### **Financial Management: Theory & Practice**

Ever since the First Edition, Economics: Principles and Policy was predicated on the view that practical issues and developments in the economy should influence the content of an introductory economics course. This book contains its share of theoretical material. But the theory is not merely an exercise in making students miserable; it is driven by issues that are real and current. And every discussion of theory is related to applications, so as to offer students a continuing sense of the relevance of the material to reality. - Publisher.
