### IELTS 5 Practice Tests, Academic Set 1

Testing language for specific purposes (LSP) refers to that branch of language testing in which the test content and test methods are derived from an analysis of a specific language use situation, such as Spanish for business, Japanese for tour guides, Italian for language teachers, or English for air traffic control. LSP tests are usually contrasted with general purpose language tests, in which purpose is more broadly defined, as in the Test of English as a Foreign Language. This book is the first to examine the issues surrounding the implementation of tests for specific purposes. It includes an in-depth discussion of the issues, an examination of the current exams, and a comprehensive overview of the literature. It will be a welcome addition to any language teaching professionals library.

This volume reports research that informs the development of reading and listening assessment in IELTS. This volume brings together a set of eight IELTS-related research studies - four on reading and four on listening - conducted between 2005 and 2010. Findings from these studies provide valuable evidence on the validity, reliability, impact and practicality of the IELTS test; they are also instrumental in highlighting aspects needing attention, and thus directly inform the continuing

evolution of the IELTS reading and listening tests. The volume reviews and comments on the specific contribution of each study to the ongoing process of IELTS reading and listening test design and development.

GET TO THE TRUTH People--friends, family members, work colleagues, salespeople--lie to us all the time. Daily, hourly, constantly. None of us is immune, and all of us are victims. According to studies by several different researchers, most of us encounter nearly 200 lies a day. Now there's something we can do about it. Pamela Meyer's Liespotting links three

disciplines--facial recognition training, interrogation training, and a comprehensive survey of research in the field--into a specialized body of information developed specifically to help business leaders detect deception and get the information they need to successfully conduct their most important interactions and transactions. Some of the nation's leading business executives have learned to use these methods to root out lies in high stakes situations. Liespotting for the first time brings years of knowledge--previously found only in the intelligence community, police training academies, and universities--into the corporate boardroom, the manager's meeting, the job interview, the legal proceeding, and the deal negotiation. **WHAT'S IN THE BOOK?** Learn communication secrets previously known only to a handful of scientists, interrogators and intelligence specialists. Liespotting reveals what's hiding in plain sight in every business meeting, job interview and negotiation: - The single most dangerous facial expression to watch out for in business & personal relationships - 10 questions that get people to tell you anything - A simple 5-step method for spotting and stopping the lies told in nearly every high-stakes business negotiation and interview - Dozens of postures and facial expressions that should instantly put you on Red Alert for deception - The telltale phrases and verbal responses that separate truthful stories from deceitful ones - How to create a circle of advisers who will guarantee your success
