The American Nation

Florida Preparation for Constructed Response/Open-Ended/Short Answer Questions in English/Language Arts Assessment, Second Course

Our environmental problems are huge, and they require careful attention and

action. The twenty-first century will be a crucial time in human history, a time when we must find solutions that allow people on all parts of our planet to live in a clean, healthy environment and have the resources they need for a good life. - p. 5.

Holt Earth Science

Being healthy is much more than being physically fit and free from disease. Health is the state of well-being in which all of the components of health -- physical, emotional, social, mental, spiritual, and environmental -- are in balance. To be truly healthy, you must take care of all six components. - p. 11.
