Between Heaven and Hollywood

"In an increasingly globalized world, offshore manufacturing is often favored over domestic manufacturing for its ability to meet greater demands for goods that can be manufactured at lower costs, ultimately saving both companies and consumers money. However, a number of concerns also arise when examining offshoring's impact on a domestic and international scale. Tucked away in the California mountains, Mad Creek has secrets to keep, like the fact that half the town consists of 'quickened'-dogs who have gained the ability to become human. Descended on both sides from border collies, Lance is as alert a guardian as they come. Tim Weston is looking for a safe haven. After learning that his boss patented all of Tim's work on vegetable hybrids in his own name, Tim quit his old job. A client offers him use of her cabin in Mad Creek, and Tim sees a chance for a new start. But the shy gardener has a way of fumbling and sounding like a liar around strangers, particularly gorgeous alpha men like Sheriff Beaufort. Lance's hackles are definitely raised by the lanky young stranger. He's concerned about marijuana growers moving into Mad Creek, and he's not satisfied with the boy's story. Lance decides a bit of undercover work is called for. When Tim hits a beautiful black collie with his car and adopts the dog, its love at first sight for both Tim and Lance's inner dog. Pretending to be a pet is about to get Sheriff Beaufort in very hot water.

Using the same model type throughout the book, timely topics such as growth with bubbles, debt reduction in rich countries and policies to mitigate climate change are explored . The first part starts from the “old” growth theory and bridges to the “new” growth theory (including R&D and human capital approaches). The second part presents an intertemporal equilibrium theory of inter and intra-sectoral trade and concludes by analyzing the debt mechanics inducing the huge imbalances among eurozone countries. The book is primarily addressed to graduate students wishing to proceed to the analytically more demanding journal literature.
