Country Report

A brilliant look at colonialism and its effects in Antigua--by the author of Annie John "If you go to Antigua as a tourist, this is what you will see. If you come by aeroplane, you will land at the V. C. Bird International Airport. Vere Cornwall (V. C.) Bird is the Prime Minister of Antigua. You may be the sort of tourist who would wonder why a Prime Minister would want an airport named after him--why not a school, why not a hospital, why not some great public monument. You are a tourist and you have not yet seen . . ." So begins Jamaica Kincaid's expansive essay, which shows us what we have not yet seen of the ten-by-twelve-mile island in the British West Indies where she grew up. Lyrical, sardonic, and forthright by turns, in a Swiftian mode, A Small Place cannot help but amplify our vision of one small place and all that it signifies.

Africa Research Bulletin

Mergent s Handbook of Common Stocks Summer 2006 offers quick and easy access to key financial statistics on approximately 900 New York Stock Exchange listed issues. This handbook, updated quarterly, presents market data, performance ratios, stock prices, and dividend information as well as recent quarterly results and future prospects in succinct one-page profiles. Filled with the latest available facts and figures, Mergent s Handbook of Common Stocks can help readers make the most informed investment decisions possible.

Research Methods for Leisure, Recreation and Tourism, 2nd Edition

The authoritative biography of Michael Bloomberg: business genius, inventor, innovator, publisher, philanthropist, activist, and presidential candidate. With unprecedented access, a veteran New York Times reporter and editorial writer who covered New York City and state politics offers a revealing portrait of one of the richest and famously private/public figures in the country. Michael Bloomberg's life sounds like an exaggerated version of The American Story, except his adventures are real. From modest Jewish middle class (and Eagle Scout) to Harvard MBA to Salomon Brothers hot shot (where he gets "sent upstairs" and later fired) to creator of the machine that would change Wall Street and the rest of the world and make him a billionaire (a description by the author makes the invention clear to non-engineers). Randolph's account of Bloomberg's life and time reads almost like a novel, a quintessentially American story. She explains the "machine" he invented that gave and continues to give instant access to an infinite amount of information to bankers and investors on how, what, and where to invest, and how it changed the financial universe. Randolph recounts one day not long ago when the Bloomberg machine briefly blipped and the whole world's financial marketplace came to a halt. Randolph recounts Mayor Bloomberg's vigorous approach to New York city's care—including his attempts at education reform, contract control, anti-smoking and anti-obesity campaigns, green climate control, and his political adventures with both aides and opponents. After a surprising third term as Mayor, Bloomberg returned to his business and doubles its already tremendous worth. The chapter that describes this is one of the most revealing of his temperament and energy and vision as well as how he spends his "private" time—private but convivial. Bloomberg's philanthropies are education, anti-NRA, and supporting a cleaner environment. He is a moderate liberal in a time when that quality holds the future of the Democratic Party and the country to account.

Departmental Paper

Tourism Impacts, Planning and Management is a unique text, which links these three key areas of tourism: impacts,

planning and management. Tourism impacts are multi-faceted and therefore are difficult to plan for and manage. This book looks at all the key players involved - be they tourists, host communities or industry members - and considers a number of approaches and techniques for managing tourism successfully. Divided into four parts, this text discusses: * The growth, development and impacts of tourism * Tourism planning and management: concepts, issues and key players * Tools and techniques in tourism planning and management: education, regulation and information technology * The future of tourism planning and management: issues of sustainability and the future Up-to-date, international case studies are used, for example the impacts of 9/11 and terrorism in Bali, to illustrate and provide a real-life context for the theories discussed. Exercises are also included to consolidate learning.

The Many Lives of Michael Bloomberg

The aim of Co-operation and Partnerships in Tourism: A Global Perspective is to provide inspiration and guidance on how to build, implement, and further develop partnerships--focusing on strategic and operational issues in partnering and lessons learned from past partnering experiences. By examining cases from all regions of the world and from several different areas in tourism, this study provides insight that can be applied beyond the specific cultural and economic contexts of each case. As tourism is increasingly becoming a sector successfully built on cooperation and partnerships, this study is a valuable resource for anyone interested in Public-Private Sector Cooperation.

Predicasts F & S Index

A Small Place

Combining perspectives from discourse analysis and sociolinguistics, this introduction provides students with a comprehensive, up-to-date and critical overview of the field of intercultural communication. Ingrid Piller explains communication in context using two main approaches. The first treats cultural identity, difference and similarity as discursive constructions. The second, informed by bilingualism studies, highlights the use and prestige of different languages and language varieties as well as the varying access that speakers have to them. Linguistics students will find this book a useful tool for studying language and globalization as well as applied linguistics.

Describing the fundamental elements of research methods for leisure, recreation and tourism, this new edition of a popular textbook is updated throughout. It covers the measurement of variables, sampling, questionnaire design and evaluation methods, and also a wider discussion of writing proposals, communicating research findings, cross-cultural research, and the use of new technologies in conducting research. Written by internationally renowned researchers in an accessible style, this book introduces both undergraduate and graduate students to the vital skills they will need to succeed in the leisure, recreation, tourism and hospitality industries.

Resources in education

Special edition slipcase edition of John Green's Paper Towns, with pop-up paper town. From the bestselling author of The Fault in our Stars. Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one day climbs through his window and summons him on an all-night road trip

of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious coming-of-age story.
