Challenges and Prospects in African Education System: The general idea this book is trying to disseminate is to inform readers about the compelling challenges and

prospects in African system of education. As we all know, when issues of Africa educational system is raised, the first set of thoughts that come to mind is decline in standard, deterioration of facilities, examination malpractices, cult crises or school-based violence, shortage of teachers, underqualified teachers, and poor teachers' performance, which results in poor learning standards, lack of classroom discipline that is exacerbated by insufficient resources and inadequate infrastructure, failure of appropriate inspection and monitoring, and confusion caused by changing curricula without proper communication and training. All these have led to massive demoralization and disillusionment among teachers and a negative and worsening perception of African system of education. This, therefore, calls for in-depth analysis aimed at tutoring every stakeholder in education on how their action and inactions have individually and collectively contributed to the collapsing state of education in Africa. However, the prospect is that Africa's recovery and sustainable development can only be guaranteed through expansion and sustenance of both quantitative and qualitative-of the continent's stock of human capital through education. In order for education to realize its key role in development, it must be provided to the younger segments of African society as quickly as human and financial resources permit, with the ultimate goal of developing a comprehensive, meaningful and sustainable system of education at all levels and for all age groups. This is the message that this book puts across in the six knitted sections.

Since the mid-1980s, US audiences have watched the majority of movies they see on a video platform, be it VHS, DVD, Blu-ray, Video On Demand, or streaming media. Annual video revenues have exceeded box office returns for over twenty-five years. In short, video has become the structuring discourse of US movie culture. *Killer Tapes and Shattered Screens* examines how prerecorded video reframes the premises and promises of motion picture spectatorship. But instead of offering a history of video technology or reception, Caetlin Benson-Allott analyzes how the movies themselves understand and represent the symbiosis of platform and spectator. Through case studies and close readings that blend industry history with apparatus theory, psychoanalysis with platform studies, and

production history with postmodern philosophy, *Killer Tapes* and *Shattered Screens* unearths a genealogy of post-cinematic spectatorship in horror movies, thrillers, and other exploitation genres. From *Night of the Living Dead* (1968) through *Paranormal Activity* (2009), these movies pursue their spectator from one platform to another, adapting to suit new exhibition norms and cultural concerns in the evolution of the video subject.

The world of *Hard Times For These Times* revolves around a small industrial town firmly in the grip of one businessman. Bounderby is owner of the local mill and Gradgrind, his employee, is the schoolmaster--together they define and enforce the town's moral character with an iron fist. Many of the characters--including Gradgrind eventually--try and fail to resist Bounderby's influence, to their own demise. Published in 1854, the novel revealed Dickens' sharpest views on capitalism and its questionable moral underpinnings and spurred significant critical debate among his contemporaries. A gargantuan, mind-altering comedy about the Pursuit of Happiness in America set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, *Infinite Jest* explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, *Infinite Jest* bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do.

A number of countries have recently discovered and are developing oil and gas reserves. Policy makers in such countries are anxious to obtain the greatest benefits for their economies from the extraction of these exhaustible resources by designing appropriate policies to achieve desired goals. One important theme of such policies is the so-called local content created by the sector—the extent to which the output of the extractive industry sector generates further benefits to the economy beyond the direct contribution of its value-added, through its links to other sectors. While local content policies have the potential to stimulate broad-based economic development, their application in petroleum-rich countries has

achieved mixed results. This paper describes the policies and practices meant to foster the development of economic linkages from the petroleum sector, as adopted by a number of petroleum-producing countries both in and outside the Organisation for Economic Co-operation and Development. Examples of policy objectives, implementation tools, and reporting metrics are provided to derive lessons of wider applicability. The paper presents various conclusions for policy makers about the design of local content policies.

A second ago, Nalena opened her eyes. And she was safe in Garrett's arms. Then it all comes rushing back—the riots, The Fury, the Cusp. The lanua community is in a major jam. Forced into survival mode, the lanua are holed up in the fortress of the Hotel Celare. Each Cura's top-ranking members have gathered to guard the last remaining Addo, as the entire community also scrambles to trust one another and organize a new game plan to overthrow The Fury. The trick is to keep the human race alive. But The Fury's game has changed. They have a Mastermind at the helm and he is out to destroy the lanua. Terrifying and brilliant, this mysterious

Mastermind has organized and focused The Fury like never before. He has recruited the Simple and unleashed the Cusp's wide-spread chaos all around the world. And behind the scenes of this big picture, Nalena and everyone around her are busy trying to keep up, while also absorbing the rapid-fire aftershocks of their changing lives. There are traitors everywhere. While The Cusp is expected to bring twists and turns, Nalena and Garrett never expected it to throw a silverware-drawer full of forks into the road. Each path tests their loyalty and their faith and makes them question who is who. Including themselves. And each other. And in the end, some things, you can never see coming.

balanceEver-loyal Maddalena, a diminutive, blue-eyed, black slave, has borne Cosimo de Medici a son and seen him rise to the position of cardinal. Now, late in life, she finds herself committed to a convent, as part of a scheme to protect the Medici Bank from ruin by Cosimos sons by hiding a fortune in gold for Cosimos grandson, Lorenzo, to inherit. But as the months go by, and the gold does not appear, her faith in Cosimo begins to wane and with it, her confidence in her own worth. Has she been duped? Approaching old age, she finds in the abbess a confessor, to whom she can confide her true story and perhaps, at the same time, to convince herself that her life has been worthwhile. But the abbess, too, has objectives of her own, and the two of them may not be on the same side. Edward Charles presents us here with an enthralling evocation of Fifteenth Century Florence, arena of intrigue, glamour, wealth and deception. One woman's devotion forms the foundation upon which the famed Medici bank was built. The largest and most respected financial institution in Europe in it's prime, it came to represent the might of the influential Medici clan, a family of great power, borne of Italy's gold; a family who scaled the very heights of human grandeur but were to suffer through one of the most catastrophic financial crashes of early banking.

My Next Step is a remarkable memoir of one man coming face to face with the darkest moments of his life and how, through his own drive and the unwavering support of family and friends, he never succumbed to despair. Dave Liniger had it all: four successful children, a lifetime filled with adventure, and a company he'd founded, RE/MAX, that became one of the most prominent real estate brands in the world and made him a success beyond his wildest dreams. He had served in the Vietnam War, parachuted out of planes, raced cars, and once even attempted to circumnavigate the world in a balloon. And then overnight his full and varied life almost came to an abrupt end. Doctors discovered he had a horrific staph infection along his spine that left him paralyzed from the neck down and in excruciating pain. My Next Step chronicles how Dave found reserves of strength to fight through his pain. He drew inspiration from his wife, Gail, who had shown incredible grace and courage during her recovery from a tragic airplane crash twenty-nine years earlier. His guiding light was the mantra, "Just 10 steps." If he could take 10 steps, he could take 20. If he could take 20, he could walk a mile. After three critical surgeries and six grueling months in the hospital, Dave finally returned home. He continues to heal, but is back running the company he loves and getting stronger every day. My Next Step will inspire those facing tragedy to find the courage to accept their situation and do what's necessary to take the next step toward a meaningful life.
