The Managed Care Contracting Handbook, 2nd Edition

This book aims to introduce concrete and innovative proposals for a holistic approach to supranational human rights justice through a hands-on legal exercise: the rewriting of decisions of supranational human rights monitoring bodies. The contributing scholars have thus redrafted crucial passages of landmark human rights judgments and decisions, ‘as if human rights law were really one’, borrowing or taking inspiration from developments and interpretations throughout the whole multi-layered human rights protection system. In addition to the rewriting exercise, the contributors have outlined the methodology and/or theoretical framework that guided their approaches and explain how human rights monitoring bodies may adopt an integrated approach to human rights law.

This book examines the engagement of African states with the United Nations Human Rights Council's Universal Periodic Review (UPR) mechanism. This human rights mechanism is known for its pacific and non-confrontational approach to monitoring state human rights implementation. Coming at the end of the first three cycles of the UPR, the work offers a detailed analysis of the effectiveness of African states' engagement and its potential impact. It develops a framework which comprehensively evaluates aspects of states' UPR engagement, such as the pre-review national consultation process and implementation of UPR recommendations which, until recently, have received little attention. The book considers the potential for acculturation in engagement with the UPR and unpacks the impact of politics, regionalism, cultural relativism, rights ritualism and civil society. The work provides a useful guide for policymakers and international human rights law practitioners, as well as a valuable resource for international legal and international relations academics and researchers.

The various reports on cultural rights by UN Special Rapporteur Faridah Shaheed provide a new universal standard on cultural rights with topics ranging from cultural diversity, cultural heritage, and the right to artistic freedom to the effects of today's intellectual property regimes. “An engaging, beautifully synthesized page-turner” (Slate). The #1 New York Times bestseller and Time #1 Nonfiction Book of the Year: Hillary Rodham Clinton’s most personal memoir yet, about the 2016 presidential election. In this “candid and blackly funny” (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling

during one of the most controversial and unpredictable presidential elections in history. She takes us inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. “At her most emotionally raw” (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this “feminist manifesto” (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a “bracing guide to our political arena” (The Washington Post), What Happened lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. What Happened is the story of that campaign, now with a new epilogue showing how Hillary grappled with many of her worst fears coming true in the Trump Era, while finding new hope in a surge of civic activism, women running for

office, and young people marching in the streets.

The mesmerizing story of Hillary Clinton's political rebirth, based on eyewitness accounts from deep inside her inner circle Hillary Clinton's surprising defeat in the 2008 Democratic primary brought her to the nadir of her political career, vanquished by a much younger opponent whose message of change and cutting-edge tech team ran circles around her stodgy campaign. And yet, six years later, she has reemerged as an even more powerful and influential figure, a formidable stateswoman and the presumed front-runner for the 2016 Democratic presidential nomination, marking one of the great political comebacks in history. The story of Hillary's phoenixlike rise is at the heart of HRC, a riveting political biography that journeys into the heart of "Hillaryland" to discover a brilliant strategist at work. Masterfully unfolded by Politico's Jonathan Allen and The Hill's Amie Parnes from more than two hundred top-access interviews with Hillary's intimates, colleagues, supporters, and enemies, HRC portrays a seasoned operator who negotiates political and diplomatic worlds with equal savvy. Loathed by the Obama team in the wake of the primary, Hillary worked to become the president's greatest ally, their fates intertwined in the work of reestablishing America on the world stage. HRC puts readers in the room with Hillary during the most intense and pivotal moments of this era, as she mulls the president-elect's offer to join the administration, pulls the strings to build a coalition for his war against Libya, and scrambles to deal with the fallout from the

terrible events in Benghazi—all while keeping one eye focused on 2016. HRC offers a rare look inside the merciless Clinton political machine, as Bill Clinton handled the messy business of avenging Hillary's primary loss while she tried to remain above the partisan fray. Exploring her friendships and alliances with Robert Gates, David Petraeus, Leon Panetta, Joe Biden, and the president himself, Allen and Parnes show how Hillary fundamentally transformed the State Department through the force of her celebrity and her unparalleled knowledge of how power works in Washington. Filled with deep reporting and immersive storytelling, this remarkable portrait of the most important female politician in American history is an essential inside look at the woman who may be our next president. The Mobil Travel Guide star ratings are a 45-year-old consumer advocacy concept originally developed following the introduction of the interstate highway system. The goal of the Guide is not to identify and rate every property in the country, but to recommend only the best in each category, ones that we would send our customers to. We look at the stars from a consumer's point of view, rating lodgings and restaurants across North America from the perspective of the "average traveler."The Guides feature new enhanced descriptions for 2004. Listings

include lodgings, restaurants, attractions, and events in established travel destinations, as well as cities and towns on the way to established travel destinations. Our new easy-to-use format makes the Guides even more indispensable to travelers. Each regional guide is organized alphabetically by state, with introductory information about the state followed by city listings in alphabetical order. For each city, the guide lists sites and attractions, lodgings, and then restaurants. One of the features that sets the Mobil Travel Guide apart from its competitors is its proprietary Mobil star rating system. Forty-five plus years of publishing experience and the oldest non-biased rating system in North America make the Mobil Travel Guide series a must-have for travelers wanting up-to-date ratings of hotels and restaurants.

The Human Rights Council

A mother's memoir of her transgender child's odyssey, and her journey outside the boundaries of the faith and culture that shaped her. From the age of two-and-a-half, Jacob, born "Em," adamantly told his family he was a boy. While his mother Mimi struggled to understand and come to terms with the fact that her child may be transgender, she experienced a sense of déjà vu—the journey to uncover the source of her child's inner turmoil unearthed ghosts from Mimi's past and her own struggle to live an authentic life. Mimi was raised in an ultra-Orthodox Jewish family, every aspect of her life dictated by ancient rules and her role as a woman largely preordained from cradle to grave. As a young woman, Mimi

wrestled with the demands of her faith and eventually made the painful decision to leave her religious community and the strict gender roles it upheld. Having risen from the ashes of her former life, Mimi was prepared to help her son forge a new one — at a time when there was little consensus on how best to help young transgender children. Dual narratives of faith and motherhood weave together to form a heartfelt portrait of an unforgettable family. Brimming with love and courage, *What We Will Become* is a powerful testament to how painful events from the past can be redeemed to give us hope for the future.
