Cirque Du Freak #9: Killers of the Dawn

Animal therapist Olivia Gordon and the Krewe of Hunters investigate mysterious deaths at a historic horse ranch facility. Original.

Hunger

Beyond our world lies a land where darkness reigns--the land of the virile, sensual Shadowdwellers. Yet their mysterious abilities are no match for the power of desire. . . Double Your Pleasure. . . Discipline. Penance. Order. A Sanctuary priest's life revolves around such things. But when Sagan is taken captive and thrust into the Alaskan wilderness, he encounters a woman who challenges his faith and his self-control. Valera is a natural born witch who almost lost herself to the lure of dark magic. By rights, Sagan should shun her, but convention will count for nothing in the face of a passion that could change the world of the Shadowdwellers forever. . . As Chancellor of the Shadowdwellers, Malaya's first duty is to her people. Her bodyguard, Guin, knows this only too well. For tradition's sake, Malaya must marry, and the thought of this lush, vibrant, woman in a loveless union is impossible for him to bear. Guin loves Malaya--not as a subject loves his queen but as a man craves a woman. And even if he cannot keep her, he'll show her everything she stands to lose. . .

Forever

In a hidden desert lab compound, unwilling subjects are held for experimentation with an unthinkable goal—the genetic mutation of human beings . . . All Amara knows is that the complete lack of freedom, the endless experiments and personal indignities have tested the limits of her sanity. But nothing prepares her for being locked away—naked—with a sexy ex-cop . . . The department shrink always told Nick Gregory he had a hero complex that was going to get him killed one day, or worse. This is definitely worse. Even drugged so that his most basic animal instincts are uncontrollable, he is driven to protect the beautiful female with whom he's supposed to mate. One way or another, he will escape this hell . . . and take her with him. "Jacquelyn Frank is a fresh new voice, a stunning new talent. I look forward to the next book." —Sherrilyn Kenyon "Jacquelyn Frank knows how to write

an intense, rip-roaring good read!" —Cathy Maxwell

The Nightwalkers have lived in the shadows of our world for centuries, gifted with abilities few humans can comprehend. For Noah, duty is all--until he meets the woman who is his destiny. . . She Will Take Him Beyond His Wildest Dreams. As Demon King, Noah is dedicated to protecting his kind from their human and Nightwalker enemies. Yet for six months he has struggled with vivid dreams that threaten his very sanity. Every night he's tormented by images of a woman both achingly real and tantalizingly beyond his grasp. And his bone-deep need leaves him no choice but to force her to leave the life she's known and enter a world beyond her imagining. . . Every day, Kestra risks her life in perilous missions that veer just shy of the law, but she instinctively knows that the imposingly sensual figure before her is a danger unlike any she's ever faced. Kestra has sworn never to trust or need another man, but Noah's lightest touch scorches her with fevered desire, branding her as his mate, blinding them both to the terrifying truth. For within the ranks of their own people lies an adversary growing in number and power. And nothing and no one will be safe again. . . Desire awakens at night. . .

Slavery in the South has been documented in volumes ranging from exhaustive histories to bestselling novels. But the North's profit from--indeed, dependence on--slavery has mostly been a shameful and well-kept secret . . . until now. In this startling and superbly researched new book, three veteran New England journalists demythologize the region of America known for tolerance and liberation, revealing a place where thousands of people were held in bondage and slavery was both an economic dynamo and a necessary way of life. Complicity reveals the cruel truth about the Triangle Trade of molasses, rum, and slaves that lucratively linked the North to the West Indies and Africa; discloses the reality of Northern empires built on profits from rum, cotton, and ivory--and run, in some cases, by abolitionists; and exposes the thousand-acre plantations that existed in towns such as Salem, Connecticut. Here, too, are eye-opening accounts of the individuals who profited directly from slavery far from the Mason-Dixon line--including Nathaniel Gordon of Maine, the only slave trader sentenced to die in the United States, who even as an

inmate of New York's infamous Tombs prison was supported by a shockingly large percentage of the city; Patty Cannon, whose brutal gang kidnapped free blacks from Northern states and sold them into slavery; and the Philadelphia doctor Samuel Morton, eminent in the nineteenth-century field of "race science," which purported to prove the inferiority of African-born black people. Culled from long-ignored documents and reports—and bolstered by rarely seen photos, publications, maps, and period drawings—*Complicity* is a fascinating and sobering work that actually does what so many books pretend to do: shed light on America's past. Expanded from the celebrated Hartford Courant special report that the Connecticut Department of Education sent to every middle school and high school in the state (the original work is required readings in many college classrooms,) this new book is sure to become a must-read reference everywhere.

Are you too busy? Are you always running behind? Is your calendar loaded with more than you can possibly accomplish? Is it driving you crazy? You're not alone. CrazyBusy--the modern phenomenon of brain overload--is a national epidemic. Without intending it or understanding how it happened, we've plunged ourselves into a mad rush of activity, expecting our brains to keep track of more than they comfortably or effectively can. In fact, as Attention Deficit Disorder expert and bestselling author Edward M. Hallowell, M.D., argues in this groundbreaking new book, this brain overload has reached the point where our entire society is suffering from culturally induced ADD. CrazyBusy is not just a by-product of high-speed, globalized modern life--it has become its defining feature. BlackBerryes, cell phones, and e-mail 24/7. Longer work days, escalating demands, and higher expectations at home. It all adds up to a state of constant frenzy that is sapping us of creativity, humanity, mental well-being, and the ability to focus on what truly matters. But as Dr. Hallowell argues, being crazybusy can also be an opportunity. Just as ADD can, if properly managed, become a source of ingenuity and inspiration, so the impulse to be busy can be turned to our advantage once we get in touch with our needs and take charge of how we really want to spend our time.

Through quick exercises (perfect for busy people), focused advice on everything from lifestyle to time management, and examples chosen from his extensive clinical experience, Hallowell goes step-by-step through the process of unsnarling frantic lives. With *CrazyBusy*, we can teach ourselves to move from the F-state—frenzied, flailing, fearful, forgetful, furious—to the C-state—cool, calm, clear, consistent, curious, courteous. Dr. Hallowell has helped more than a million readers free themselves of the distractions and compulsions of ADD. Now in *CrazyBusy*, he offers the same sound, sane, and accessible guidance for anyone suffering from the harried pace of modern life. If you find yourself pulled into a million different directions, here at last is the opportunity to stop being busy, start being happy, and still get things done.
