Pharos, the Egyptian

"In an increasingly globalized world, offshore manufacturing is often favored over domestic manufacturing for its ability to meet greater demands for goods that can be manufactured at lower costs, ultimately saving both companies and consumers money. However, a number of concerns also arise when examining offshoring's

impact on a domestic and international scale. Some argue that offshoring results in the exploitation of workers from lower-income countries, while others express concern over the potential loss of domestic jobs that can result from it. This volume examines the benefits and drawbacks of domestic and offshore manufacturing through numerous points of contention"--

Celia Reynolds is the youngest in a set of triplets and the one with the least valuable power. Anne can see the future, and Jane can see the present, but all Celia can see is the past. And the past seems so insignificant -- until Celia meets Lo. Lo doesn't know who she is. Or who she was. Once a human, she is now almost entirely a creature of the sea -- a nymph, an ocean girl, a mermaid -- all terms too pretty for the soulless monster she knows she's becoming. Lo clings to shreds of her former self, fighting to remember her past, even as she's tempted to embrace her dark immortality. When a handsome boy named Jude falls off a pier and into

the ocean, Celia and Lo work together to rescue him from the waves. The two form a friendship, but soon they find themselves competing for Jude's affection. Lo wants more than that, though. According to the ocean girls, there's only one way for Lo to earn back her humanity. She must persuade a mortal to love her . . . and steal his soul.

A Deadly Affair

A promising young attorney and a dedicated family man, Michael Fletcher seemed to have it all. But in the summer of 2000, Michael found himself standing trial for the murder of his pregnant wife, Leann. The verdict--guilty of second-degree murder--would leave friends, family, and the public at large scrambling to make sense of a twisted and frightening series of events that ended in the brutal killing of Leann Fletcher. What could possibly have led Michael Fletcher to commit such a

gruesome act? As a college student, Michael Fletcher married the girl of his dreams after a three-year courtship. It seems like a fairy-tale romance come true: a match made in heaven. So why would a man with no history of domestic violence murder his devoted wife right after he told her how much he loved her? Why would Michael shoot Leann in the back of the head, not only killing her but also the child that she was carrying inside her? According to prosecutors, Fletcher has been involved in an extramarital affair with a beautiful judge for two years. Was his relationship with respected District Judge Susan Chrzanowski enough cause for him to murder his wife in cold blood? Raising even more troubling questions, the startling discovery colored Leann's already shocking murder with shadings of sex, political scandal, and deadly betrayal.

Running a Small Library

For an ex-cop turned private investigator, I've carved out a pretty nice life for myself. Yeah, life is good, but that doesn't stop me from seeking closure and justice for victims of the darker side of Chattanooga. Some would call me reckless.

But I'm just doing it my way. These then are my stories.Book 1: On a wild December night, I found myself on the Walnut Street Bridge. Moments later I was staring down into the terrified eyes of a young woman-just seconds before she slipped through my fingers and fell to her death. Who was she? Why did she kill herself? The look on that girl's face will haunt me for the rest of my days. I had to find the answers "I read a lot of what I consider to be well written mysteries. Sue Grafton, Martha Grimes, Margret Truman, etc. This one is every bit as good and I really could not put it down." The Harry Starke series of mystery thrillers is recommended for fans of David Baldacci, James Patterson's Alex Cross, Harlan Coben's Myron Bolitar, Robert B. Parker's Spenser, John Sandford's Lucas Davenport, and Daniel Silva's Gabriel Allon.

Trouble According to Humphrey

Our contemporary world is plagued by a deep crisis that threatens the survival of our species and the planet. In the midst of this dire situation, we are being misled - by transnational corporations, governments, mainstream media networks, and spin doctors - to believe that neoliberal capitalism has all the answers and can overcome any crisis. But, can more of the same and a blind faith in capitalism save our world? Many are not convinced and there is a crucial awakening taking place. The rise of transnational activism - the World Social Forum, the Arab Spring, Occupy, the Climate Justice Movement, and a post-neoliberal left - affirms the need for alternatives to global neoliberal capitalism. A crucial idea and practice emerging from this ferment is the solidarity economy alternative. This book brings together contributions from leading thinkers and practitioners supporting the solidarity economy alternative in South Africa, the US, the UK, Brazil, and Italy. For the first time, there is an attempt to clarify, rather than codify, meanings of the solidarity economy, to emphasize crucial theoretical concepts at work in the emergent solidarity economy, and to highlight situated movement-building

experiences and ways in which the anti-capitalist logic of the solidarity economy can be constituted from below. The book is for anyone concerned about democracy, transformative politics, and emancipatory utopian alternatives. [Subject: Politics, Economics]
