Established in 1919, the CIMA offers an internationally-respected management qualification. These passcards are designed for paper 1 of stage 1 of the 2000 CIMA professional examinations in management accountancy. Designed to be self-contained, covering the whole syllabus, and revised in response to syllabus and legislative changes, the 2000 CIMA study materials comprise a range of study texts, practice and revision kits, and passcards - all available separately, and covering papers 1 to 16 from stage 1 up to stage 4. Passcards are the third component of the study package focusing only on the essentials for the exam. Focus points highlight topics most likely to appear in the exam with emphasis given to the most recent exams. Key topics are summarized in a concise manner making passcards ideal for last minute revision. Each passcard is pocket-sized and spiral-bound for convenient use. The cards feature notes linked to clear key-word diagrams, practical tips on what the examiners will be looking for, and an indication of which topics have been examined and when.

Management and Cost Accounting

Cost Accounting, Second Edition covers information and terminologies that prepare students for the final Level of the Accounting Technicians examinations, and the Level 1 Cost Accounting paper for the Chartered Association of Certified Accountants. The book provides definitions of terms associated with cost and costing and discusses the environment and uses of cost accounting. The text

identifies the basic elements of cost accounting and how some of the elements are drawn into the procedures, with focus on materials and conversion cost. The types of costing methods, the typical costing systems, the basic mechanics of process costing, and the impact of losses and gains and work-in-progress are also considered. The book discusses marginal and standard costing, budget, and variance analysis, which is the essential mechanics of the operation of standard costing. The book also appraises cost accounting system, integrated accounts, and the presentation of cost accounting information. The last part of the book aims to review the communications constraints and desires put upon the accountant and to go into the mechanics of report writing. The book will be invaluable to certified accountants, management accountants, and non-mathematical students taking accounting subjects.

Students of professional qualifications often work in the dark. Many take no formal tuition and are often left to learn off the page. Many students learn the theory but are unable to identify what the question requires. They miss marks they could, and should have picked up for material they have spent precious time studying. They fail exams they have the ability to pass. This book spotlights what examiners look for and helps you ask, and answer, this key question - What exactly does the examiner want? The book covers exam techniques, how to approach different styles of question (such as CBA, essays, case studies) how to lay out your work, etc. Written in a straightforward manner, this study buddy gets the point across clearly without dumbing down important messages. Cartoons, illustrations and mind-maps show you how you should be thinking, and what you should be doing in order to work smarter, not harder. Professional exams are highly time pressured, both for the student and the marker. Good exam technique is a priority. This book will help you get all the marks you deserve, and perhaps a few you don't! * Get the most out of your study time, and maximum marks at exam time - this books shows you how to work smarter, not harder * Written by a CIMA Examiner and Tutor, this study buddy shows you exactly what the examiner is looking for * Illustrations, mind-maps and cartoons cool your nerves and show you how to plan and write your answer succinctly and successfully
