Once you master the use of handsaws, you'll be awed by the simple power of this humble tool. If you can see and follow a line - any line - you can cut the line. There's no need for crazy setups or jigs; just grab the right saw and start cutting - any angle, any shape. Complex joinery becomes no more than a series of lines to cut on your stock. Yet many woodworkers - both beginners and professionals - are intimidated by handsaws. Handsaw Essentials - compiled from more than a decade's worth of blog entries and magazine articles - will change that. Christopher Schwarz and the editors and contributors to Popular Woodworking help you choose the right saw for your budget and project, use it successfully and keep it cutting like new.

I think we accepted it at Rattlers Ridge without question. The matter of ownership was more difficult to settle; and although the dog I have in my mind at the present writing attached himself impartially and equally to everyone in camp, no one ventured to exclusively claim him; while, after the perpetration of any canine atrocity, everybody repudiated him with indecent haste.

Dave Ross (1871-1943) and George Ade (1866-1944) were trustees, distinguished alumni and benefactors of Purdue University. Their friendship began in 1922 and led to their giving land and money for the 1924 construction of Ross-Ade Stadium, now a 70,000 seat athletic landmark on the West Lafayette campus. Their life stories date to 1883 Purdue and involve their separate student experiences and eventual fame. Their lives crossed paths with U.S. First Lady Eleanor Roosevelt, Henry Ford, Amelia Earhart, and Will Rogers among others. Gifts or ideas from Ross or Ade led to creation of the Purdue Research Foundation, Purdue Airport, Ross

Hills Park, and Ross Engineering Camp. They helped Purdue Theater, the Harlequin Club and more. Ade, renowned author and playwright, did butt heads with Purdue administrators at times long ago, but remains a revered figure. Ross's ingenious mechanical inventions of gears still steer millions of motorized vehicles, boats, tractors, even golf carts the world over.

Adrift is a book, based on a true story, for those who have left home, sought home, or even found home and know what it's like to live between worlds. Deanne was born to Canadian parents and grew up living in Canada, Germany and then on ships sailing around the world. This story begins when she moved back to the sea shortly after her 13th birthday. As I stared out the window of the van, the buildings of every city loomed ominously, like giant watchdogs forcing us to keep going. The glass was cool as I leaned my head against the window and forced the tears to retreat. The world outside the window whirled by as I stared the dogs down. My

memories hung loosely together like bulbs from a string of lights. I couldn't remember when or where they happened or my exact age. I lived moment by moment, a girl in front of an ever-changing landscape of people and places. There were reasons I did not belong to each of the countries I lived: you are not German, you have a Canadian passport. You are not Canadian, you've only lived here for a year. Would I ever fit in? J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

The man in this book "The Illusive Highwayman" is real and the activities, scams and manipulations he worked on people over the years actually occurred. He traveled the highways of Vancouver Island and British Columbia, Canada and the Western United States. Although his individual takes were not large or remarkable, the amount of money, free accommodations and other considerations he received from people reached a considerable amount over the time that he worked his scams. This man took full advantage of the generosity and human kindness of people he met, with no consideration of how he affected their lives, and with no remorse for his actions.

Published only months after the disaster and sold as a "Memorial Edition," this is one of the most sensationalistic early books about the sinking of the Titanic. It contains a multitude of survivor accounts, taken from newspaper stories, personal interviews, and reports of the Senate investigation. Much of the early reporting - for example, that the Titanic exploded and broke in two before she sank - is now known to be untrue, but the raw horror of the disaster remains in the rush and jumble of the survivors' own words. There are also unique accounts not reported elsewhere, including a comparison to the cowardly behavior of passengers and crew during the Bourgogne disaster, a chapter on the gruesome task of the "funeral ship" Mackay-Bennett, and the initial story of Lady Duff-Gordon, who was later pilloried by the "yellow press."
