Betty Zane

When my father was first diagnosed with Alzheimer’s, I read and researched everything I could get my hands on about the disease. Right off the bat I could tell if it was written by a physician, pharmaceutical company or even a nursing home. When caregivers are looking for help, the last thing they need is medical text so complex they already forgot what they read by the time it’s laid back down. This is what got me started on writing about common sense caregiving, which turned into a weekly column and now into this book. My goal is to make this book as “caregiver friendly” as possible. Sharing my triumphs and hardships from my plus three-thousand day campaign in dealing with the disease of Alzheimer’s and the world of memory-impairment. Gary Joseph LeBlanc is a columnist, speaker and book dealer from Spring Hill, Florida. He was the primary caregiver of his beloved father stricken with Alzheimer’s disease for nearly the past decade. LeBlanc’s weekly column appears in the Hernando Today, a Tampa Tribune Publication and other health publications. His writings offer insight and hope through his own journey of caregiving, dealing with the memory-impaired, given in a caregiver friendly manner.

My Name Used to Be Muhammad

When the beautiful but headstrong Betty Zane went to live with her brother, Colonel Ebenezer Zane, at Fort Henry on the Ohio frontier, she had no way of knowing what her presence there would mean to the settlement in the days to come. She also had no way of knowing what it would mean to the handsome stranger who had just arrived from Virginia, determined to make Fort Henry his new home, as well. First published in 1903, *Betty Zane* was Zane Grey's first novel and the first volume in his Frontier Trilogy. The book tells the thrilling true story of Grey's own great-great-aunt, Elizabeth Zane, called Betty by her family. The youngest member of the renowned Zane family of Virginia, Betty, along with her famous older brothers, helped to settle America's Western frontier on the Ohio River in the 1700s. History has credited Betty with helping to win the last battle of the Revolutionary War in 1782. This Youth Edition was edited with young readers in mind, but adults will enjoy this heroic tale, too.

Born in Nigeria, Tito Momen was raised to observe the strict and radical teachings of Islam. As early as age five, he was waking before dawn every morning to attend the mosque and pray with the men in his village. By age six, he was training to memorize the Qur'an by copying the entire book word for word. And as he grew he was being raised to emerge as a leader among clerics, capable of leading a jihad to convert nonbelievers to Islam. As a young student he was introduced to Christianity and later baptized in The Church of Jesus Christ of Latter-day Saints, a decision which lead to estrangement from his family and harsh cultural and legal consequences. A memoir of faith, freedom, and redemption, this is an inspirational story of a man whose faith journey lead to a life sentence at a notoriously harsh Egyptian prison until his physical and spiritual release.

J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."
