Eminent Victorians is a book by Lytton Strachey, consisting of biographies of four leading figures from the Victorian era. Its fame rests on the irreverence and wit Strachey brought to bear on three men and a woman who had until then been regarded as heroes: Cardinal Manning, Florence Nightingale, Thomas Arnold and General Gordon (although Nightingale is actually praised and her reputation was enhanced). The book shows its other subjects in a less than flattering light; for instance, the intrigues of Cardinal Manning against Cardinal Newman.

## **All that is Solid Melts Into Air**

A stunning account of life behind bars at the federal penitentiary in Leavenworth, Kansas, where the nation's hardest criminals do hard time. "A page-turner, as compelling and evocative as the finest novel. The best book on prison I've ever read."—Jonathan Kellerman The most dreaded facility in the prison system because of its fierce population, Leavenworth is governed by ruthless clans competing for dominance. Among the "star" players in these pages: Carl Cletus Bowles, the sexual predator with a talent for murder; Dallas Scott, a gang member who has spent almost thirty of his forty-two years behind bars; indomitable Warden Robert Matthews, who put his shoulder against his prison's grim reality; Thomas Silverstein, a sociopath confined in "no human contact" status since 1983; "tough cop" guard Eddie Geouge, the only officer in the penitentiary with the authority to sentence an inmate to "the Hole"; and William Post, a bank robber with a criminal record going back to when he was eight years old—and known as the "Catman" for his devoted care of the cats who live inside the prison walls. Pete Earley, celebrated reporter and author of *Family of Spies*, all but lived for nearly two years inside the primordial world of Leavenworth, where he conducted hundreds of interviews. Out of this unique, extraordinary access comes the riveting story of what life is actually like in the oldest maximum-security prison in the country. Praise for *The Hot House* "Reporting at its very finest."—Los Angeles Times "The book is a large act of courage, its subject an important one, and . . . Earley does it justice."—The Washington Post Book World "[A] riveting, fiercely unsentimental book . . . To [Earley's] credit, he does not romanticize the keepers or the criminals. His cool and concise prose style serves him well. . . . This is a gutsy book."—Chicago Tribune "Harrowing . . . an exceptional work of journalism."—Detroit Free Press "If you're going to read any book about prison, *The Hot House* is the one. . . . It is the most realistic, unbuffed account of prison anywhere in print."—Kansas City Star "A superb piece of reporting."—Tom Clancy

## **The Hot House**

Author and technologist Nicholas Negroponte has declared that printed books are in danger of disappearing; according to his predictions, the last printed book will appear sometime in the spring of 2016. This copy might well make its appearance tucked away in a backpack and taken aboard a subway to read. This is the premise of *The Last Book*, the latest body of work by Amsterdam-based photographer Reinier Gerritsen. The world and the word is in the process of becoming less and less dependent on paper. Our reading habits, especially as they occur in public spaces, are subtly shifting each day. Gerritsen has taken up the current plethora of books and their readers on New York City's subways as the proverbial canary-in-the-coal-mine, an indicator of the still-robust nature of public readership, in the face of its ostensible decline. The work began for Gerritsen as a series of modest observations, and has turned into a series of unexpected, documentary portraits, set against a visual landscape of best sellers, classics, romance novels, detective thrillers, Bibles, biographies, and other printed books. Gerritsen depicts groups of individuals engrossed in the worlds they hold in their hands, bringing together a social portrait of readers. From the subtle interactions of passengers and facial expressions to the sociological clues of book titles, a complexly layered narrative is informed by the choices of readers and the *mélange* of New York City's subway riders as they are transported both literally and figuratively, by the books in their hands. *The Last Book* will also include an illustrated index and bibliography charting the titles and authors that populate our minds during our daily commutes.

*Black Nature* is the first anthology to focus on nature writing by African American poets, a genre that until now has not commonly been counted as one in which African American poets have participated. Black poets have a long tradition of incorporating treatments of the natural world into their work, but it is often read as political, historical, or protest poetry--anything but nature poetry. This is particularly true when the definition of what constitutes nature writing is limited to work about the pastoral or the wild. Camille T. Dungy has selected 180 poems from 93 poets that provide unique perspectives on American social and literary history to broaden our concept of nature poetry and African American poetics. This collection features major writers such as Phillis Wheatley, Rita Dove, Yusef Komunyakaa, Gwendolyn Brooks, Sterling Brown, Robert Hayden, Wanda Coleman, Natasha Trethewey, and Melvin B. Tolson as well as newer talents such as Douglas Kearney, Major Jackson, and Janice Harrington. Included are poets writing out of slavery, Reconstruction, the Harlem Renaissance, the Black Arts Movement, and late twentieth- and early twenty-first-century African American poetic movements. *Black Nature* brings to the fore a neglected and vital means of considering poetry by African Americans and

nature-related poetry as a whole. A Friends Fund Publication.

## **Funny Weather: Art in an Emergency**

A Hugo Award-winning classic about a far-future Earth dominated by gargantuan plants and the few humans who remain. Millions of years beyond our time, our Earth has long since stopped spinning—and giant flora have taken over the sunlit half of the motionless world. Here humans are among the very few animal species that still exist, struggling to survive against enormous odds, but they have become small and weak, and their numbers have dwindled to almost nothing. When the aging leader of Gren's tribe decrees it is time for the old ones to go "Up," the younger are left to make their own way below. Although the journey will not be an easy one for young Gren, he sets off on an odyssey across a perilous world populated by carnivorous plants and other evolved vegetation. But any knowledge to be gained at the terminator—the forbidding boundary between the day world and the night—might well prove worthless for the boy and the companions he amasses along the way when the expanding sun goes nova and their Earth is no more. A thrilling parable of courage, discovery, and survival, Hothouse is among Grand Master Brian W. Aldiss's most beloved and enduring works. Ingeniously inventive, richly detailed, and breathtakingly lush and vibrant, the doomed world and people that Aldiss creates will live forever in the minds of all those who enter this remarkable realm.

## **Inge's War**

An award-winning writer delivers a poignant and provocative novel of identity, race and the search for belonging in the age of globalization. One afternoon, not long after Kelly Thorndike has moved back to his hometown of Baltimore, an African American man he doesn't recognize calls out to him. To Kelly's shock, the man identifies himself as Martin, who was one of Kelly's closest friends in high school—and, before his disappearance nearly twenty years before, skinny, white, and Jewish. Martin then tells an astonishing story: After years of immersing himself in black culture, he's had a plastic surgeon perform "racial reassignment surgery"—altering his hair, skin, and physiognomy to allow him to pass as African American. Unknown to his family or childhood friends, Martin has been living a new life ever since. Now, however, Martin feels he can no longer keep his new identity a secret; he wants Kelly to help him ignite a controversy that will help sell racial reassignment surgery to the world. Kelly, still recovering from the death of his wife and child and looking for a way to begin anew, agrees, and things quickly begin to spiral out of control. Inventive and thought-provoking, *Your Face in Mine* is a brilliant novel about cultural and racial alienation and the nature of belonging in a world where identity can be a stigma or a lucrative brand.

## **Eminent Victorians**

We all know we're not supposed to judge books by their covers, but the truth is that we do just that nearly every time we walk into a bookstore or pull a book off a tightly packed shelf. It's really not something we should be ashamed about, for it reinforces something we sincerely believe: design matters. At its best, book cover design is an art that transcends the publisher's commercial imperative to reflect both an author's ideas and contemporary cultural values in a vital, intelligent, and beautiful way. In this groundbreaking and lavishly illustrated history, authors Ned Drew and Paul Sternberger establish American book cover design as a tradition of sophisticated, visual excellence that has put shape to our literary landscape. *By Its Cover* traces the story of the American book cover from its inception as a means of utilitarian protection for the book to its current status as an elaborately produced form of communication art. It is, at once, the intertwined story of American graphic design and American literature, and features the work of such legendary figures as Rockwell Kent, E. McKnight Kauffer, Paul Rand, Alvin Lustig, Rudy deHarak, and Roy Kuhlman along with more recent and contemporary innovators including Push Pin Studios, Chermayeff & Geismar, Karen Goldberg, Chip Kidd, and John Gall.

## **Prison Stories**

"One of the finest writers of the new nonfiction" (*Harper's Bazaar*) explores the role of art in our tumultuous modern era. In this remarkable, inspiring collection of essays, acclaimed writer and critic Olivia Laing makes a brilliant case for why art matters, especially in the turbulent political weather of the twenty-first century. *Funny Weather* brings together a career's worth of Laing's writing about art and culture, examining their role in our political and emotional lives. She profiles Jean-Michel Basquiat and Georgia O'Keeffe, reads Maggie Nelson and Sally Rooney, writes love letters to David Bowie and Freddie Mercury, and explores loneliness and technology, women and alcohol, sex and the body. With characteristic originality and compassion, she celebrates art as a force of resistance and repair, an antidote to a frightening political time. We're often told that art can't change anything. Laing argues that it can. Art changes how we see the world. It makes plain inequalities and it offers fertile new ways of living.

His responsibilities lay with Rafter M Arrow, which had been in their family for over a hundred years. Even though they were fighting a losing battle to keep the place going. The ranch always came first, over personal comfort, sometimes reason and definitely women. So how had Cole ended up making a spur-of-the-moment marriage last year in Reno to

TV director Nell, who was as city as they came? Nell was prepared to give it all up to be with Cole. But he knew how it would end: as it had always ended before. It was time to stop living a pipe dream and sue for divorce. But then Nell came back to Marietta with The Compatibility Game, a reality program, in which couples discovered what they were willing to do for love by living and working at Rafter M, and Cole found himself taking part too...

## **Tahiti Nui**

In this insightful, compelling, and highly readable work, Melanie Lenart, an award-winning journalist and science writer who holds a PhD in Natural Resources and Global Change, examines global warming with the trained eye of a professional scientist. And she presents the science in a clear, straightforward manner. Why does the planet's warming produce stronger hurricanes, rising seas, and larger floods? Simple, says Lenart. The Earth is just doing what comes naturally. Just as humans produce sweat to cool off on a hot day, the planet produces hurricanes, floods, wetlands, and forests to cool itself off. Life in the Hothouse incorporates Lenart's extensive knowledge of climate science—including the latest research in climate change—and the most current scientific theories, including Gaia theory, which holds that the Earth has some degree of climate control "built in." As Lenart points out, scientists have been documenting stronger hurricanes and larger floods for many years. There is a good reason for this, she notes. Hurricanes help cool the ocean surface and clear the air of carbon dioxide, the main greenhouse gas responsible for global warming. From the perspective of Gaia theory, these responses are helping to slow the ongoing global warming and Lenart expounds upon this in a clear and understandable fashion. There is hope, Lenart writes. If we help sustain Earth's natural defense systems, including wetlands and forests, perhaps Mother Earth will no longer need to rely as much on the cooling effects of what we call "natural disasters"—many of which carry a human fingerprint. At a minimum, she argues, these systems can help us survive the heat.

Jerry Alten started as Art Director of TV Guide in 1967, and for almost 50 years he engaged the world's greatest illustrators to provide the artwork for the pages of the widest circulated magazine in the world. Unlike entertainment magazines today, the digest-sized magazine relied almost solely on illustration, and in many cases, it helped to support the careers of many of the illustrators. Jerry Alten provides a view behind-the-scenes of a magazine that featured some of America's greatest celebrities, the artist who painted them, and the interesting, highly entertaining, and sometimes outrageous interactions between subject, artist, and art director.

## **Hothouse**

He claimed to be “the plainest kind of fellow you can find. There isn’t a single thing I’ve done, or experienced,” said Grant Wood, “that’s been even the least bit exciting.” Wood was one of America’s most famous regionalist painters; to love his work was the equivalent of loving America itself. In his time, he was an “almost mythical figure,” recognized most supremely for his hard-boiled farm scene, *American Gothic*, a painting that has come to reflect the essence of America’s traditional values—a simple, decent, homespun tribute to our lost agrarian age. In this major new biography of America’s most acclaimed, and misunderstood, regionalist painter, Grant Wood is revealed to have been anything but plain, or simple . . . R. Tripp Evans reveals the true complexity of the man and the image Wood so carefully constructed of himself. Grant Wood called himself a farmer-painter but farming held little interest for him. He appeared to be a self-taught painter with his scenes of farmlands, farm workers, and folklore but he was classically trained, a sophisticated artist who had studied the Old Masters and Flemish art as well as impressionism. He lived a bohemian life and painted in Paris and Munich in the 1920s, fleeing what H. L. Mencken referred to as “the booboisie” of small-town America. We see Wood as an artist haunted and inspired by the images of childhood; by the complex relationship with his father (stern, pious, the “manliest of men”); with his sister and his beloved mother (Wood shared his studio and sleeping quarters with his mother until her death at seventy-seven; he was forty-four). We see Wood’s homosexuality and how his studied masculinity was a ruse that shaped his work. Here is Wood’s life and work explored more deeply and insightfully than ever before. Drawing on letters, the

artist's unfinished autobiography, his sister's writings, and many never-before-seen documents, Evans's book is a dimensional portrait of a deeply complicated artist who became a "National Symbol." It is as well a portrait of the American art scene at a time when America's Calvinistic spirit and provincialism saw Europe as decadent and artists were divided between red-blooded patriotic men and "hothouse aesthetes." Thomas Hart Benton said of Grant Wood: "When this new America looks back for landmarks to help gauge its forward footsteps, it will find a monument standing up in the midst of the wreckage . . . This monument will be made out of Grant Wood's works."

## **Under Four Administrations**

In this riveting, beyond-belief true story from the author of *The Borden Murders*, meet the five children who captivated the entire world. When the Dionne Quintuplets were born on May 28, 1934, weighing a grand total of just over 13 pounds, no one expected them to live so much as an hour. Overnight, Yvonne, Annette, Cécile, Émilie, and Marie Dionne mesmerized the globe, defying medical history with every breath they took. In an effort to protect them from hucksters and showmen, the Ontario government took custody of the five identical babies, sequestering them in a private, custom-built hospital across the road from their family--and then, in a stunning act of hypocrisy, proceeded to exploit them for the next nine years. The Dionne Quintuplets became a more popular attraction than Niagara Falls, ogled through one-way screens by sightseers as they splashed in their wading pool at the center of a tourist hotspot known as Quintland. Here, Sarah Miller reconstructs their unprecedented upbringing with fresh depth and subtlety, bringing to new light their resilience and the indelible bond of their unique sisterhood.

With each, Kachka dives into every element of the job: science, surgery, financials, finding a program, and everything in between.

"Growing up in Paris, the daughter of a German mother and an Irish father, Svenja O'Donnell knew little of her family's German past. All she knew was that her grandmother and her mother had fled their home city of Königsberg in the far east of Germany near the end of World War II, never to return. But everything changed when O'Donnell traveled to Königsberg -- now known as Kaliningrad, and part of Russia -- and called her grandmother, who uncharacteristically burst into tears. "I have so much to tell you," Inge said. In this [ ] book, the [ ] journalist vividly reconstructs the story of Inge's life from the rise of the Nazis through the brutal postwar years, from falling in love with a man who was sent to the Eastern Front just after she became pregnant with his child, to spearheading her family's flight as the Red Army closed in, her young daughter in tow. Ultimately, O'Donnell uncovers the act of violence that finally parted Inge from the man she loved; a terrible secret she had been keeping for more than six decades. In retracing her grandmother's footsteps, Svenja O'Donnell offers a rare window into a side of World War II we rarely see: a story not of heroes or villains, but of ordinary people, caught in the gears of history." --
