Report

The Annual Report of Saskatchewan Education, Training and Employment for the Period

This report from the Education Committee looks at the administration of examinations for 15-19 year olds in England. The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content. Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated. The Committee considers a number of options to change incentives, including: (i) A single board. This offers a simpler system, with no risk of competition, but the Committee believes the cost, risk and disruption outweigh the benefits; (ii) Franchising of subjects to exam boards. This removes syllabus competition, but again has downsides; (3) Or the current system of multiple boards. The Committee sees no benefit in competition on syllabus content, but the setting and marking of exams and associated administration, if properly regulated, could generate incentives and drive quality up, offering value for money to schools and colleges. The Committee also recommends the development of national syllabuses, accredited by Ofqual. The syllabuses would be developed by exam boards in conjunction with learned bodies

and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate.

Introduction to Differential Equations

Information on the educational systems of Israel and the Occupied Territories (West Bank and the Gaza Strip) and guidelines on placing students from this region in U.S. high schools and colleges are presented. After describing the country and territories, attention is directed to preschool, primary, and intermediate education; secondary education; teacher training and the education profession; nursing and other health professions; overseas student programs in Israel; technological education; higher education; and the United Nations Relief and Works Agency for Palestine Refugees in the Near East. Profiles of technical and higher education institutions in Israel and the Occupied Territories cover degrees/diplomas, admission requirements, college programs, and school characteristics. General information on Israeli higher education includes: college organization and administration, the grading and credit systems, examinations, and degree programs. Guidelines for admissions officers focus on the admissibility and appropriate level of placement of students from Israel and the territories in U.S. schools. A glossary and list of postsecondary technological/vocational schools are appended. (SW)

Nation by Nation.com, a service of MultiEducator, Inc., presents basic facts about Papua New Guinea. These facts cover such topics as the geography, government, and history of the country.

Annual Report of the Department of Education of the Province of Alberta

The Educational year book. [5 issues].

Arab Republic of Egypt

The educational system of Egypt is described, and guidelines are given for the placement of Egyptian students in U.S. colleges and universities. The following chapters are provided: (1) Introduction (history of education, administration, and finance); (2) Basic and Secondary Education (including standard and Al-Azhar schools, technical education and training of primary teachers); (3) University Education (history, administration, faculty, admissions, courses of study, grading, and graduate programs); (4) Other Postsecondary Education (intermediate and higher institutes and other institutions); and (5) Guidelines and Placement Recommendations (selectivity, catalogs, spelling, America & Mideast Education and Training Services Inc., Supreme Council of Universities, Cultural and Education Bureau, and placement recommendations). Appendices provide sample documents for basic and secondary education, undergraduate credentials, graduate credentials, nonuniversity postsecondary institutions, and a list of Egyptian National University Faculties and Institutes, 1984-85. A glossary and index are also provided. Contains 10 references. (KM)
