In *Patriotism and Piety*, Jonathan Den Hartog argues that the question of how religion would function in American society was decided in the decades after the Constitution and First Amendment established a legal framework. Den Hartog shows that among the wide array of politicians and public figures struggling to define religion's place in the new nation, Federalists stood out—evolving religious attitudes were central to Federalism, and the encounter with Federalism strongly shaped American Christianity. Den Hartog describes the Federalist appropriations of religion as passing through three stages: a "republican" phase of easy cooperation inherited from the experience of the American Revolution; a "combative" phase, forged during the political battles of the 1790s–1800s, when the destiny of the republic was hotly contested; and a "voluntarist" phase that grew in importance after 1800. Faith became more individualistic and issue-oriented as a result of the actions of religious Federalists. Religious impulses fueled party activism and informed governance, but the redirection of religious energies into voluntary societies sapped party momentum, and religious differences led to intraparty splits. These developments altered not only the Federalist Party but also the practice and perception of religion in America, as Federalist insights helped to create voluntary, national organizations in which Americans could practice their faith in interdenominational settings. *Patriotism and Piety* focuses on the experiences and challenges confronted by a number of Federalists, from well-known leaders such as John Adams, John Jay, Charles Cotesworth Pinckney, and Timothy Dwight to lesser-known but still important figures such as Caleb Strong, Elias Boudinot, and William Jay.

She is Helena Bosman, from a tiny little town lost in the vast expanses of the Northern Cape, but Grandpa and Grandma call her Vaselinetjie. She is their little angel from the veldt, the beginning and the end of their world. But when Vaselinetjie is ten years old, two officials from Welfare step in and she is sent away to a boarding school in Gauteng – the orphanage where Madiba™s reject children have to live. It™s a strange, hard, dangerous world of scum children, bad-tempered matrons and a harsh, unfair principal; a world of smoking cigarette butts, having one™s hair shaved off and making plans to run away. It™s a world where no one bothers about anyone else, where you too learn not to give a damn. But as the months turn into years, there is one name that crops up again and again: Texan Kirby. And that name does strange things to Vaselinetjie™s heart.

This book offers a transdisciplinary perspective on the question of how political legitimacy is constructed in the increasingly contested postnational setting of the European Union. Drawing on the example of the controversy about the EU constitution and the use of 'EU constitution speak' in commentaries published by Polish and French broadsheets, it reveals the transformation that constructions of political authority and association undergo when they are being transposed from the discourse field of multilateral negotiation to that of national news media. Through an original combination of the linguistic theory of discourse developed in Critical Discourse Analysis, Bourdieu's field theory and notion of symbolic power, and political thought on polity-building, it develops a framework for the discourse study of legitimation and Europeanisation, and proposes applications beyond the case studies in the book. To students of European integration, it demonstrates the potential these concepts have for unravelling the implicit practices of postnational polity building. Discourse researchers, on the other hand, will discover how detailed text analyses gain significance in debates related to the macro level of political organisation when guided by sociological and political theory.

“My father’s life represented many layers of the human experience—freedman and Native American, farmer and rancher, rural educator and urban professional.”—John Hope Franklin Buck Colbert Franklin (1879–1960) led an extraordinary life; from his youth in what was then the Indian Territory to his practice of law in twentieth-century Tulsa, he was an observant witness to the changes in politics, law, daily existence, and race relations that transformed the wide-open Southwest. Fascinating in its depiction of an intelligent young man's coming of age in the days of the Land Rush and the closing of the frontier, *My Life and an Era* is equally important for its reporting of the triracial culture of early Oklahoma. Recalling his boyhood spent in the Chickasaw Nation, Franklin suggests that blacks fared better in Oklahoma in the days of the Indians than they did later with the white population. In addition to his insights about the social milieu, he offers youthful reminiscences of mustangs and mountain lions, of farming and ranch life, that might appear in a Western novel. After returning from college in Nashville and Atlanta, Franklin married a college classmate, studied law by mail, passed the bar, and struggled to build a practice in Springer and Ardmore in the first years of Oklahoma statehood. Eventually a successful attorney in Tulsa, he was an eyewitness to a number of important events in the Southwest, including the Tulsa race riot of 1921, which left more than 100 dead. His account clearly shows the growing racial tensions as more and more people moved into the state in the period leading up to World War II. Rounded out by an older man’s reflections on race, religion, culture, and law, *My Life and an Era* presents a true, firsthand account of a unique yet defining place and time in the nation's history, as told by an eloquent and impassioned writer.
