Unlock your full potential with this revision guide which focuses on the key content and skills you need to know. With My Revision Notes for OCR Computing for GCSE, which perfectly matches the theory units of the specification, you can: Take control of your revision: plan and focus on the areas you need to revise, with advice, summaries and notes from authors Sean O'Byrne and George Rouse Show you fully understand key topics, by using specific case studies to add depth to your knowledge of computing issues and processes Apply computing terms accurately with the help of definitions and key words on all topics Improve your skills to tackle specific exam questions with the help of self-testing and exam-style questions and answers Get exam-ready with last-minute quick quizzes at www.hodderplus.co.uk/myrevisionnotes

Edexcel GCSE (9-1) Statistics Student Book

Surveys the various techniques that can be used to evaluate students' learning, including summative, diagnostic, and formative approaches and the assessment of specific skills

Oxford Revise: AQA GCSE (9-1) Maths Foundation Revision Guide

IGCSE Mathematics for Edexcel, 2nd edition has been updated to ensure that this second edition fully supports Edexcel's International GCSE Specification A and the Edexcel Certificate in Mathematics. Written by an experienced examiner, teacher and author, this is the perfect resource for Higher Tier students. Each chapter starts with key objectives and a starter activity to introduce students to the content, and the straightforward explanations, worked examples and practice questions which follow cover every type of problem students are likely to face in their final exam. 'Internet challenges' also ensure regular and integrated use of ICT. The book is accompanied by an interactive CD-ROM, which includes a digital version of the book, answers to all the questions and Personal Tutors to accompany every topic. Personal Tutors are interactive audio-visual presentations of worked examples which help students consolidate their learning. This Student's Book is accompanied by IGCSE Mathematics Practice for Edexcel, 2nd edition, which contains a wealth of exam-style questions, and IGCSE Mathematics Teacher's Resource for Edexcel, which provides teaching and learning support.

First exams: June 2017 Endorsed by Edexcel

GCSE Maths Edexcel Higher Student Book (Collins GCSE Maths)

Our A level Mathematics Statistics and Mechanics Year 2 Practice Book is a brand-

new addition to the market leading and most-trusted resources for Pearson Edexcel AS and A level Mathematics, to help you get exam-ready. Coverage: the practice workbooks cover all Pure, Statistics and Mechanics topics, reflecting the style of questions seen in the summer 2018 exams. Quantity: the most A level question practice available, with over 2,000 extra questions per book. Practice at the right pace: start with the essentials, build your skills with various practice questions to make connections between topics, then apply this to exam-style questions at the end of each chapter. Get exam-ready with confidence: differentiated questions including 'Bronze, Silver, Gold' in each chapter, and a mixed problem-solving section for each book, will guide and help you to develop the skills you need for your exams. Designed to be used flexibly, the practice books are fully mapped to the scheme of work and textbooks so you can use them seamlessly in and out of the classroom and all year round. Use them lesson by lesson, topic by topic, for homework, revision and more - the choice is yours. Great value practice materials that are cheaper than photocopying, saves more time than independently sourcing questions and answers, and are all in one place.

Oxford GCSE Maths

"Gibbons begins with a strong theoretical underpinning for her practice, drawing on a functional model of language, sociocultural theories of learning, and current research on second-language development. After supporting her view that the

regular curriculum offers the best language-learning environment for young ESL students, Gibbons demonstrates the ways in which content areas provide a context for the teaching of English skills, from speaking and listening to reading and writing. These skills can be integrated in the learning of diverse subjects as Gibbons illustrates with a wide range of teaching and learning activities across the curriculum, supplemented with programming and assessment formats and checklists."--BOOK JACKET.

Activate 3 is the perfect solution for Y9 science. This teacher handbook accompanies the Activate 3 student book, and takes a contextual approach to

consolidate KS3 topics and prepare for KS4. Activate 3 provides plenty of practise at handling data, using maths and extended writing - essential skills for KS4 success.

New GCSE Maths OCR Workbook: Higher - For the Grade 9-1 Course

This Student Book provides a grammar-led approach with extensive exam preparation to develop independent, culturally aware students of German, ready for the exam. This book is endorsed by Cambridge International Examinations for the latest IGCSE® (0525) and International Level 1/Level 2 Certificate (0677) syllabuses. Extensive use of German reflects the style of the exams and, with specific advice and practice, it helps students use the acquired skills to their best ability. Topics on German-speaking cultures are integrated throughout to ensure students gain the cultural awareness that is at the heart of this qualification. - Develop students' ability to use German effectively - Stretch and challenge students to achieve their best grades - Ensure the progression required for further study at A-level or equivalent - Provide insight and encourage a positive attitude towards other cultures The book provides up-to-date content following a clear sequencing of topics designed specifically for teaching German at this level. It is designed to develop spontaneous, confident linguists who are able to progress to

further study of German. - Teacher Resource + Audio-CDs (ISBN 9781471833076) includes all recordings and transcripts together with detailed guidance, editable vocabulary lists, cultural PowerPoints and interactive quizzes - Grammar Workbook (ISBN 9781471833182) Vocabulary is also available online at Vocab Express, an interactive learning application Visit www.vocabexpress.co.uk/hodder for more information.

Bridging GCSE and A-Level Maths Student Book

A hugely enjoyable, brilliantly researched explanation of the basic principles of maths.

Mathematics A - Linear Foundation

Exam Board: Edexcel Level: GCSE Subject: Statistics First teaching: September 2017 First exams: June 2019 Developed in line with the key principles of the new specification, our new Student Book for Edexcel GCSE (9-1) Statistics: - gives you comprehensive and accessible support for the new Edexcel GCSE (9-1) Statistics specification - includes engaging opportunities to work with authentic data - plenty of real-life statistics in every unit to bring the subject to life and highlight important applications - helps students prepare for the new linear exams - includes more

support for exam preparation than ever before.

and Programming

This Student Book has been developed specifically for the Edexcel GCSE (9-1) Design and Technology.

Statistics

This book has been specifically written for the new two-tier Edexcel linear GCSE specification for first examination in 2008 by the highly successful Framework Maths author team. The book is targeted at the B to A* grade range in the Higher tier GCSE, and it comprises units organised clearly into inspiring full-colour spreads. Each unit offers:

- * Prior learning assessed at the start so students are fully prepared for the topic
- * Learning objectives identified so it is clear what students need to know
- * Clear explanations with examples showing the key techniques
- * Plenty of practice with clearly differentiated questions pitched at an appropriate level
- * Summaries and past Edexcel questions to help students gain responsibility for their learning

It forms part of a series of four student books at GCSE, in which the other three books cater for grade ranges G to E, E to C and D to B.

Edexcel GCSE Maths: Foundation

The routine jobs of yesterday are being replaced by technology and/or shipped offshore. In their place, job categories that require knowledge management, abstract reasoning, and personal services seem to be growing. The modern workplace requires workers to have broad cognitive and affective skills. Often referred to as "21st century skills," these skills include being able to solve complex problems, to think critically about tasks, to effectively communicate with people from a variety of different cultures and using a variety of different techniques, to work in collaboration with others, to adapt to rapidly changing environments and conditions for performing tasks, to effectively manage one's work, and to acquire new skills and information on one's own. The National Research Council (NRC) has

convened two prior workshops on the topic of 21st century skills. The first, held in 2007, was designed to examine research on the skills required for the 21st century workplace and the extent to which they are meaningfully different from earlier eras and require corresponding changes in educational experiences. The second workshop, held in 2009, was designed to explore demand for these types of skills, consider intersections between science education reform goals and 21st century skills, examine models of high-quality science instruction that may develop the skills, and consider science teacher readiness for 21st century skills. The third workshop was intended to delve more deeply into the topic of assessment. The goal for this workshop was to capitalize on the prior efforts and explore strategies for assessing the five skills identified earlier. The Committee on the Assessment of 21st Century Skills was asked to organize a workshop that reviewed the assessments and related research for each of the five skills identified at the previous workshops, with special attention to recent developments in technology-enabled assessment of critical thinking and problem-solving skills. In designing the workshop, the committee collapsed the five skills into three broad clusters as shown below: Cognitive skills: nonroutine problem solving, critical thinking, systems thinking Interpersonal skills: complex communication, social skills, teamwork, cultural sensitivity, dealing with diversity Intrapersonal skills: self-management, time management, self-development, self-regulation, adaptability, executive functioning Assessing 21st Century Skills provides an integrated summary of the presentations and discussions from both parts of the third

workshop.

Edexcel GCSE (9-1) Business, Second Edition

A syllabus-specific textbook providing worked examples, exam-level questions and many practice exercises, in accordance to the new Edexcel AS and Advanced GCE specification.

Edexcel GCSE (9-1) Mathematics: Higher Student Book
