Chevrolet Camaro. Pontiac GTO. Dodge Charger. Ford Mustang. These names evoke memories of aggressively styled, amply powered kings of the road from the decade of the 1960s and the early 1970s, when Detroit was king, oil was cheap, and cars rumbled when you told them to. Muscle Cars: Kings of the Street from the Golden Era tells the story of these automobiles and dozens more, with insightful descriptions from the auto editors of Consumer Guide and full-color photographs on every page. More than 90 cars are profiled, including their mechanical and design highlights and their place in the muscle car pecking order. Exclusive specifications charts detail each car's vital statistics--how much it cost, how many were built, how fast it went and many more details. The focus is not on highly modified, professionally raced versions of these iconic machines; instead the focus is on prime examples of the cars you or your dads drove during this exciting decade. You learn about: - Genuine muscle cars like the many Dodge Charger versions issued during the 1960s and early 1970s--a true classic. - Car luxury makers' attempts at muscle car stardom, like the 1967 Oldsmobile Cutlass 4-4-2 W-30 and the 1969 Buick GS 400. - The icons, like the Pontiac GTO, Chevrolet Camaro, Chevrolet Nova, Chevrolet Chevelle, and Dodge Challenger T/A. - The 1964 Pontiac Tempest GTO--what some consider the quintessential muscle car. It's all here, in

the best muscle-car read you'll find anywhere: *Muscle Cars: Kings of the Street from the Golden Era*. Take a trip down memory lane--a loud one.

Coke adds life. Just do it. Yo quiero Taco Bell. We live in a commercial age, awash in a sea of brand names, logos, and advertising jingles—not to mention commodities themselves. Are shoppers merely the unwitting stooges of the greedy producers who will stop at nothing to sell their wares? Are the producers' powers of persuasion so great that resistance is futile? James Twitchell counters this assumption of the used and abused consumer with a witty and unflinching look at commercial culture, starting from the simple observation that "we are powerfully attracted to the world of goods (after all, we don't call them 'bads')." He contends that far from being forced upon us against our better judgment, "consumerism is our better judgment." Why? Because increasingly, store-bought objects are what hold us together as a society, doing the work of "birth, patina, pews, coats of arms, house, and social rank"—previously done by religion and bloodline. We immediately understand the connotations of status and identity exemplified by the Nike swoosh, the Polo pony, the Guess? label, the DKNY logo. The commodity alone is not what we are after; rather, we actively and creatively want that logo and its signification—the social identity it bestows upon us. As Twitchell summarizes, "Tell me what you buy, and I will tell what you are and who you want to be." Using elements as disparate as the film *The Jerk*, French theorists, popular bumper stickers, and *Money* magazine to explore the nature and importance of advertising lingo, packaging, fashion, and "The Meaning of Self," Twitchell overturns one stodgy social myth after another. In the process he reveals the purchase and possession of things to be the self-identifying acts of modern life. Not only does the car you drive tell others who you are, it lets you know as well. The consumption of goods, according to Twitchell, provides us with tangible everyday comforts and with crucial inner security in a seemingly faithless age. That we may find our sense of self through buying material objects is among the chief indictments of contemporary culture. Twitchell, however, sees the significance of shopping. "There are no false needs." We buy more than objects, we buy meaning. For many of us, especially in our youth, Things R Us.

100 Cars That Changed the World: The Designs, Engines, and Technologies That Drive Our Imaginations

Entertainment Weekly's controversial critic of more than two decades looks back at a life told through the films he loved and loathed. Owen Gleiberman has spent his life watching movies-first at the drive-in, where his parents took him to see wildly inappropriate adult fare like Rosemary's Baby when he was a wide-eyed 9 year old, then as a possessed cinemaniac who became a film critic right out of college. In *Movie Freak*, his enthrallingly candid, funny, and eye-opening memoir, Gleiberman captures what it's like to live life through the movies, existing in thrall to a virtual reality that becomes, over time, more real than reality itself. Gleiberman paints a bittersweet portrait of his complicated and ultimately doomed friendship with Pauline Kael, the legendary New Yorker film critic who was his mentor and muse. He also offers an unprecedented inside look at what the experience of being a critic is really all about, detailing his stint at The Boston Phoenix and then, starting in 1990, at EW, where he becomes a voice of obsession battling-to a fault-to cling to his independence. Gleiberman explores the movies that shaped him, from the films that first made him want to be a critic (Nashville and Carrie), to what he hails as the sublime dark trilogy of the 1980s (Blue Velvet, Sid and Nancy, and Manhunter), to the scruffy humanity of Dazed and Confused, to the brilliant madness of Natural Born Killers, to the transcendence of Breaking the Waves, to the pop rapture of Moulin Rouge! He explores his partnership with Lisa Schwarzbaum and his friendships and encounters with such figures as Oliver Stone, Russell Crowe, Richard Linklater, and Ben Affleck. He also writes with confessional intimacy about his romantic relationships and how they echoed the behavior of his bullying, philandering father. And he talks about what film criticism is becoming in the digital age: a cacophony of voices threatened by an insidious new kind of groupthink. Ultimately, *Movie Freak* is about the primal pleasure of film and the enigmatic dynamic between critic and screen. For Gleiberman, the moving image has a talismanic power, but it also represents a kind of sweet sickness, a magnificent obsession that both consumes and propels him.

While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Understanding Research

Eric Hobsbawm, who passed away in 2012, was one of the most brilliant and original historians of our age. Through his work, he observed the great twentieth-century confrontation between bourgeois fin de siècle culture and myriad new movements and ideologies, from communism and extreme nationalism to Dadaism to the emergence of information technology. In *Fractured Times*, Hobsbawm, with characteristic verve, unpacks a century of cultural fragmentation. Hobsbawm examines the conditions that both created the flowering of the belle époque and held the seeds of its disintegration: paternalistic capitalism, globalization, and the arrival of a mass consumer society. Passionate but never sentimental, he ranges freely across subjects as diverse as classical music, the fine arts, rock music, and sculpture. He records the passing of the golden age of the "free intellectual" and explores the lives of forgotten greats; analyzes the

relationship between art and totalitarianism; and dissects phenomena as diverse as surrealism, art nouveau, the emancipation of women, and the myth of the American cowboy. Written with consummate imagination and skill, *Fractured Times* is the last book from one of our greatest modern-day thinkers.

[The authors use] language that helps the reader become engaged and invites them to start applying what they have learned to their situation immediately. The examples of the journal articles with the notations are very helpful and we use these for discussion in the class quite a bit. I also like the 'reviewing what we've learned' and 'practicing your skills' at the end of the chapter. I much prefer the consumer approach of this text over others on the market." -- Candyce Reynolds, Portland State University "Understanding Research is true to its name; it is much more user friendly, it explains WHAT research IS. It does an EXCELLENT job of covering all of the material I currently cover. [The authors] (fortunately) force me to provide a balanced, comparative description of both [quantitative and qualitative] research. . . . I find the writing style to be clear, interesting and engaging. " -- Carol A. Friesen, Ball State University
