Nova Scotia's Cape Breton Island is a beautiful region with a unique community whose history and ethnic composition have resulted in the evolution of a powerful sense of identity and place. While outsiders may think only of the island's perennial economic woes and long economic dependence on coal mining and steel production, it is also the home of a rich, vibrant, and distinct culture. Brian Douglas Tennyson's Cape Bretoniana is the first bibliography to gather together all known publications relating to the history, culture, economy, and politics of Cape Breton Island. With more than 6000 entries, it not only provides a comprehensive listing of publications and post-graduate theses, but also detailed annotations on the listings. Each entry lists the author, title, place of publication, publisher, date of publication, volume and issue number in the case of periodicals, and page references, followed by a brief description of the item. Cape Breton has never been so thoroughly documented. This bibliography will help to ensure that ? even in a world becoming increasingly homogenized by the forces of globalization ? unique cultural identities like Cape Breton's can be preserved and nurtured.

page book contains hundreds of photos which cover the prewar period when this most significant of American automobiles was created and produced. As much an exciting story of compelling characters as it is the first complete history, a reader will recognize many names in both the public and private which went on to fame in WWII. The book can also be seen as a near text book concerning the practical difficulties in industrial design and procurement, involving as it does the difficulty of innovators satisfying a customer with a design. A careful reader will see the dramatic transition from the 'old America' of the post Civil War era into what we like to call the 'modern times' of the post war era, just now ending. One will see the beginning of Eisenhower's 'Military-Industrial Complex'. Primarily however the book is an inspirational story of a small band of men in a tiny company, struggling for survival which accepts a gigantic challenge and succeeds brilliantly, only to be overwhelmed by the giant government and corporate interests of the time and since forgotten.

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Street's Guide to the Cape Verde Islands is the first and only cruising guide for the Cape Verde Islands. Printed in 2011 it is a completely up-to-date, full-color guide that includes charts and sketches not available through any other source, as well

as GPS waypoints, harbor and marina information, local knowledge and much more. Don Street has a message for all sailors planning to cross the Atlantic via the trade-wind route: "Forget about spending Christmas in the Caribbean, which forces you to cross the Atlantic in late November and early December when the trades are erratic and sometimes light to nonexistent. Instead, spend Christmas cruising and exploring the Cape Verde Islands and set off in late December or early January, after the trades have settled in, and be almost guaranteed a fast passage. They're not called the Christmas Winds for nothing "

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles.

She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
