The Exclusive Method You Can Use to Learn—Not Just Memorize—Essential Words  
A powerful vocabulary expands your world of opportunity. Building your word power will help you write more effectively, communicate clearly, score higher on standardized tests like the SAT, ACT, or GRE, and be more confident and persuasive in everything you do. Using the exclusive Fiske method, you will not just memorize words, but truly learn their meanings and how to use them correctly. This knowledge will stay with you longer and be easier to recall—and it doesn't take any longer than less-effective memorization. How does it work? This book uses a simple three-part system: 1. Patterns: Words aren't arranged randomly or alphabetically, but in similar groups based on meaning and origin that make words easier to remember over time. 2. Deeper Meanings, More Examples: Full explanations—not just brief definitions—of what the words mean, plus multiple examples of the words in sentences. 3. Quick Activities: Frequent short quizzes help you test how much you've learned, while helping your brain internalize their meanings.

## **The Pursuit of Happiness**

Manhattan, Thanksgiving eve, 1945. The war is over, and Eric Smythe's party was in full swing. All his clever Greenwich Village friends were there. So too was his sister Sara, an independent, outspoken young woman, starting to make her way in the big city. And then in walked Jack Malone, a U.S. Army journalist just back from a defeated Germany, a man whose world view was vastly different than that of Eric and his friends. This chance meeting between Sara and Jack and the choices they both made in the wake of it would eventually have profound consequences, both for themselves and for those closest to them for decades afterwards. Set amidst the dynamic optimism of postwar New York and the subsequent nightmare of the McCarthy era, *The Pursuit of Happiness* is a great, tragic love story; a tale of divided loyalties, decisive moral choices and the random workings of destiny.

Finally, the first research-based book of sound strategies and best practices to help instructors motivate students to complete their online courses. Although studies support the effectiveness of learning online, students often fail to complete online courses. Some studies have found that as many as 50-70% drop out of their online courses or programs. Retention is not only a growing expectation and imperative, but it is also an opportunity for faculty members to take the lead in innovating, researching, and implementing new strategies while demonstrating their effectiveness. Designed for instructors and instructional designers, *Motivating and Retaining Online Students* is filled with empirical research from the authors' study of motivation and retention strategies that can reduce online learner dropout. Focusing on the most important issues instructors face, such as course design; student engagement and motivation; and institutional, instructional, and informal student support strategies, the book provides effective online strategies that help minimize student dropout, increase student retention, and support student learning. While helping to improve the overall retention rates for educational institutions, the strategies outlined in the book also allow for student diversity and individual learner differences. Lehman and Conceição's proven model gives instructors an effective approach to help students persist in online courses and succeed as learners.

## **Tour of Duty**

Covering more than four decades, *Tour of Duty* is the definitive account of John Kerry's journey from war to peace. Written by acclaimed historian Douglas Brinkley, this is the first full-scale, intimate account of Kerry's naval career. In

writing this riveting narrative, Brinkley has drawn on extensive interviews with virtually everyone who knew Kerry well in Vietnam, including all the men still living who served under him. Kerry also entrusted to Brinkley his letters home from Vietnam and his voluminous "War Notes" -- journals, notebooks, and personal reminiscences written during and shortly after the war. This material was provided without restriction, to be used at Brinkley's discretion, and has never before been published. John Kerry enlisted in the Navy in February 1966, months before he graduated from Yale. In December 1967 Ensign Kerry was assigned to the frigate U.S.S. Gridley; after five months of service in the Pacific, with a brief stop in Vietnam, he returned to the United States and underwent training to command a Swift boat, a small craft deployed in Vietnam's rivers. In June 1968 Kerry was promoted to lieutenant (junior grade), and by the end of that year he was back in Vietnam, where he commanded, over time, two Swift boats. Throughout Tour of Duty Brinkley deftly deals with such explosive issues as U.S. atrocities in Vietnam and the bombing of Cambodia. In a series of unforgettable combat-action sequences, he recounts how Kerry won the Purple Heart three times for wounds suffered in action and was awarded the Bronze Star and the Navy's Silver Star for gallantry in action. When Kerry returned from Southeast Asia, he joined the Vietnam Veterans Against the War (VVAW), becoming a prominent antiwar spokesperson. He challenged the Nixon administration on Capitol Hill with the antiwar movement cheering him on. As Kerry's public popularity soared in April-May 1971, the FBI considered him a subversive. Brinkley -- using new information acquired from the recently released Nixon tapes -- reveals how White House aides Charles Colson and H. R. Haldeman tried to discredit Kerry. Refusing to be intimidated, Kerry started running for public office, eventually becoming a U.S. senator from Massachusetts. But he never forgot his fallen comrades. Working with his friend Senator John McCain, he returned to Vietnam numerous times looking for MIAs and POWs. By the time Bill Clinton was elected president in 1992, Kerry was the leading proponent of "normalization" of relations with Vietnam. When President Clinton officially recognized Vietnam in 1995, Kerry's three-decade-long tour of duty had at long last ended.

In his play "The Romancers" Edmond Rostand satirizes the sentimentalism and escapism of Romantic literature of his times. Percinet is the only son of Bergamin and Sylvette is the only daughter of Pasquinot. Their fathers who are widowers and neighbors make a plan to marry their children with each other. In order to accomplish this, the fathers separate their children so that they may love each other the more, and desire to be re-united. As a part of their plan, Bergamin warns his son to stay away from Pasquinot and his daughter. Similarly, Pasquinot also warns his daughter that she should not be near to his mortal enemy Bergamin and his son. In spite of their fathers' warnings, Percinet and Sylvette fall in love. They think themselves as the counterparts of Romeo and Juliet. They are worried that their love will also end in tragedy like that of Romeo and Juliet. They are emotional, daydreaming teenagers who have recently finished their school studies. They are deeply influenced by romantic literature of their times, especially by the romantic play "Romeo and Juliet" of William Shakespeare. They are so in love with each other that they desire to die rather than separate with each other. Bergamin then hires Straforel and his company for a fake kidnapping. At midnight hours, when

Percinet and Sylvette are about to meet, Straforel with his company kidnap Sylvette and put her into the sedan chair. Percinet hears the cry of Sylvette, jumps over the wall and fights with his sword. At the same time, as planned, Pasquinot enters and calls Percinet a hero. He suggests Bergamin to put an end to their enmity and arrange the marriage of their children. Thus in the end the two children seem like puppets in the hands of their fathers. - MeroSpark Cloud Reference, <http://www.merospark.com>

Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.

Aus dem Buch: "Wir wollen zur Ehrenrettung unseres kleinen Hans ein Weiteres tun. Er benimmt sich eigentlich nicht schlechter als ein Philosoph der Wundtschen Schule. Für einen solchen ist das Bewußtsein der nie fehlende Charakter des Seelischen, wie für Hans der Wiwimacher das unentbehrliche Kennzeichen alles Lebenden. Stößt der Philosoph nun auf seelische Vorgänge, die man erschließen muß, an denen aber wirklich nichts von Bewußtsein wahrzunehmen ist - man weiß nämlich nichts von ihnen und kann doch nicht umhin, sie zu erschließen -, so sagt er nicht etwa, dies seien unbewußte seelische Vorgänge, sondern er heißt sie dunkelbewußte."
