Helps educators to design assignments and rigorous rubrics that truly measure student learning objectives The ability of students to pass an examination does not necessarily reflect or guarantee their ability to apply knowledge in practice, nor are traditional exams a sufficient means to evaluate all learning objectives. Written for both new and seasoned nurse educators, this book is unique in its provision of rigorous rubrics that fully take into account learning objectives and the teaching-learning process, and promote objective grading. It examines a variety of time-tested, alternative evaluation methods, discusses how to design them, and includes best practices for using them. The book provides an overview of how evaluation and rubrics play an integral part within the larger nursing education teaching-learning process. It helps educators clearly define learning objectives and desired outcomes, and how to evaluate them. The book describes how to formulate a variety of teaching strategies, design effective assignments, and examine in detail specific evaluation methods including best practices for their use and exemplar analytic scoring rubrics. Also available are detailed, modifiable grading rubric templates for each assignment presented. Evaluation methods covered include papers, presentations, participation, discussion boards, concept maps, case studies, reflective journals, and portfolios. The book will assist both new and seasoned nurse educators in their quest to graduate competent, safe nurses at all levels of nursing education. Key Features: Provides rigorous, modifiable rubrics for learning objective grading Includes time-tested alternative evaluation methods Describes best practices for designing a variety of teaching-learning evaluation tools Includes guidelines for writing clear assignment descriptions Discusses papers, presentations, concept maps, case studies, portfolios, and more

Excerpt from Conference Address One of the most complex and significant social issues facing our nation is reform of our national health system. I am personally

committed, and Goodyear Tire & Rubber is committed, to doing everything we can to help improve that system while simultaneously gaining some measure of control over the tremendous rate of cost escalation. I feel very strongly that in the months ahead, business leaders must become actively involved in a concerted effort to strike a balance between our desire to assure the best medical care for all and the reality of doing so at a cost our society can afford. For the past two years I have been chairman of the Business Roundtable's Task Force on Health and in that capacity have been working closely with the Washington Business Group on Health. Through this exposure and the encouraging results of Goodyear's own cost containment activities, I was asked to serve on HEW Secretary Califano's Advisory Committee on National Health Insurance. This committee, representing a broad spectrum of interests and expertise, will be meeting in cities across the country and will hold hearings in Washington before entering into final discussions with HEW and other administration officials. The result of its work is to be combined with that of the HEW staff in formulating the basis of President Carter's national health insurance proposal.
