The Histories

AS SEEN ON BBC'S WINTERWATCH WITH CHRIS PACKHAM AND MICHAELA STRACHAN 'The finest book ever written on nature and landscape in Britain' Guardian In this masterpiece of nature writing, Nan Shepherd describes her journeys into the Cairngorm mountains of Scotland. There she encounters a world that can be breathtakingly beautiful at times and shockingly harsh at others. Her intense, poetic prose explores and records the rocks, rivers, creatures and hidden aspects of this remarkable landscape. Shepherd spent a lifetime in search of the 'essential nature' of the Cairngorms; her quest led her to write this classic meditation on the magnificence of mountains, and on our imaginative relationship with the wild world around us. Composed during the Second World War, the manuscript of The Living Mountain lay untouched for more than thirty years before it was finally published.

Ancient Civilizations Through the Renaissance

'An epic treasure hunt into the highways and byways of stored knowledge across faiths and continents.' John Agard, poet and playwright In The Map of Knowledge Violet Moller traces the journey taken by the ideas of three of the greatest scientists of antiquity - Euclid, Galen and Ptolemy - through seven cities and over a thousand years. In it, we follow them from sixth-century Alexandria to ninth-century Baghdad, from Muslim Cordoba to Catholic Toledo, from Salerno's medieval medical school to Palermo, capital of Sicily's vibrant mix of cultures, and - finally - to Venice, where that great merchant city's printing presses would enable Euclid's geometry, Ptolemy's system of the stars and Galen's vast body of writings on medicine to spread even more widely. In tracing these fragile strands of knowledge from century to century, from east to west and north to south, Moller also reveals the web of connections between the Islamic world and Christendom, connections that would both preserve and transform astronomy, mathematics and

medicine from the early Middle Ages to the Renaissance. Vividly told and with a dazzling cast of characters, *The Map of Knowledge* is an evocative, nuanced and vibrant account of our common intellectual heritage.

The exciting field of biblical archaeology has revolutionized our understanding of the Bible -- and no one has done more to popularise this vast store of knowledge than Israel Finkelstein and Neil Silberman, who revealed what we now know about when and why the Bible was first written in *The Bible Unearthed*. Now, with David and Solomon, they do nothing less than help us to understand the sacred kings and founding fathers of western civilization. David and his son Solomon are famous in the Bible for their warrior prowess, legendary loves, wisdom, poetry, conquests, and ambitious building programmes. Yet thanks to archaeology's astonishing finds, we now know that most of these stories are myths. Finkelstein and Silberman show us that the historical David was a bandit leader in a tiny back-water called Jerusalem, and how -- through wars, conquests and epic tragedies like the exile of the Jews in the centuries before Christ and the later Roman conquest -- David and his successor were reshaped into mighty kings and even messiahs, symbols of hope to Jews and Christians alike in times of strife and despair and models for the great kings of Europe. A landmark work of research and lucid scholarship by two brilliant luminaries, David and Solomon recasts the very genesis of western history in a whole new light.

History Alive!

A New York Times Notable Book of 2018 "Searingly passionate...Nixey writes up a

storm. Each sentence is rich, textured, evocative, felt...[A] ballista-bolt of a book.”
—New York Times Book Review In Harran, the locals refused to convert. They were dismembered, their limbs hung along the town’s main street. In Alexandria, zealots pulled the elderly philosopher-mathematician Hypatia from her chariot and flayed her to death with shards of broken pottery. Not long before, their fellow Christians had invaded the city’s greatest temple and razed it—smashing its world-famous statues and destroying all that was left of Alexandria’s Great Library. Today, we refer to Christianity’s conquest of the West as a “triumph.” But this victory entailed an orgy of destruction in which Jesus’s followers attacked and suppressed classical culture, helping to pitch Western civilization into a thousand-year-long decline. Just one percent of Latin literature would survive the purge; countless antiquities, artworks, and ancient traditions were lost forever. As Catherine Nixey reveals, evidence of early Christians’ campaign of terror has been hiding in plain sight: in the palimpsests and shattered statues proudly displayed in churches and museums the world over. In *The Darkening Age*, Nixey resurrects this lost history, offering a wrenching account of the rise of Christianity and its terrible cost.

Before They Pass Away

This riveting narrative explores the lives of six remarkable female pharaohs, from Hatshepsut to Cleopatra--women who ruled with real power--and shines a piercing light on our own perceptions of women in power today. Female rulers are a rare phenomenon--but thousands of years ago in ancient Egypt, women reigned supreme. Regularly, repeatedly, and with impunity, queens like Hatshepsut, Nefertiti, and Cleopatra controlled the totalitarian state as power-brokers and rulers. But throughout human history, women in positions of power were more often used as political pawns in a male-dominated society. What was so special about ancient Egypt that provided women this kind of access to the highest political office? What was it about these women that allowed them to transcend patriarchal obstacles? What did Egypt gain from its liberal reliance on female leadership, and could today's world learn from its example? Celebrated Egyptologist Kara Cooney delivers a fascinating tale of female power, exploring the reasons why it has seldom been allowed through the ages, and why we should care.

Gilgamesh the Hero

Celebrated for bringing a personal touch to history in her Pulitzer Prize-winning epic *The Guns of August* and other classic books, Barbara W. Tuchman reflects on world events and the historian's craft in these perceptive, essential essays. From thoughtful pieces on the historian's role to striking insights into America's past and present to trenchant observations on the international scene, Barbara W. Tuchman looks at history in a unique way and draws lessons from what she sees. Spanning more than four decades of writing in *The New York Times Magazine*, *The Atlantic*, *Foreign Affairs*, *Harper's*, *The Nation*, and *The Saturday Evening Post*, Tuchman weighs in on a range of eclectic topics, from Israel and Mao Tse-tung to a Freudian reading of Woodrow Wilson. This is a splendid body of work, the story of a lifetime spent "practicing history." Praise for *Practicing History* "Persuades and enthralls . . . I can think of no better primer for the nonexpert who wishes to learn history."—*Chicago Sun-Times* "Provocative, consistent, and beautifully readable, an event not to be missed by history buffs."—*Baltimore Sun* "A delight to read."—*The New York Times Book Review*

There was racism in the ancient world, after all. This groundbreaking book refutes the common belief that the ancient Greeks and Romans harbored "ethnic and cultural," but not racial, prejudice. It does so by comprehensively tracing the intellectual origins of racism back to classical antiquity. Benjamin Isaac's systematic analysis of ancient social prejudices and stereotypes reveals that some of those represent prototypes of racism--or proto-racism--which in turn inspired the early modern authors who developed the more familiar racist ideas. He considers the literature from classical Greece to late antiquity in a quest for the various forms of the discriminatory stereotypes and social hatred that have played such an important role in recent history and continue to do so in modern society. Magisterial in scope and scholarship, and engagingly written, *The Invention of Racism in Classical Antiquity* further suggests that an understanding of ancient attitudes toward other peoples sheds light not only on Greco-Roman imperialism and the ideology of enslavement (and the concomitant integration or non-integration) of foreigners in those societies, but also on the disintegration of the Roman Empire and on more recent imperialism as well. The first part considers general themes in the history of discrimination; the second provides a detailed analysis of proto-racism and prejudices toward particular groups of foreigners in the Greco-Roman world. The last chapter concerns Jews in the ancient world, thus placing anti-Semitism in a broader context.

The Story of Civilization

The Bowery Boys: Adventures in Old New York

'no one else in our times has attempted to write a universal history' Polybius' ambitious goal was to describe how Rome conquered the Mediterranean world in less than fifty-three years. This great study of imperialism takes the reader back to Rome's first encounter with Carthage in 264 and forward to her destruction of that renowned city in 146. Polybius, himself a leading Greek politician of the time, emphasizes the importance of practical experience for the writing of political history as well as the critical assessment of all the evidence. He attributes Rome's success to the greatness of its constitution and the character of its people, but also allows Fortune a role in designing the shape of world events. This new translation by Robin Waterfield, the first for over thirty years, includes the first five books in their entirety, and all of the fragmentary Books 6 and 12, containing Polybius' account of the Roman constitution and his outspoken views on how (and how not) to write history. Brian McGing's accompanying introduction and notes illuminate this remarkable political history. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.
