During the recession (1999-2004), the United States

allowed a million people to enter the country to fill highly skilled positions for which, it was said, no skilled American workers could be found. These positions included motel managers, teachers, even an assistant women's volleyball coach! With over 8 million American citizens looking for work, employers felt that they had to go outside the United States to find workers with the skills and qualifications to fill these and dozens of other positions. Did you know that if someone is caught trying to enter the United States with a phony or stolen passport, the passport is returned to that person, who is then released? In *Up 2 Cents a Share Down 8 Million Jobs*, Dan Geoffrey takes you along on his journey of discovery to learn how immigration has affected not only our nation's jobs, but also our national security.

In Prometheus's Child, the first in an explosive series from New York Times bestseller Harold Coyle and noted military author Barrett Tillman, a new type of war is being fought by private paramilitary companies at the beck and call of the highest bidder. With the military and intelligence agencies spread thin, the United States is constantly calling upon the services of these organizations--and Strategic Solutions Inc. is among the best. What begins as a relatively simple military-training mission in Chad turns into a high-stakes game of nuclear brinkmanship as the men and women of Security Solutions, Inc. stumble across a plot to extract and ship yellowcake—the base fuel for a nuclear weapon—to any number of countries hostile to the US. The in-country force tracks the operation to a supposedly abandoned remote mine in the desert. They strike, but a convoy carrying the yellowcake shipment escapes their trap. With time running out, the SSI teams must pull together like they never have before to find a ship in international waters and recover its deadly cargo—by any means necessary.
