of them when he agrees to help her steal a dragon's egg for her father. Her father just happens to be the Royal Wizard, and despite his daughter's feelings, he would love nothing more than to sacrifice the boy! All of these characters, along with the Wolf King of Wildermont, the Lion Lord of Westland, and a magical hawk named Talon, are on a collision course toward Willa the Witch Queen's palace in the distant kingdom of Highwander. There the very bedrock is formed of the powerful magical substance called Wardstone. Who are the heroes? And will they get there before the Royal Wizard and his evil hordes do? Whatever happens, the journey will be spectacular, and the confrontation will be cataclysmic.

Bitterwood

For centuries herbs and spices have been an integral part of many of the world’s great cuisines. But spices have a history of doing much more than adding life to bland foods. They have been the inspiration for, among other things, trade, exploration, and poetry.

Priests employed them in worship, incantations, and rituals, and shamans used them as charms to ward off evil spirits. Nations fought over access to and monopoly of certain spices, like cinnamon and nutmeg, when they were rare commodities. Not only were many men's fortunes made in the pursuit of spices, spices at many periods throughout history literally served as currency. In *Culinary Herbs and Spices of the World*, Ben-Erik van Wyk offers the first fully illustrated, scientific guide to nearly all commercial herbs and spices in existence. Van Wyk covers more than 150 species—from black pepper and blackcurrant to white mustard and white ginger—detailing the propagation, cultivation, and culinary uses of each. Introductory chapters capture the essence of culinary traditions, traditional herb and spice mixtures, preservation, presentation, and the chemistry of flavors, and individual entries include the chemical compounds and structures responsible for each spice or herb's characteristic flavor. Many of the herbs and spices van Wyk covers are familiar fixtures in our own spice racks, but a few—especially those from Africa and China—will be introduced for the first time to American audiences. Van Wyk also offers a global view of the most famous use or signature dish for each herb or spice, satisfying the gourmand's curiosity for more information about new dishes from little-known culinary traditions. People all over the world are becoming more sophisticated and demanding about what they eat and how it is prepared. *Culinary Herbs and Spices of the World* will appeal to those inquisitive foodies in addition to gardeners and botanists.

A dragon firebombs a freeway. Shape-shifters stalk the commercial district. The deadly Wild Hunt wreaks havoc on the highway. The Age of Misrule has dawned. When Jack Churchill and Ruth Gallagher encounter a terrifying, misshapen giant beneath a London bridge, they are plunged into a mystery that portends the end of the world as we know it. All over the country, the ancient gods of Celtic myth are returning to the land from which they were banished millennia ago. Following in their footsteps are creatures of folklore: fabulous beasts, wonders and dark terrors. As technology starts to fail, Jack and Ruth are forced to embark on a desperate quest for four magical items—the last chance for humanity in the face of powers barely comprehended. A pedal-to-the-floor, high-octane fantasy thriller that pitches magic and wonder into a pop culture mash-up of the modern world. Described as "One part Lord of the Rings, one part Illuminatus!, one part Arthurian romance, one part Harry Potter—100 % original!"

Dreams of the Golden Age

In a remote city on the edge of two worlds, where blood has power and water is more precious than freedom, three far-flung friends unite on a quest to save their families. Sal Hrvati's estranged father has brought more into the world than the woman he loved. Instead of saving her from the Void Beneath, he has summoned an unknown creature — a creature with a mission of its own and a past that stretches back to the beginning of the world. The quest to find both of them entangles Sal and his companions in a hunt for magical treasure on the floor of the Divide, a mighty crack in the earth inhabited by creatures that are not remotely human. Desert landscapes and dirigibles feature in a fast-paced fantasy that combines romance, adventure, and humor with an original take on magic. The Books of the Cataclysm take inspiration from many arcane and mythological sources. In positing that this world is just one of many "realms," three of which are inhabited by humans during various stages of their lives, it begins in the present world but soon propels the reader to a landscape that is simultaneously familiar and fantastic.

Deacon James is a rambling bluesman straight from Georgia, a black man with troubles that he can't escape, and music that won't let him go. On a train to Arkham, he meets trouble — visions of nightmares, gaping mouths and grasping tendrils, and a madman who calls himself John Persons. According to the stranger, Deacon is carrying a seed in his head, a thing that will destroy the world if he lets it hatch. The mad ravings chase Deacon to his next gig. His saxophone doesn't call up his audience from their seats, it calls up monstrosities from across dimensions. As Deacon flees, chased by horrors and cultists, he stumbles upon a runaway girl, who is trying to escape the destiny awaiting her. Like Deacon, she carries something deep inside her, something twisted and dangerous. Together, they seek to leave Arkham, only to find the Thousand Young lurking in the woods.
