Direct Democracy

In recent years the number of Americans who have decided to handle their own legal affairs without the help of a lawyer has skyrocketed. Ranging from people writing their own wills or drafting a contract to those trying to represent themselves in court, they're going to public and academic libraries for answers. As both an attorney and a librarian, Healy's background makes him uniquely qualified to advise library staff on providing users with the legal information they seek, and in this handbook, he Provides a concise orientation on legal research, including strategies for finding information quickly and a handpicked compendium of the best resources Offers guidance on how to provide advice on legal research while steering clear of liability Covers federal legal reference as well as all 50 states, with a comprehensive list of web-based legal resources Library staff can provide valuable and ethical legal reference guidance with the practical guidance in this book.

The Imperial Presidency

Italian Constitutional Justice in Global Context is the first book ever published in English to provide an international examination of the Italian Constitutional Court (ItCC), offering a comprehensive analysis of its principal lines of jurisprudence, historical origins, organization, procedures, and its current engagement with transnational European law. The ItCC represents one of the strongest and most successful examples of constitutional judicial review, and is distinctive in its structure, institutional dimensions, and well-developed jurisprudence. Moreover, the ItCC has developed a distinctive voice among global constitutional actors in its adjudication of a broad range of topics from fundamental rights and liberties to the allocations of governmental power and regionalism. Nevertheless, in global constitutional dialog, the voice of the ItCC has been almost entirely absent due to a relative lack of both English translations of its decisions and of focused scholarly

commentary in English. This book describes the "Italian Style" in global constitutional adjudication, and aims to elevate Italian constitutional jurisprudence to an active participant role in global constitutional discourse. The authors have carefully structured the work to allow the ItCC's own voice to emerge. It presents broad syntheses of major areas of the Court's case law, provides excerpts from notable decisions in a narrative and analytical context, addresses the tension between the ItCC and the Court of Cassation, and positions the development, character, and importance of the ItCC's jurisprudence in the larger arc of global judicial dialog.

Constitutionalism and Political Reconstruction

The American Congress Reader provides a supplement to the popular and updated American Congress undergraduate textbook. By the same authors who drew upon Capitol Hill experience and nationally recognized scholarship to present a crisp introduction and analysis of Congress's inner mechanics, the Reader compiles the best relevant scholarship on party and committee systems, leadership, voting, and floor activity to broaden and illuminate the key features of the text.

Washington

Includes the contract, explains the contract, and replaces myths about the plan with facts

A Manual of Parliamentary Practice

In May 1787, in an atmosphere of crisis, delegates met in Philadelphia to design a radically new form of government. Distinguished historian Richard Beeman captures as never before the dynamic of the debate and the characters of the men who labored that historic summer. Virtually all of the issues in dispute—the extent of presidential power, the nature of federalism, and, most explosive of all, the role of slavery—have continued to provoke conflict throughout our nation's history. This unprecedented book takes readers behind the scenes to show how the world's most enduring constitution was forged through conflict, compromise, and fragile consensus. As Gouverneur Morris, delegate of Pennsylvania, noted: "While some have boasted it as a work from Heaven, others have given it a less righteous origin. I have many reasons to believe that it is the work of plain, honest men."

The Least Dangerous Branch

Commentaries on the Laws of England

A succinct and highly readable narrative of modern Iran from the mid-nineteenth century to the present.

An Introduction to the Study of the Law of the Constitution

This classic book on the role of the Supreme Court in our democracy traces the

history of the Court, assessing the merits of various decisions along the way. Eminent law professor Alexander Bickel begins with Marbury vs. Madison, which he says gives shaky support to judicial review, and concludes with the school desegregation cases of 1954, which he uses to show the extent and limits of the Court's power. In this way he accomplishes his stated purpose: "to have the Supreme Court's exercise of judicial review better understood and supported and more sagaciously used." The book now includes new foreword by Henry Wellington. Reviews of the Earlier Edition: "Dozens of books have examined and debated the court's role in the American system. Yet there remains great need for the scholarship and perception, the sound sense and clear view Alexander Bickel brings to the discussion. Students of the court will find much independent and original thinking supported by wide knowledge. Many judges could read the book with profit." -Donovan Richardson, Christian Science Monitor "The Yale professor is a law teacher who is not afraid to declare his own strong views of legal wrongs One of the rewards of this book is that Professor Bickel skillfully knits in citations from a host of authorities and, since these are carefully documented, the reader may look them up in their settings. Among the author's favorites is the late Thomas Reed Powell of Harvard, whose wit flashes on a good many pages." -Irving Dillard, Saturday Review Alexander M. Bickel was professor of law at Yale University.

The Federalist Papers

Power to the People examines the first session of the Nebraska Unicameral Legislature, in 1937, to determine whether the Legislature's structure and rules reflected populism, progressivism, or simply a variant of liberal democracy. Building on the work of the new institutionalism and applying the principles of social choice, Power to the People argues that the structure and procedures of an institution affect its product as well as the philosophies on which it is founded.

The U.S. Congress

From the end of the New Deal until quite recently, the U.S. House of Representatives was dominated by a conservative coalition that thwarted the Democratic majority and prevented the enactment of measures proposed by a succession of liberal Presidents. Today Presidents aren't necessarily liberal and the House of Representatives is not necessarily the graveyard of presidential proposals. What happened? Congress evolved. It all began with airconditioning. In this entertaining tale of one of our most august institutions, Nelson Polsby describes how the Democratic majority finally succeeded in overcoming the conservative coalition, changing the House. The evolution required among other things, the disappearance of Dixiecrats from the House Democratic caucus. Dixiecrats were replaced by the rise of the Republican party in the south. The Republican party in southern states was strengthened by an influx of migrants from the north, who came south to settle after the introduction of residential air conditioning, which made the climate more tolerable to Northerners. This evolutionary process led to the House's liberalization and concluded with the House's later transformation into an arena of sharp partisanship, visible among both Democrats and Republicans. A fascinating read by one of our most influential political scientists, How Congress Evolves breathes new life into the dusty corners of institutional history, and offers a unique explanation for important

transformations in the congressional environment.

Reforming Parliamentary Democracy

In the second edition of *The U.S. Congress*, Donald A. Ritchie, a congressional historian for more than thirty years, takes readers on a fascinating, behind-the-scenes tour of Capitol Hill, pointing out the key players, explaining their behavior, and translating parliamentary language into plain English. No mere civics lesson, this eye-opening book provides an insider's perspective on Congress, matched with a professional historian's analytical insight. After a swift survey of the creation of Congress by the constitutional convention, he begins to unscrew the nuts and pull out the bolts. What is it like to campaign for Congress? To attract large donors? To enter either house with no seniority? He answers these questions and more, explaining committee assignments and committee work, the role of staffers and lobbyists, floor proceedings, parliamentary rules, and coalition building. Ritchie explores the great effort put into constituent service-as representatives and senators respond to requests from groups and individuals-as well as media relations and news coverage. He also explores how the grand concepts we all know from civics class--checks and balances, advise and consent, congressional oversight--work in practice in an age of strong presidents and a muscular Senate minority.

How Democratic Is the American Constitution?

Congressional Record

An introduction to the geography, history, government, politics, economy, resources, people, and culture of Washington, D.C., including maps, charts, and a recipe.

The Magna Carta

Origin and Government of the District of Columbia

A starting point for the study of the English Constitution and comparative constitutional law, *The Law of the Constitution* elucidates the guiding principles of the modern constitution of England: the legislative sovereignty of Parliament, the rule of law, and the binding force of unwritten conventions.

Multilingual Learners and Academic Literacies

This is the third collection of papers read at meetings of the Irish Legal History Society during 2000-2004, along with some other papers on Irish legal history. Contents: D.S. Greer (QUB), Truck in Donegal in the 1890s; James McGuire (UCD), Sir Richard Nagle; James Kelly (DCU, St Patrick's), The making of law in 18th-century Ireland; Frank Callanan (Barrister), T.M. Healy; Hector MacQueen, Legal nationalism; W.N. Osborough (UCD), The quest for the last testament of

Christopher Wandesford, lord deputy of Ireland; Felix Larkin, Judge Bodkin and the 1916 Rising: a letter to his son; Gerard O'Brien (UU, Coleraine) , Capital punishment in Ireland, 1924-1964; D.S. Greer, The Irish court for crown cases reserved; Mark Finnane, Irish criminal justice statistics in the later 19th century; Desmond McCabe, Petty sessions in 19th-century Ireland; Brian Griffin (Bath College), Prevention and detection of crime, 1836-1900; Concluding essay by Ronan Keane.

How Congress Evolves

This text examines parliamentary government in theory and practice, drawing widely on academic research and making extensive use of Parliament's own records. Themes and concepts are illustrated by historical, recent and contemporary examples. Where appropriate, comparisons are made with practice in other countries. Boxes set out themes and concepts, figures illustrate the physical layout and tables provide detailed information on Parliament's operation.

International Legal English Teacher's Book

Meryll Dean's superb new edition of Japanese Legal System provides a wide-ranging and unique insight into the legal system of a country which is at the forefront of global development, yet rarely examined by legal scholars. It is a major contribution to the study of comparative law and through its multidisciplinary approach breaks new ground in providing a comprehensive text on the subject. It draws on the author's first hand knowledge of Japan, but is written for non-Japanese speakers.; Through its approachable yet scholarly style, the reader is introduced to the essentials of the legal system, and guided through historical and cultural context; from which they will be able to develop an informed critique.; The book covers the history, structure and tradition of the Japanese legal system, as well as providing an insight into areas of substantive law. It contains extracts from diverse contemporary sources which, together with the author's commentary, guide the reader through the complexities of a different culture. The use of multidisciplinary sources, which are contextualised by the author, make what would otherwise be inaccessible material available for comparative analysis.; This book may be used as a textbook for undergraduate and postgraduate courses. It will be useful for those engaged in the study of history, politics, international relations and law, as well as being of value to academics, practitioners and those in business

Contract with America

The Army Lawyer

In this provocative book, one of our most eminent political scientists questions the extent to which the American Constitution furthers democratic goals. Robert Dahl reveals the Constitution's potentially antidemocratic elements and explains why they are there, compares the American constitutional system to other democratic systems, and explores how we might alter our political system to achieve greater equality among citizens. In a new chapter for this second edition, he shows how increasing differences in state populations revealed by the Census of 2000 have further increased the veto power over constitutional amendments held by a tiny minority of Americans. He then explores the prospects for changing some important political practices that are not prescribed by the written Constitution, though most Americans may assume them to be so.

The Parliamentary Debates

Insightful analyses of recent reforms to parliamentary institutions and governance in Canada, the United Kingdom, Australia, New Zealand, and South Africa. Parliamentary government combines stability and dynamism. Its continuity is rooted in enduring principles such as citizen representation and accountability to the legislature. But parliamentary systems have evolved in response to changes in the societies they govern and in citizens' views about democratic practices. In *Reforming Parliamentary Democracy* the authors demonstrate how, in their respective countries, parliamentary governments have combined stability with the capacity to adapt to such changes. They provide insightful analyses of recent reforms to parliamentary institutions and governance in Canada, the United Kingdom, Australia, New Zealand, and South Africa.

Plain, Honest Men

Congress is the heart and soul of our democracy, the place where interests are brokered, laws are established, and innovation is turned into concrete action. It is also where some of democracy's greatest virtues clash with its worst vices: idealism and compromise meet corruption and bitter partisanship. The American Congress unveils the rich and varied history of this singular institution. Julian E. Zelizer has gathered together forty essays by renowned historians to capture the full drama, landmark legislation, and most memorable personalities of Congress. Organized around four major periods of congressional history, from the signing of the Constitution to the creation of the Department of Homeland Security, this volume brings a fresh perspective to familiar watershed events: the Civil War, Watergate, the Vietnam War. It also gives a behind-the-scenes look at lesser-known legislation debated on the House and Senate floors, such as westward expansion and war powers control. Here are the stories behind the 1868 vote to impeach President Andrew Johnson; the rise of Jeannette Rankin, the first woman elected to Congress and a leading advocate for pacifism; and the controversy surrounding James Eastland of Mississippi, who carried civil rights bills in his pockets so they could not come up for a vote. Sidebars further spotlight notables including Huey Long, Sam Rayburn, and Tip O'Neill, bringing the sweeping history

of our lawmaking bodies into sharp focus. If you've ever wondered how Congress worked in the past or what our elected officials do today, this book gives the engaging, often surprising, answers.

Parliament Today

A comprehensive guide to legal style and usage, with practical advice on how to write clear, jargon-free legal prose. Includes style tips as well as definitions.

The Internal Revenue Service

Offers a look at the workings of the Internal Revenue Service, covering the history of taxation in the United States, the functions of the tax collecting agency, and the benefits of taxes to the country.

The Global Magnitsky Human Rights Accountability Act

This is the first comprehensive examination of the evolution of executive governance in Israel. The book describes and analyzes the political and bureaucratic structures and processes that led to the predominance of the executive in policymaking and governance. It also analyzes recent political and administrative reforms and their consequences on the Knesset, political parties, governing coalitions and non-elected public authorities.

State Upper Houses in Australia

This book offers a unique interdisciplinary comparison of the dominant trends in constitutional developments and legal change across different regions of the world in the last half century, bringing together the constitution-making of the post-colonial era with the post-communist political reconstruction and globalization of constitutionalism.

Executive Governance in Israel

The presidential historian charts the progression of American power from George Washington to George W. Bush, revealing the exercise of power through the office as it has developed into an "imperial" seat of authority, in an updated edition of the classic history. Reprint.

Power to the People

Japanese Legal System

The global Magnitsky Human Rights Accountability Act : hearing before the Subcommittee on Africa, Global Health, Global Human Rights, and International Organizations of the Committee on Foreign Affairs, House of Representatives, One Hundred Fourteenth Congress, first session, April 29, 2015.

Italian Constitutional Justice in Global Context

"The Magna Carta" by Anonymous. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Reflections on Law and History

An acclaimed historian unfolds a monumental, eyewitness page-turner on the tragic fall of France to Hitler's Third Reich at the outset of WWII. As an international war correspondent and radio commentator, William L. Shirer didn't just research the fall of France. He was there. In just six weeks, he watched the Third Reich topple one of the world's oldest military powers—and institute a rule of terror and paranoia. Based on in-person conversation with the leaders, diplomats, generals, and ordinary citizens who both shaped the events of this time and lived through them on a daily basis, Shirer shapes a compelling account of historical events—without losing sight of the personal experience. From the heroic efforts of the Freedom Fighters to the tactical military misjudgments that caused the fall and the daily realities of life for French citizens under Nazi rule, this fascinating and exhaustively documented account from one of the twentieth Century's most important historians makes the events of the fall accessible to a younger audience in vivid and memorable style.

A Dictionary of Modern Legal Usage

A History of Modern Iran

Shifting the discourse from a focus on academic language to the more dynamic but less researched construct of academic literacies, this volume addresses three key questions: • What constitutes academic literacy? • What does academic literacy development in adolescent multilingual students look like and how can this development be assessed? • What classroom contexts foster the development of academic literacies in multilingual adolescents? The contributing authors provide divergent definitions of academic literacies and use dissimilar theoretical and methodological approaches to study literacy development. Nevertheless, all chapters reflect a shared conceptual framework for examining academic literacies as situated, overlapping, meaning-making practices. This framework foregrounds students' participation in valued disciplinary literacy practices. Emphasized in the new college and career readiness standards, the notion of disciplinary practices allows the contributing authors to bridge the language/content dichotomy, and take a more holistic as well as nuanced view of the demands that multilingual students face in general education classrooms. The volume also explores the implications of the emphasis on academic literacy practices for classroom instruction, research, and policy.

Judicial Activism

In this revised and updated edition of a classic text, one of America's leading constitutional theorists presents a brief but well-balanced history of judicial review and summarizes the arguments both for and against judicial activism within the context of American democracy. Christopher Wolfe demonstrates how modern courts have used their power to create new "rights" with fateful political consequences and he challenges popular opinions held by many contemporary legal scholars. This is important reading for anyone interested in the role of the judiciary within American politics. Praise for the first edition of *Judicial Activism*: "This is a splendid contribution to the literature, integrating for the first time between two covers an extensive debate, honestly and dispassionately presented, on the role of courts in American policy. --Stanley C. Brubaker, Colgate University

The American Congress

International Legal English Second edition is the definitive course for students who need to work in the international legal community. International Legal English Teacher's Book is an essential companion for any teacher wishing to use International Legal English Second edition in the classroom. The book offers invaluable background information about the law topics discussed, giving teachers the confidence to explore these topics with their students. The Teacher's Book guides the teacher through the exercises in the book and suggests optional consolidation activities along the way. It includes over 50 extra photocopiable activities and adds a whole new communicative dimension to the course, with lots of ideas for discussion and role-plays.

Legal Reference for Librarians

The American Congress Reader

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.
