This volume of H. L. Mencken's newspaper work is enlivened by his controvesial writings during World War I. As the son of German immigrants, Mencken unabashedly defended Germany during the conflict. He was with a group of reporters in Germany in the spring of 1917, and in a succession of articles he tells of their perilous efforts to get out of the country just as the United States is about to enter the war. Mencken boarded a boat that went to Cuba, where he reported on an unsuccessful rebellion against the government. In other papers Mencken writes of the distinction between American and British English, and also gives a stirring account of the boxing match between Jack Dempsey and Georges Carpentier. As the author of numerous unsigned editorials, Mencken expatiates on familiar subjects--the institution of

marriage, the pleasures of eating, the peccadilloes of local politicians, and the like. In sum, this volume again reveals why Mencken was the most distinctive journalist of his generation.

When we use language to interact with one another, we become involved in a continuous and dynamic process of exchange. This fact makes interpersonal communication a fascinating area for behavioral research. During the give-and-take of discourse, the communicators exchange facts, ideas, views, opinions, emotions, and intentions in such a way as to enhance or impede social relationships; create, maintain, and adapt identities; and create or resolve conflicts. In the APA Handbook of Interpersonal

Communication, distinguished scholars apply the problem-solving perspectives of applied linguistics to answer fundamental questions. --

What comes in something plain, but is also very useful? An unruled composition book! This book has unruled pages, free of lines and has no unnecessary visual distractions. If you need a book wherein you can use for free-form writing, or even drawing, then this is the perfect tool for you to express yourself without limitations. This is ideal for free-form journaling or sketching, note taking, drawing, doodling, among endless possibilities.

Plotting History

Takes readers on a journey back in time in order to experience life in ancient Rome, describing clothing, accommodations, foods, local customs,

transportation, and notable personalities.

Your Travel Guide to Ancient Rome

Balanced precariously between fact and fiction, the historical novel is often viewed with suspicion. Some have attacked it as a mongrel form, a “bastard son” born of “history’s flagrant adultery with imagination.” Yet it includes some of the most celebrated achievements of Russian literature, with Alexander Pushkin, Nikolai Gogol, Leo Tolstoy, and scores of other writers contributing to this tradition. Dan Ungurianu’s *Plotting History* traces the development of the Russian historical novel from its inception in the romantic era to the emergence of Modernism on the eve of the Revolution. Organized historically and thematically, the study is focused on the cultural paradigms that shaped the evolution of the genre and are reflected in masterpieces such as *The Captain’s Daughter* and *War and Peace*. Ungurianu examines the variety of approaches by which Russian writers combined fact with fiction and explores the range of subjects that inspired the Russian historical imagination. Outstanding Academic Title, Choice Magazine “Ungurianu has produced a most valuable work for literary scholars.”—Andrew M. Drozd, *Slavic and East European Journal* “[Ungurianu’s] overwhelming knowledge, impeccable documentation, erudite notes, and valuable addenda make for a treasure house of information and keen analysis. . . . Essential.”—Choice

My Weirdest School #5: Miss Daisy Is Still Crazy!

Over the past two decades, the role of business in global governance has become increasingly topical. Transnational business associations are progressively more visible in international policy debates and in intergovernmental institutions, and there is a heightened attention given to global policy-making in national and international business communities. This text examines and explains the multiple modes of engagement between business and global governance; it presents a variety of theoretical approaches which can be used to analyse them, along with empirical illustrations. Featuring a range of leading US and European scholars, it is divided into three parts that summarize different modes of engagement. Each section is illustrated by two or three studies that represent a distinct theoretical take on the issue with empirical illustrations. The book examines: Business as master and purpose of global governance Business as subject and opponent to global governance Business as partner and facilitator of global governance This book will be of interest to students and scholars of Business Studies, International Relations, International Politics and International Political Economy, as well as for practitioners – in the public and private sector.

The vast, and vastly influential, American military machine has been aided and abetted by cinema since the earliest days of the medium. The US military realized very quickly that film could be used in myriad ways: training, testing, surveying and mapping, surveillance, medical and psychological management of soldiers, and of course, propaganda. Bringing together a collection of new essays, based on archival research, Wasson and Grieveson seek to cover the complex history of how the military deployed cinema for varied purposes across the the long twentieth century, from the incipient wars of US imperialism in the late nineteenth century to the ongoing War on Terror. This engagement includes cinema created and used by and for the military itself (such as training films), the codevelopment of technologies (chemical, mechanical, and digital), and the use of film (and related mass media) as a key aspect of American "soft power," at home and around the world. A rich and timely set of essays, this volume will become a go-to for scholars interested in all aspects of how the military creates and uses moving-image media.
