When one defines "order" as a sorting of priorities, it becomes beautifully clear as to what Foucault is doing here. With virtuoso showmanship, he weaves an intensely complex history of thought. He dips into literature, art, economics and even biology in *The Order of Things*, possibly one of the most significant, yet most overlooked, works of the twentieth century. Eclipsed by his later work on power and discourse, nonetheless it was *The Order of Things* that established Foucault's reputation as an intellectual giant. Pirouetting around the outer edge of language, Foucault unsettles the surface of literary writing. In describing the limitations of our usual taxonomies, he opens the door onto a whole new system of thought, one ripe with what he calls "exotic charm". Intellectual pyrotechnics from the master of critical thinking, this book is crucial reading for those who wish to gain insight into that odd beast called Postmodernism, and a must for any fan of Foucault.

"The Doctrine of Fascism" ("La dottrina del fascismo") is an essay written by Giovanni Gentile, but credit is given to Benito Mussolini. It was first published in the Enciclopedia Italiana of 1932, as the first section of a lengthy entry on "Fascismo" (Fascism). The entire entry on Fascism spans pages 847-884 of the Enciclopedia Italiana, and includes numerous photographs and graphic images. The Mussolini essay leads off the entry: FASCISMO - Movimento politico italiano creato da Benito Mussolini (v.). DOTTRINA Idee Fondamentali. (the first section of the essay) A second section of the essay is titled: "Dottrina Politica e sociale." The Mussolini entry starts on page 847 and ends on 851 with the credit line "Benito Mussolini." All subsequent translations of "The Doctrine of Fascism" are from this work. A key concept of the Mussolini essay was that fascism was a rejection of previous models: "Granted that the 19th century was the century of socialism, liberalism, democracy, this does not mean that the 20th century must also be the century of socialism, liberalism, democracy.
