“Wheel books” were once found in the uniform pockets of virtually all junior officers and many senior petty officers. Each small notebook was unique to the Sailor carrying it, but all had in common a collection of data and wisdom that the individual deemed useful in the effective execution of his or her duties. used as a substitute for experience among neophytes and as a portable library of reference information for more experienced personnel, those weathered pages contained everything from the time of the next tide, to leadership hints from a respected chief petty officer, to the color coding of the phone-and-distance line used in underway replenishments. In that same tradition, the Naval Institute has created and aptly named the Wheel Book series, portable libraries culled from USNI's vast array of information that has accumulated for more than a century. Articles from the Institute's flagship publication Proceedings are combined with selections from USNI's oral history program and from Naval Institute Press books to create unique guides on a wide array of relevant professional subjects. Just as the "wheel books" of yesterday served the fleet well, the Naval Institute Wheel Books of today provide supplemental information, pragmatic advice, and cogent analysis on topics important to modern naval professionals. The pinnacle of leadership in a military organization is command. Article 0801 of Navy Regulations defines both the authority and the responsibility of command as "absolute." This Naval Institute Wheel Book provides practical guidance and food for thought that actual and would-be commanders can use to carry out that absolute authority while being absolutely responsible. Included in this specially-selected collection is the sage advice of those who have commanded as well as the expectations of those who are commanded. Aspirants as well as practitioners will do well to exploit this selected survey of what Fleet Admiral Chester Nimitz described as the "one purpose" for entering the Navy.

author of wildly successful, inspirational books about . . . angels. Heather survived a childhood that culminated in her own parents' murder-suicide, so she identifies deeply with Alice's daughter, Katie, offering herself as a mentor to the girl and a shoulder for Stephen - who flees the pulpit to be with Heather and see if there is anything to be salvaged from the spiritual wreckage around him. But then the State's Attorney begins to suspect that Alice's husband may not have killed himself. . .and finds out that Alice had secrets only her minister knew. *Secrets of Eden* is both a haunting literary thriller and a deeply evocative testament to the inner complexities that mark all of our lives. Once again Chris Bohjalian has given us a riveting page-turner in which nothing is precisely what it seems. As one character remarks, "Believe no one. Trust no one. Assume all of our stories are suspect."

Since its formation in 1932, Saudi Arabia has been ruled by two interdependent families. The Al Sa'uds control politics and the descendants of Ibn Abd al-Wahhab impose Wahhabism—a violent, fanatical perversion of the pluralistic Islam practiced by most Muslims. Stephen Schwartz argues that Wahhabism, vigorously exported with the help of Saudi oil money, is what incites Palestinian suicide bombers, Osama bin Laden, and other Islamic terrorists throughout the world. Schwartz reveals the hypocrisy of the Saudi regime, whose moderate facade conceals state-sponsored repression and terrorism. He also raises troubling questions about Wahhabi infiltration of America's Islamic community and about U.S. oil companies sanitizing Saudi Arabia's image for the

Since the 1660s, the Seminary of Montreal -- a French, male religious community -- had been an integral part of the merchant, seigneurial, and clerical elite that dominated Montreal. Its significance in pre-industrial society was strengthened by its role as seigneur of Montreal Island and titular parish priest. The Seminary survived the British conquest, but came under increasing attack in the early nineteenth century from industrial producers and large capitalists landlords who resented the Seminary's seigneurial expropriations. By the 1830s, anticlerical elements in the peasantry and other popular classes had joined in the attack.
