1879 due to health problems that plagued him most of his life; he completed much of his core writing in the following decade. In 1889 at age 44, he suffered a collapse and afterward, a complete loss of his mental faculties. He lived his remaining years in the care of his mother until her death in 1897 and then with his sister Elisabeth Förster-Nietzsche. Nietzsche died in 1900.

I Am Dynamite!

The will to power is a prominent concept in the philosophy of Friedrich Nietzsche. The will to power describes what Nietzsche may have believed to be the main driving force in humans - achievement, ambition, and the striving to reach the highest possible position in life. These are all manifestations of the will to power; however, the concept was never systematically defined in Nietzsche's work, leaving its interpretation open to debate.
