Your hard work is paying off. You are doing well in your field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams at the world's top businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE.

At just forty-one years old, Dr. Autumn Klein, a neurologist specializing in seizure disorders in pregnant women, had already been named chief of women's neurology at Pittsburgh's largest health system. More than just successful in her field, Dr. Klein was beloved - by her patients, colleagues, family, and friends. She collapsed suddenly on April 17, 2013, writhing in agony on her kitchen floor, and died three days later. The police said her husband, Dr. Robert Ferrante, twenty-three years Klein's senior, killed her through cyanide poisoning. Though Ferrante left a clear trail of circumstantial evidence, Klein's death from cyanide might have been overlooked if not for the investigators who were able to use Ferrante's computer, statements from the staff at his lab, and his own seemingly odd actions at the hospital during his wife's treatment to piece together what appeared to be a long-term plan to end his wife's life. In *Death by Cyanide*, Paula Reed Ward, reporter for the Pittsburgh Post-Gazette, describes the murder investigation and the trial in this sensational case, taking us from the poisoning and the medical staff's heroic measures to save Klein's life to the investigation of Ferrante and the emotion and drama inside the courtroom.

David Blume's Alcohol Can be a Gas!

96 women, men and children died as a result of the disaster in Hillsborough Stadium on 15 April 1989. They were crushed due to overcrowding in the Leppings Lane terrace, penned in by the ground's fencing. Hundreds more were injured and thousands traumatised. Lord Justice Taylor led a judicial inquiry (1990, Cm. 962, ISBN 9780101096225), concluding that the main cause of the disaster was the failure of police control. The next 11 years saw a variety of investigations and

proceedings, including a scrutiny of new evidence (Lord Justice Stuart-Smith, 1998, Cm. 3878, ISBN 9780101387828). Yet many bereaved families felt that the true context, circumstances and aftermath had not been adequately made public, and were particularly aggrieved that it had become widely assumed that Liverpool fans' behaviour had contributed to the disaster. The Independent Panel was established in 2010 to oversee full public disclosure of all documents relating to the disaster and to report on its work. This report is in three parts. Firstly it shows what was already known and in the public domain by 2010. Secondly, in 12 detailed chapters, it describes what the disclosed documents add to public understanding. The third part gives a review of options for providing an archive of the documents. The disclosed documents (available at <http://panel.hillsborough.independent.gov.uk/>) add considerably to public understanding. They show that multiple factors were responsible for the tragedy and that the fans were not the cause. The report also shows that the bereaved families met a series of obstacles in their search for justice over more than 20 years.

Light therapy' is established worldwide as the treatment of choice for seasonal affective disorder. It is also successfully used in nonseasonal depression, as well as for many other psychiatric and neurologic illnesses, and in sleep medicine. □Wake therapy□ is the fastest antidepressant known. Imaging studies show that both methods share neurobiological substrates with antidepressants, but act much faster. 'Chronotherapeutics' □ the combination of light and wake therapy □ achieves rapid results and, by reducing residual symptoms, also minimises relapse. Written by three prominent clinical and research experts in biological rhythms, this manual aims to broaden knowledge and practical application of these non-pharmacologic interventions for bipolar and unipolar disorders. Clinical understanding is deepened by an explanation of the circadian timing system and sleep regulatory mechanisms which underlie the novel treatment strategy. The step-by-step guide and description of the interventions in centers throughout the world provides clear hands-on instructions, supported by a solid body of clinical research. The first edition of 'Chronotherapeutics for Affective Disorders' has kindled a network of psychiatrists and psychologists who are actively introducing these treatments for their inpatients and outpatients. This manual is also essential reading for primary care physicians, sleep medicine specialists and health care administrators.

Amazing Adventure Stories

Seven Stories of Grace The list of authors who have illuminated the life of the Catholic clergy is impressive: G.K. Chesterton, Georges Bernanos, J.F. Powers, Edwin O'Connor, and Graham Greene. To that list you can now add Richard Infante, a priest himself and a master of the art of fiction. This volume gathers his already-published stories with a new novella, "Saints and Sojourners." The drama in the stories emerges from matters peculiar to priestly life, yet applicable to every vocation. In priesthood as in family life, there are generation gaps. There are crises. There are infidelities - and near-infidelities. And there is always grace, though it sometimes arrives in a distressing disguise. "These stories are something more than realist. They're real. And so they hit a reader not the way words usually do, but rather the way life does." From the foreword by Mike Aquilina

A riveting follow-up to Michael Bar-Zohar and Nissim Mishal's account of the most memorable missions of the Mossad, *No Mission is Impossible* sheds light on some of the most harrowing, nail-biting operations of the Israeli Special forces Mossad: *The Greatest Missions of the Israeli Secret Service* brought to life the gripping, legendary missions of Israeli's national intelligence force like never before, capturing the danger of the operations and the bravery of the operatives who risked everything to complete their assignments. Now, in *No Mission Is Impossible*, Michael Bar-Zohar and Nissim Mishal return with the intensely absorbing, fast-paced story of thirty of the boldest missions of the Israeli Special Forces. Bar-Zohar and Mishal depict in electrifying detail major battles, raids in enemy territory, and death-defying commando missions while also sharing the personal stories of both soldiers and top commanders, revealing their hopes and fears. The stories are often of victories, but sometimes also of immense failures, and run side-by-side with the accounts of the lives and accomplishments of some of Israel's most

prominent figures, including Moshe Dayan, Ariel Sharon, the brothers Netanyahu, Ehud Barak, and Avigdor Kahalani. We follow Sharon, from his near death at the battle of Latrun in 1948, to his crossing Suez in 1973; we are with Ehud Barak, dressed in women's clothes, when he commands a daring raid in Beirut in 1973, and then when he is elected Prime Minister in 1999. Besides recounting the mesmerizing, high-stakes missions, *No Mission Is Impossible* includes an interview in each chapter with a major figure who took part in the mission discussed, including some of the most prominent players in Israeli politics, and stunning photographs, many published for the first time. Captivating and eye-opening, *No Mission Is Impossible* is essential reading for anyone interested in understanding how these crucial missions shaped Israel, and the world at large.

Like Ruta Sepetys for middle grade, Anne Blankman pens a poignant and timeless story of friendship that twines together moments in underexplored history. On a spring morning, neighbors Valentina Kaplan and Oksana Savchenko wake up to an angry red sky. A reactor at the nuclear power plant where their fathers work--Chernobyl--has exploded. Before they know it, the two girls, who've always been enemies, find themselves on a train bound for Leningrad to stay with Valentina's estranged grandmother, Rita Grigorievna. In their new lives in Leningrad, they begin to learn what it means to trust another person. Oksana must face the lies her parents told her all her life. Valentina must keep her grandmother's secret, one that could put all their lives in danger. And both of them discover something they've wished for: a best friend. But how far would you go to save your best friend's life? Would you risk your own? Told in alternating perspectives among three girls--Valentina and Oksana in 1986 and Rifka in 1941--this story shows that hatred, intolerance, and oppression are no match for the power of true friendship.
