This gold standard Canadian text prepares and inspires nursing students to become engaged with and respond to the latest and most vital professional, legal, ethical, political, social, economic, and environmental issues affecting Canadian nurses. The chapters, by the most influential scholars throughout Canada, explore a broad range of current issues including but not limited to the Canadian health care system, the nursing shortage, professional organizations, nursing research, nursing education, workplace realities, and societal challenges such as nursing in First Nations communities. As a unique emphasis, the authors fundamentally believe students who understand nursing issues are in the best

position to make significant contributions to their resolution. In that vein, the authors critically analyze the tensions and contradictions that exist between nurses' legislated authority to self-regulate and the changing nature and realities of nurses' work while inspiring more nurses to influence decision making in professional associations, collective bargaining units, government, and workplace. Realities of Canadian Nursing: Professional, Practice, and Power Issues by Marjorie McIntyre and Elizabeth Thomlinson does more than provide an outline of nursing issues. approach incorporates pediatric, adult, and older adult lifespan considerations in each body system chapter. UNIQUE! Appendixes for each chapter summarize medications and nursing procedures for quick reference. Alternate item format questions on Evolve prepare you for the interactive question types on the NCLEX examination, including priority drag-and-drop and hot-spot (illustrated point-and-click) questions. Test Alert! boxes in the book highlight key concepts frequently found on the NCLEX examination. Answers and rationales for all review questions show why correct answers are right and incorrect options are wrong. Separate chapters on pharmacology and nursing management help students to focus on these areas of emphasis on the NCLEX examination. Nursing Priority boxes make it easier for students to distinguish priorities of nursing care. Pharmacology tables make key drug information easy to find, with high-alert medications noted by a special icon. Special icons distinguish pediatric and adult disorders, and identify content on Self-Care and Home Care. NEW! UPDATED content reflects the most recent NCLEX-RN® test plan and incorporates important clinical updates. NEW! 25 additional illustrations and mnemonics make the book more appealing than ever to the visual learner. NEW! Chapter on Culture and Spiritual Awareness addresses the addition of Culture and Spirituality to the Integrated Processes in the NCLEX test plan. NEW! Nursing Management and Ethical/Legal concepts divided into two chapters emphasize the increasing amount of administrative duties nurses face and the importance of management of care on the NCLEX. NEW! Priority Concepts added to the beginning of each chapter

assist you in concept-based nursing programs in focusing on priority concepts for each chapter.

Classroom tested and reviewed, the third Canadian edition of Dosage Calculations draws upon the strengths of two marketing leading Canadian editions and nine US editions that have together helped over 1 million faculty and students allay math anxiety and promote confidence in their ability to perform

accurate calculations. The new edition also responds to changes in the healthcare system by introducing new drugs, replacing outdated drugs, and discussing new or refined ways of administering medications. This text is directed at the student or professional who feels uncomfortable with mathematics and wants to improve their ability to perform accurate drug dosage calculations. As a pioneer Canadian text in the topic of medication calculations, the authors have transcended provincial practices to provide a nationwide perspective on dosage calculations. The text teaches the ?Three-Step Approach? for calculating dosages: 1. Convert measurements to the same unit; 2. Consider what dosage is reasonable; and 3. Calculate using the formula method.

### **NCLEX-RN Review**

In Downwardly Global Lalaie Ameeriar examines the transnational labor migration of Pakistani women to Toronto. Despite being trained professionals in fields including engineering, law, medicine, and education, they experience high levels of unemployment and poverty. Rather than addressing this downward

mobility as the result of bureaucratic failures, in practice their unemployment is treated as a problem of culture and racialized bodily difference. In Toronto, a city that prides itself on multicultural inclusion, women are subjected to two distinct cultural contexts revealing that integration in Canada represents not the erasure of all differences, but the celebration of some differences and the eradication of others. Downwardly Global juxtaposes the experiences of these women in state-funded unemployment workshops, where they are instructed not to smell like Indian food or wear ethnic clothing, with their experiences at cultural festivals in which they are encouraged to promote these same differences. This form of multiculturalism, Ameeriar reveals, privileges whiteness while using race, gender, and cultural difference as a scapegoat for the failures of Canadian neoliberal policies.
