The Rough Guide to 21st Century Cinema

The world's fascination with Bond is unstoppable. James Bond is the greatest British fictional hero of the post-war era. He also has a huge following in the US - and around the world - as a legendary Cold War warrior, and now as a daredevil able to take on the villains of the post-Cold War world. The Bond books are all in print. Today, Sebastian Faulks is writing new stories while Charlie Higson is writing children's versions. In this comprehensive guide to Ian Fleming, the books, the films and the world that was created out of 007, Nigel Cawthorne uncovers Bond's allure. It comes with special sections on the main characters - Q, M, the Bond Girls, and the women who first inspired them; the cars, and the incomparable baddies. It will be the ideal gift for fans and aficionados alike and will be published to coincide with the 50th anniversary of DOCTOR NO; the new film is scheduled for autumn 2012.

There are more than 1,000 school and community college (K-14) districts in California. To build, repair, or equip their campuses, they must ask voters to approve a general obligation (GO) bond and raise their property taxes rates -- a big ask. While GO bonds have become a multi-billion-dollar market, there has to date been no "how to" guide for district administrators, elected officials, taxpayer organizations, and concerned citizens. There is now. With hard-earned wisdom and wry wit, Dale Scott, California's leading K-14 financial advisor, has written WIN WIN: An Insider's Guide to School Bonds to demystify the complex, often challenging process that goes on "underneath the hood" in developing, structuring, passing, and selling a GO bond. Drawing on three decades of work as an advisor to school districts and community college districts, investment banker on Wall Street, financial advisor, and campaign manager, Dale walks readers through each step of the process, answering the many questions he's been asked over the years. Hard-hitting, detailed, and humorous, WIN WIN explores and explains why some bond elections pass but others fail, how bond deals are put together, tips on selecting the right team of professionals, how to avoid recent scandals surrounding GO bonds, and how to tell if tax rate estimates are accurate or just wishful thinking. Scott's book is an upbeat demystification of the complex processes of California school bonds, showing that when executed correctly, the teamwork of passing a school bond can have a transformative effect on both local schools and people's sense of their role in their community.

LIFE 50 Years of James Bond

Updated to include the road to Bond 25 For over 50 years, Albert R. Broccoli's Eon Productions has navigated the ups and downs of the volatile British film industry, enduring both critical wrath and acclaim in equal measure for its now legendary James Bond series. Latterly, this family-run business has been crowned with box office gold and recognised by motion picture academies around the world. However, it has not always been plain sailing. Changing financial regimes forced 007 to relocate to France and Mexico;

changing fashions and politics led to box office disappointments; and changing studio regimes and business disputes all but killed the franchise. And the rise of competing action heroes has constantly questioned Bond's place in popular culture. But against all odds the filmmakers continue to wring new life from the series, and 2012's Skyfall saw both huge critical and commercial success, crowning 007 as the undisputed king of the action genre. Now, with Daniel Craig back for a fifth turn as Ian Fleming's spy in October 2019, Bond's reign shows no signs of diminishing. *Some Kind of Hero* recounts this remarkable story, from its origins in the early fifties right through to the present day, and draws on over a hundred unpublished interviews with the cast and crew of this iconic series.

Franchising networks are experiencing great success in international business organization. Few books try to explain the characteristics of these networks. Contrary to the existing literature this book tackles more theoretical problems related to governance, organization, knowledge management, contract design, incentive and regulation issues both from the economic and management view point. It delivers new theoretical and empirical results regarding plural forms, contract design, and knowledge and strategic management issues. Its purpose is to offer researchers and practitioners new theoretical and empirical insights in one of the most important economic phenomenon at the beginning of the 21st century: Franchising networks as organizational arrangement for growth and internationalization of firms.

Fifty years (and five billion dollars in ticket sales) ago, the dashing Scottish actor Sean Connery declared suavely that he was "Bond, James Bond." Thus began a cinematic series unlike any other. The world will once more stream to the theaters for

another dose of Bond. LIFE was on the scene in the swinging '60s when James Bond became a cultural icon (in fact, when we put the gold-painted actress Shirley Eaton on the cover in 1964, we helped him along), and now LIFE tells the whole story in this commemorative book. Ian Fleming, a high-ranking officer in British Naval Intelligence of World War II, dreamt up his MI6 spy, code number 007, in 1953, and a decade later, with Dr. No, From Russia With Love and then the smash Goldfinger, saw his creation take on a life entirely his own. All the fun of Bond is here: The movies; the reminiscences by the stars; the LIFE photo shoots; the knockoffs and spoofs ("The Man from U.N.C.L.E.;" "Get Smart;" "I Spy;" the first Casino Royale); the artifacts (a model of Bond's Aston Martin DB5 was one of the best-selling toy of 1965); the trivia and inside information on M, Q and Money Penny—anything a Bond fan would want, packed into one book and then shaken, not stirred. James Bond was, back in the day, one of those cultural phenomena tailor-made for LIFE: It was bright and colorful and vibrant. Today, it still is. Happy birthday, and welcome back, Commander Bond.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the

In 1936 an American ornithologist named James Bond published the definitive taxonomy *Birds of the West Indies*. Ian Fleming, an active bird-watcher living in Jamaica, appropriated the name for his novel's lead character. He found it "flat and colourless," a fitting choice for a character intended to be "anonymous a blunt instrument in the hands of the government." In *Field Guide to Birds of the West Indies*, Taryn Simon casts herself as James Bond (1900-89) the ornithologist, and identifies, photographs and classifies all the birds that appear within the 24 films of the James Bond franchise. The appearance of many of the birds was unplanned and virtually undetected, operating as background noise for whatever set they happened to fly into. Simon's ornithological discoveries occupy a liminal space--confined within the fiction of the James Bond universe and yet wholly separate from it. This taxonomy of 331 birds is a precise consideration of a new nature found in an alternate reality. Taryn Simon (born 1975) is a multidisciplinary artist who has worked in photography, text, sculpture and performance. Guided by an interest in systems of categorization and classification, her practice involves extensive

research into the power and structure of secrecy and the precarious nature of survival. Simon's works have been the subject of monographic exhibitions at Ullens Center for Contemporary Art, Beijing (2013); The Museum of Modern Art, New York (2012); Tate Modern, London (2011); Neue Nationalgalerie, Berlin (2011); and the Whitney Museum of American Art, New York (2007). Permanent collections include The Metropolitan Museum of Art, Tate Modern, the Guggenheim Museum, Centre Georges Pompidou and the Los Angeles County Museum of Art. Her work is included in the 56th Venice Biennale (2015). She is a graduate of Brown University and a Guggenheim Fellow. Simon lives and works in New York.
