### Through the Eye of a Needle

Singled out by Foreign Affairs for its reporting on “the brutal frontiers of new Europe,” Fortress Europe is the story of how the world’s most affluent region—and history’s greatest experiment with globalization—has become an immigration war zone, where tens of thousands have died in a humanitarian crisis that has galvanized the world’s attention. Journalist Matthew Carr brings to life remarkable human dramas, based on extensive interviews and firsthand reporting from the hot zones of Europe’s immigration battles, in a narrative that moves from the desperate immigrant camps at the mouth of the Channel Tunnel in Calais, France, to the chaotic Mediterranean sea, where African migrants have drowned by the thousands. Speaking with key European policy makers, police, soldiers on the front lines, immigrant rights activists, and an astonishing range of migrants themselves, Carr offers a lucid account both of the broad issues at stake in the crisis and its exorbitant human costs. The paperback edition includes a new afterword by the author, which offers an up-to-the-minute assessment of the 2015 crisis and a searing critique of Europe’s response to the new waves of refugees.

Because this isn't just a battle to stop the end of the world. It's a battle to stop the end of reality as we know it. No pressure.

## **The Lost Symbol**

"Stunning, speculative novel, equal parts entertaining and moving, and one of the first books I've encountered with truly autonomous female characters." --Angela Meyer, author and editor Jonathon Bridge has a corner office in a top-tier law firm, tailored suits and an impeccable pedigree. He has a fascinating wife, Adalia, a child on the way, and a string of pretty young interns as lovers on the side. He's a man who's going places. His world is our world: the same chaos and sprawl, haves and have-nots, men and women, skyscrapers and billboards. But it also exists alongside a vast, self-sustaining city-state called The Fortress where the indigenous inhabitants--the Vaik, a society run and populated exclusively by women--live in isolation. When Adalia discovers his indiscretions and the ugly sexual violence pervading his firm, she agrees to continue their fractured marriage only on the condition that Jonathan voluntarily offers himself to The Fortress as a supplicant and stay there for a year. Jonathon's arrival at The Fortress begins with a recitation of the conditions of his stay: He is forbidden to ask questions, to raise his hand in anger, and to refuse sex. Jonathon is utterly unprepared for what will happen to him over the course of the year--not only to his body, but to his mind and his heart. This absorbing, confronting and moving novel asks questions about consent, power, love and fulfilment. It asks what it takes for a man to change, and whether change is possible without a radical reversal of the conditions that seem normal.

## **Fortress of Owls**

The Democracy is at war with the alien Traanskei Coalition. War hero Colonel Nathan Pretorius has a record of success on dangerous behind-enemy-lines missions, missions that usually leave him in the hospital. Now he's recruited for a near-impossible assignment that may well leave him dead. At the cost of many lives, the Democracy has managed to clone and

train General Michkag, one of the Traanskei's master strategists. Colonel Pretorius and a hand-picked team must kidnap the real Michkag if they can, assassinate him if they can't, but no matter which, put the clone in his place, where he will misdirect the enemy's forces and funnel vital information to the Democracy. Against the odds, Pretorius, along with Cyborg Felix Ortega, computer expert Toni Levi, convict and contortionist Sally "Snake" Kowalski, the near-human empath Marlowe, the alien Gzychurlyx, and Madam Methuselah - the Dead Enders - must infiltrate the Fortress in Orion, accomplish their mission, and escape with their lives.

### **The Fortress**

Akeela, King of Liiria, was a young and idealistic scholar who was determined to bring peace to his kingdom—a land that had been plagued by war with the neighboring kingdom of Reec for decades. Lukien, the Bronze Knight of Liiria, had been taken in by the royal family when, at fourteen, he saved Akeela's life, but he'd never forgotten the brutal lessons of the streets he'd grown up on. A bond of loyalty stronger than blood linked these two men—but no two souls could be more different. And as Akeela and Lukien entered their enemy's stronghold on a mission of peace, neither man could foresee the turmoil this historic mission would wreak on their lives. For, to seal the peace, King Karis of Reec would bestow upon Akeela the hand of his charming, beautiful, and accomplished daughter Cassandra. But Cassandra hid a terrible secret. She was experiencing the first symptoms of a disease which would threaten her life and cause unimaginable strife for all who loved her. For Akeela and Lukien, the quest for Cassandra's salvation would overwhelm every bond of loyalty, every point of honor, every dream of peace. For only the magical amulets known as the Eyes of God could halt the progress of Cassandra's illness. But the Eyes of God would also open the way to a magical stronghold which could tear their world apart and redefine the very nature of their reality.

### **The Glass Castle**

It started long ago, in a tower at the Eye of Time, as a war between the shadowy Immortals who came before our kind. That war persists today, as the wizard Mauryl's Shaping confronts the Shadows that Hasufin summoned from Chaos against the Siddhe lords. Tristen is that Shaping, a halfling creature of Fire and Shadow. Both more and less than human, he turned back sorcery's tides in the legend-heavy battle of Lewenbrook. Tristen's victory brought his friend Cefwyn the burden of a Kingdom, Ylesuin, and the light of a love that would outlast the ages--Ninevrise, with her gift of prophecy. But the Lines that hold the world in place are shifting once again. The lightning-sheeted sky is aflame with sorcery's terror and magic's promise. Tasmorden has raised an army of rebels, and planted betrayers in Cefwyn's Dragon Guard. Once again, Cefwyn's peril is Tristen's call to arms. Astride black-maned Dys, with the eyes of Owl and the counsel of Auld Syes, with the friendship of Crissand and the loyalty of Uwen, Tristen takes up his sword inscribed with "Truth" and "Illusion" back-to-back

on its blade. But the day will not be won by iron edges. Even Tristen's double-edged sword cannot cut through the knot of this new challenge. For Tristen is facing more than a pretender to Cefwyn's throne. The Shadows he sees are not from the overwhelmed sun, but straight from Ruin--a flow of darkness covering the world like ink. If sorcery is wizardry gone askew, what is magic's dark side? A wind, as nameless as the abyss from which it rises and as cold as the knowledge of Tristen's true origin. Fortress of Dragons completes the soaring tale of two friends, sovereign and sorcerer, begun in Fortress in the Eye of Time and continued in Fortress of Eagles and Fortress of Owls. This awesome high fantasy epic from the acclaimed, awardwinning author is set in a world tangled with magic, dark with violence, and filled with wonder and awe--a world as vividly real as our own.

### **Noodleheads Fortress of Doom**

An award-winning historian argues that America's obsession with security imperils our democracy in this "compelling" portrait of cultural anxiety (Mary L. Dudziak, author of War Time). For the last sixty years, fear has seeped into every area of American life: Americans own more guns than citizens of any other country, sequester themselves in gated communities, and retreat from public spaces. And yet, crime rates have plummeted, making life in America safer than ever. Why, then, are Americans so afraid-and where does this fear lead to? In this remarkable work of social history, Elaine Tyler May demonstrates how our obsession with security has made citizens fear each other and distrust the government, making America less safe and less democratic. Fortress America charts the rise of a muscular national culture, undercutting the common good. Instead of a thriving democracy of engaged citizens, we have become a paranoid, bunkered, militarized, and divided vigilante nation.

## **The Moon Dragon (The Secrets of Droon #26)**

SHORTLISTED FOR THE BRITISH ARMY MILITARY BOOK OF THE YEAR AWARD 2020 A BBC HISTORY MAGAZINE BOOK OF THE YEAR 2019 'The vividly written and well-researched The Fortress is a masterpiece. It deserves to become a classic of military history.' - Lawrence James, The Times 'Marvellous Watson's splendid book combines great evocative power (and flashes of sharp humour) with the ethical authority of the best history writing.' - Christopher Clark, The Guardian From the prize-winning author of Ring of Steel, a gripping history of the First World War's longest and most terrible siege In the autumn of 1914 Europe was at war. The battling powers had already suffered casualties on a scale previously unimaginable. On both the Western and Eastern fronts elaborate war plans lay in ruins and had been discarded in favour of desperate improvisation. In the West this resulted in the remorseless world of the trenches; in the East all eyes were focused on the old, beleaguered Austro-Hungarian fortress of Przemysl. The siege that unfolded at Przemysl was the longest of the whole war. In the defence of the fortress and the struggle to relieve it Austria-Hungary suffered some 800,000 casualties. Almost unknown in the West, this was one of the great turning points of the conflict. If the Russians had broken through they could have invaded Central Europe, but by the time the fortress fell their strength was so sapped they could go no further. Alexander Watson, prize-winning author of Ring of Steel, has written one of the great epics of the First World War. Comparable to Stalingrad in 1942-3, Przemysl shaped the course of Europe's future. Neither Russians nor Austro-Hungarians ever recovered militarily from their disasters. Using a huge range of sources, Watson brilliantly recreates a world of long-gone empires, broken armies and a cut-off community sliding into chaos. The siege was central to the war itself, but also a chilling harbinger of what would engulf the entire region in the coming decades, as nationalism, anti-semitism and an exterminatory fury took hold.

## **Red Fortress**

A magisterial, richly detailed history of the Kremlin, and of the centuries of Russian elites who have shaped it—and been shaped by it in turn The Moscow Kremlin is the heart of the Russian state, a fortress whose blood-red walls have witnessed more than eight hundred years of political drama and extraordinary violence. It has been the seat of a priestly monarchy, a worldly church and the Soviet Union; it has served as a crossroads for diplomacy, trade, and espionage; it has survived earthquakes, devastating fires, and at least three revolutions. Its very name is a byword for enduring power. From Ivan the Terrible to Vladimir Putin, generations of Russian leaders have sought to use the Kremlin to legitimize their vision of statehood. Drawing on a dazzling array of sources from hitherto unseen archives and rare collections, renowned historian

Catherine Merridale traces the full history of this enigmatic fortress. The Kremlin has inspired innumerable myths, but no invented tales could be more dramatic than the operatic successions and savage betrayals that took place within its vast compound of palaces and cathedrals. Today, its sumptuous golden crosses and huge electric red stars blaze side by side as the Kremlin fulfills its centuries-old role, linking the country's recent history to its distant past and proclaiming the eternal continuity of the Russian state. More than an absorbing history of Russia's most famous landmark, Red Fortress uses the Kremlin as a unique lens, bringing into focus the evolution of Russia's culture and the meaning of its politics.

Insights from Reading the Bible with the Poor provides a spirited introduction to methodologies and strategies for reading the Bible "from below"--from the back of what used to be church sanctuaries, from basements, from sidewalks. Drawing on the lineage of various methods of reading the Bible with the poor, the book invites poverty and biblical study into dialogue with real-world organizing to seek justice for those most often treated as "Other." The reading process occurs among the intersections of the "hermeneutical triangle" of Reality, the Bible, and Community. This book is for anyone curious about how to use the Bible as a resource for liberation. It is for faith leaders and community organizers, as much as it is for biblical scholars, because it draws on experiences at the intersections of academia, the Church and communities of organized struggle. It is written with an eye toward praxis, as the author shares from her own experience with the hope that space will be created for others to reflect on their own contexts.

### **Fortress of Owls**

A sweeping intellectual history of the role of wealth in the church in the last days of the Roman Empire Jesus taught his followers that it is easier for a camel to go through the eye of a needle than for a rich man to enter heaven. Yet by the fall of Rome, the church was becoming rich beyond measure. Through the Eye of a Needle is a sweeping intellectual and social history of the vexing problem of wealth in Christianity in the waning days of the Roman Empire, written by the world's foremost scholar of late antiquity. Peter Brown examines the rise of the church through the lens of money and the challenges it posed to an institution that espoused the virtue of poverty and called avarice the root of all evil. Drawing on the writings of major Christian thinkers such as Augustine, Ambrose, and Jerome, Brown examines the controversies and changing attitudes toward money caused by the influx of new wealth into church coffers, and describes the spectacular acts of divestment by rich donors and their growing influence in an empire beset with crisis. He shows how the use of wealth for the care of the poor competed with older forms of philanthropy deeply rooted in the Roman world, and sheds light on the ordinary people who gave away their money in hopes of treasure in heaven. Through the Eye of a Needle challenges the widely held notion that Christianity's growing wealth sapped Rome of its ability to resist the barbarian invasions, and offers a fresh perspective on the social history of the church in late antiquity.

### **Fortress Iron Eyes**

The fascinating history and unnerving future of high-tech aerial surveillance, from its secret military origins to its growing use on American citizens Eyes in the Sky is the authoritative account of how the Pentagon secretly developed a godlike surveillance system for monitoring America's enemies overseas, and how it is now being used to watch us in our own backyards. Whereas a regular aerial camera can only capture a small patch of ground at any given time, this system—and its most powerful iteration, Gorgon Stare—allow operators to track thousands of moving targets at once, both forwards and backwards in time, across whole city-sized areas. When fused with big-data analysis techniques, this network can be used to watch everything simultaneously, and perhaps even predict attacks before they happen. In battle, Gorgon Stare and other systems like it have saved countless lives, but when this technology is deployed over American cities—as it already has been, extensively and largely in secret—it has the potential to become the most nightmarishly powerful visual surveillance system ever built. While it may well solve serious crimes and even help ease the traffic along your morning commute, it could also enable far more sinister and dangerous intrusions into our lives. This is closed-circuit television on steroids. Facebook in the heavens. Drawing on extensive access within the Pentagon and in the companies and government labs that developed these devices, Eyes in the Sky reveals how a top-secret team of mad scientists brought Gorgon Stare into existence, how it has come to pose an unprecedented threat to our privacy and freedom, and how we might still capitalize on its great promise while avoiding its many perils.
