401 Questions Every Entrepreneur Should Ask

The Entrepreneur Equation

You've thought about starting your own business . . . but how can you decide if you should really take the leap? There's a lot on the line, and you have to ask yourself difficult questions: Do I have what it takes? Is it worth it? And how the hell do I do it? You need answers, not bullshit. This book has them. *Entrepreneurial Leap: Do You Have What it Takes to Become an Entrepreneur?* is an easy-to-use guide that will help you decide, once and for all, if entrepreneurship is right for you—because success as an entrepreneur depends on far more than just a great idea and a generous helping of luck. In this three-part book, Gino Wickman, bestselling author of *Traction*, reveals the six essential traits that every entrepreneur needs in order to succeed, based on real-world startups that have reached incredible heights. If these traits ring true for you, you'll get a glimpse of what your life would look like as an entrepreneur. What's more, Wickman will help you determine what type of business best suits your unique skill set and provide a detailed roadmap, with tools, tips, and exercises, that will accelerate your path to startup success. Packed with real-life stories and practical advice, *Entrepreneurial Leap* is a simple how-to manual for BIG results. Should you take the leap toward entrepreneurship? Find out today and let tomorrow be the first step in your new journey, whatever shape it may take.

Ageless Startup

Anyone can start a business. But only leaders can succeed. Most entrepreneurs know the long odds: only a fraction of them will lead their enterprises through the rocky stages of growth to launch self-sustaining companies. Very few know how to outflank the failures that await them at every turn, including the most painful—being abandoned by key members of their team or getting pushed out by their board just as their business starts to generate real value. Derek Lidow

is on a mission to improve these odds and change these outcomes. Throughout his long career—as CEO, innovator, and entrepreneur—he has tested virtually every aspect of launching a business. Lidow now argues that success is far less dependent upon a firm's idea or any grand strategy than it is upon something more personal: leadership. Emerging companies have specific leadership requirements, stage by stage, fast-moving stage. Few founders have been able to leverage the tremendous power of this underrecognized reality—until now. *Startup Leadership* demonstrates how founders can adopt the skills that are required at each stage of their journey. Whether you are at the idea stage or managing a more mature enterprise, you can start to recognize the fundamental conflict: how to balance your selfish drives with the more selfless leadership required by the organization at any given time. The book shows you how to achieve this balance by:

- Assessing your unique motivations, traits, and skills
- Creating a personal leadership strategy that leverages your strengths and mitigates your weaknesses
- Mastering how to lead teams, including boards
- Understanding the five prerequisites for driving change
- Taking control of your inevitable crises, thereby strengthening your team and your leadership

With Lidow's help, you will learn how to become the startup leader your business needs, and you'll move forward with your plans with greater confidence and success.

International Entrepreneurship

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

Life Entrepreneurs

Social Entrepreneurship

Where are you in your business journey? Most entrepreneurs are looking for ways to push their companies to grow and get bigger. But they struggle with decisions about how big they want to become, how much money to keep investing in their company, and how to even go about it. They want more, but they're not sure how to think about the problems, obligations, and risk that come with growth. This is the growth dilemma. In *The Growth Dilemma*, Ami Kassir, author and nationally renowned expert on access to capital for entrepreneurs, shows you how to sort through your choices to build your business to the size and complexity that makes the most sense for you. He'll walk you through exercises that help you: • Answer

the crucial million-dollar question • Figure out what entrepreneurial stage you're in
• Determine your personal risk profile • Identify your own growth aspirations
Knowing these parts of your puzzle will not only influence how you think about your growth dilemma but also allow you to discover your financing comfort zone. Through the profiles of fifteen real entrepreneurs and companies, you'll also be able to see, throughout the book, examples of how different financing decisions affect every kind of business. As you apply the strategies you learn, you'll find the financing structure that will help you reach your goals.

Technology Entrepreneurship

Who drives transformation in society? How do they do it? In this compelling book, strategy guru Roger L. Martin and Skoll Foundation President and CEO Sally R. Osberg describe how social entrepreneurs target systems that exist in a stable but unjust equilibrium and transform them into entirely new, superior, and sustainable equilibria. All of these leaders--call them disrupters, visionaries, or changemakers--develop, build, and scale their solutions in ways that bring about the truly revolutionary change that makes the world a fairer and better place. The book begins with a probing and useful theory of social entrepreneurship, moving through history to illuminate what it is, how it works, and the nature of its role in modern society. The authors then set out a framework for understanding how successful social entrepreneurs actually go about producing transformative change. There are four key stages: understanding the world; envisioning a new future; building a model for change; and scaling the solution. With both depth and nuance, Martin and Osberg offer rich examples and personal stories and share lessons and tools invaluable to anyone who aspires to drive positive change, whatever the context. Getting Beyond Better sets forth a bold new framework, demonstrating how and why meaningful change actually happens in the world and providing concrete lessons and a practical model for businesses, policymakers, civil society organizations, and individuals who seek to transform our world for good.

If Owen Chase can't find a way to turn his company around in the next nine days, he'll be forced to shut it down and lay off all of his employees. He has incurred substantial debt and his marriage is on shaky ground. Through pure happenstance, Owen finds himself pondering this problem while advancing steadily as a contestant at the World Series of Poker. His Las Vegas path quickly introduces him to Samantha, a beautiful and mysterious mentor with a revolutionary approach to entrepreneurship. Sam is a fountain of knowledge that may save his company, but her sexual advances might prove too much for Owen's struggling marriage. *All In Startup* is more than just a novel about eschewing temptation and fighting to save a company. It is a lifeline for entrepreneurs who are thinking about launching a new idea or for those who have already started but can't seem to generate the traction they were expecting. Entrepreneurs who achieve success in the new economy do so using a new "scientific method" of innovation. *All In Startup* demonstrates why

four counterintuitive principles separates successful entrepreneurs from the wannapreneurs who bounce from idea to idea, unable to generate real revenue. You will likely get only one opportunity in your life to go "all in" in on an idea: to quit your job, talk your spouse into letting you drain the savings account, and follow your dream. All In Startup will prepare you for that "all in" moment and make sure that you push your chips into the middle only when the odds are in your favor. This book holds the keys to significantly de-risking your idea so that your success appears almost lucky. Join Owen and Sam for this one-of-a-kind journey that will set you on the right path for when it's your turn to put everything on the line.

Making Ideas Happen

Raising Entrepreneurial Capital begins where entrepreneurship books leave off. This book provides a broad, high-level discussion of the financing decisions that companies must make to achieve success. With a focus on classic capital raising, the text covers the debt vs. equity decision, as well as the options available to smaller businesses. It also describes the factors that lead to rapid growth, including venture capital, IPOs, angels, incubators, and much more. Combining solid theory with practitioner's experience and insights, this book should increase student understanding of how to raise entrepreneurial capital. It explains how your company should position itself to attract private equity investment, and what steps you can take to improve your company's marketability. It includes several chapters on worldwide regional variations on forms and availability of pre-seed capital, incubators, and the business plans they create, with case-studies from Europe, Latin America, and the Pacific Rim. It also effectively differentiates between venture capital and entrepreneurial capital. This book will appeal to entrepreneurs and to students in Entrepreneurship programs, particularly entrepreneurial finance courses. * Combines solid theory with practitioner's experience and insights * Case studies illustrate theory throughout the book * Describes worldwide and regional variations in capital raising strategies

The Guru Guide to Entrepreneurship

Today, "social entrepreneurship" describes a host of new initiatives, and often refers to approaches that are breaking from traditional philanthropic and charitable organizational behavior. Nowhere is this more true than in the United States—where, from 1995–2005, the number of non-profit organizations registered with the IRS grew by 53%. But, what types of change have these social entrepreneurial efforts brought to the world of civil society and philanthropy? What works in today's environment? And, what barriers are these new efforts breaking down as they endeavor to make the world a better place? *The Real Problem Solvers* brings together leading entrepreneurs, funders, investors, thinkers, and champions in the field to answer these questions from their own, first-person perspectives. Contributors include marquee figures, such as Nobel Laureate Muhammad Yunus, Ashoka Founder Bill Drayton, Jacqueline Novogratz, Founder of the Acumen Fund, and Sally Osberg, CEO of the Skoll Foundation. The core chapters are anchored by an introduction, a conclusion, and question-and-answers sections that weave together the voices of various contributors. In no other book are so many leaders presented side-by-side. Therefore, this is the ideal accessible and personal introduction for students of and newcomers to social entrepreneurship.

Entrepreneurship: Ideas in Action

Today, there are over 200,000,000 women business owners around the world. Many of these entrepreneurs are not doing business as usual, nor are they simply leaning in. Rather, they are tapping into feminine capital—the unique skills and sensibilities that they have cultivated as women—to create enviable successes. Drawing on four decades of award-winning research, *Feminine Capital* reveals how women are harnessing different approaches to doing business. Barbara Orser and Catherine Elliott detail the pillars of feminine capital and offer new insight into the ways that gender can influence entrepreneurial decision-making. They find that leveraging feminine capital can help women to create distinctive brands, build new markets, and drive profits—all while leveling the playing field in business. In doing so, women are changing our social and economic landscape, one venture at a time. Dispelling myths and misperceptions that can undermine women-owned ventures, this book takes a fresh look at how female entrepreneurs can leverage their skills, knowledge, and values. Case studies of women entrepreneurs bring key concepts and lessons to life, while learning aids, diagnostic tools, and checklists help readers to construct innovative business models, refine start-up plans, and hone growth strategies.

51 Questions on Social Entrepreneurship

"An inspirational and practical guide for anyone who wants to incorporate the dynamic skills of entrepreneurs into their own lives and work. A new generation of "life entrepreneurs" is emerging: people who apply their vision, talents, creativity, and energy not only to their work but to their entire lives, changing the world for themselves and those around them. In this book, successful entrepreneurs Christopher Gergen and Gregg Vanourek draw on numerous interviews with fifty-five leading entrepreneurs worldwide as well as the wisdom of multiple thought leaders to provide vivid examples, moving vignettes, concrete frameworks, and practical strategies for revving up our work and play through entrepreneurial leadership. This book starts by providing strategies for integrating life, work, and purpose and ends by capturing the implications of the current entrepreneurial boom for our workplaces, learning institutions, communities, and families. Christopher Gergen (Washington, D.C.) is a founding partner of New Mountain Ventures, co-founder and chairman of SMARTHINKING, Adjunct Professor and Director of the Entrepreneurial Leadership Initiative at Duke University, and a life-long entrepreneur, Gregg Vanourek (Thornton, CO) is a founding partner of New Mountain Ventures, former CEO of Vanourek Consulting Solutions, and former Senior Vice President of School Development for K12 Inc."

Entrepreneurship With Practical Class XII by Dr. S. K. Singh, Sanjay Gupta

With Dot Complicated: Untangling Our Wired Lives, new media pioneer Randi Zuckerberg offers an entertaining and essential guide to understanding how technology and social media influence and inform our lives online and off. Zuckerberg has been on the frontline of the social media movement since Facebook's early days and her following six years as a marketing executive for the company. Her part memoir, part how-to manual addresses issues of privacy, online presence, networking, etiquette, and the future of social change.

401 Questions Every Entrepreneur Should Ask

How the world's leading innovators push their ideas to fruition again and again Edison famously said that genius is 1 percent inspiration, 99 percent perspiration. Ideas for new businesses, solutions to the world's problems, and artistic breakthroughs are common, but great execution is rare. According to Scott Branson, the capacity to make ideas happen can be developed by anyone willing to develop their organizational habits and leadership capability. That's why he founded Behance, a company that helps creative people and teams across industries develop these skills. Branson has spent six years studying the habits of creative people and teams that are especially productive-the ones who make their ideas happen time and time again. After interviewing hundreds of successful creatives, he has compiled their most powerful-and often counterintuitive-practices, such as:

- Generate ideas in moderation and kill ideas liberally
- Prioritize through nagging

- Encourage fighting within your team While many of us obsess about discovering great new ideas, Belsky shows why it's better to develop the capacity to make ideas happen-a capacity that endures over time.
