For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Glutton, demon of destruction, symbol of slaughter, mightiest of wilderness villains... The wolverine comes marked with a reputation based on myth and fancy. Yet this enigmatic animal is more complex than the

legends that surround it. With a shrinking wilderness and global warming, the future of the wolverine is uncertain. The Wolverine Way reveals the natural history of this species and the forces that threaten its future, engagingly told by Douglas Chadwick, who volunteered with the Glacier Wolverine Project. This five-year study in Glacier National Park – which involved dealing with blizzards, grizzlies, sheer mountain walls, and other daily challenges to survival – uncovered key missing information about the wolverine’s habitat, social structure and reproduction habits. Wolverines, according to Chadwick, are the land equivalent of polar bears in regard to the impacts of global warming. The plight of wolverines adds to the call for wildlife corridors that connect existing habitat that is proposed by the Freedom to Roam coalition.

The first collection of poems translated into English from the forbidden volume of the Divan of Rumi •

Presents Rumi's most heretical and free-form poems • Includes introductions and commentary that provide both 13th-century context and modern interpretation

After his overwhelming and life-altering encounters with Shams of Tabriz, Rumi, the great thirteenth-century mystic, poet, and originator of the whirling dervishes, let go of many of the precepts of formal religion, insisting that only a complete personal dissolving into the larger energies of God could provide the satisfaction that the heart so desperately seeks. He began to speak spontaneously in the language of poetry, and his followers compiled his 44,000 verses into 23 volumes, collectively called the Divan. When Nevit Ergin decided to translate the Divan of Rumi into English, he enlisted the help of the Turkish government, which was happy to participate. The first 22 volumes were published without difficulty, but the government withdrew its support and refused to participate in the publication of the final volume due to its openly heretical nature. Now, in *The Forbidden Rumi*, Will Johnson and Nevit Ergin present for the first time in English Rumi's poems from this forbidden volume. The collection is grouped into three sections: songs to Shams and God, songs of heresy, and songs of advice and admonition. In them Rumi explains that in order to transform our consciousness, we must let go of ingrained habits and embrace new ones. In short, we must become heretics.

FM rock deejay and private investigator Rick Shannon is back in a big way in the second novel of a series that began with the rollicking Radio Activity. Highway 61 Resurfaced kicks off when a woman named Lollie Woolfolk sashays into the offices of Rockin' Vestigations and says she wants to find her long lost granddaddy, blues producer Tucker Woolfolk. Before it's over, Rick Shannon has crisscrossed the sweltering Mississippi Delta in search of the thread that connects a dead man in Yazoo City found with a fork stuck in his back to an old man known as Pigfoot Morgan who was just released from Mississippi State Penitentiary after serving fifty years for murder. Further complicating matters is the lovesick Crail Pitts, onetime Ole Miss football star who is driving around the Magnolia State with a noisy lawyer in his

trunk, and Cuffie LeFleur, one of four generations of a cotton dynasty that may be on its last legs. In the end, everything points to one of the great mysteries in blues lore: whether Blind Buddy Cotton, Crippled Willie Jefferson, and Crazy Earl Tate ever recorded together. When Rick starts a rumor that he's found the tapes from the legendary Blind, Crippled, and Crazy sessions, a killer is sent to collect them and Rick starts singing the PI blues.

American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking,

tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instil this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.
