We all have black thoughts. It's just some of us act on them. A van driver with abduction and murder on his mind. An eleven-year-old girl snatched on her way home from ballet. A tortured reporter, happy to use her death and the terrifying reign of a child killer to help make his name "Don't let the rather bland title put you off - this second novel by Dave Franklin is an impressive pacey read, spiced with ethical dilemmas as well as his earthy dialogue and humour." - Sunday Times "Franklin's first novel, Looking for Sarah Jane Smith, introduced his unique brand of

bitter humour as he journeyed out of Wales into Aussie territory. In this new book, Franklin chooses to return to familiar territory, setting the novel in Portsmouth, on England's south coast. His raw-edged honesty and earthy humour combine to make a compelling portrayal of one man's undoing against a backdrop of murder, brutality and desperate love. It is a gritty and vicious novel with an unredeemable hero." - Post Newspapers This novel includes a FREE 3,500-word crime story, Camaraderie.

Excerpt: Mercedes-Benz HighPerformanceEngines Ltd. (previously known as Mercedes-Ilmor) is an English-based Formula One engine manufacturer, owned by Mercedes-Benz. Since 1995, their engines have powered McLaren's Formula One cars. For the 2009 season, Mercedes-Benz also supplied the Brawn GP and Force India teams with engines. In 2010 Mercedes supplies McLaren, Force India and the new Mercedes-Benz works team, Mercedes GP (formed of the Brawn GP team, which Mercedes bought after the end of the 2009 season). Ilmor was founded by Mario Illien and Paul Morgan in 1983, as an independent British Formula One engine manufacturer. The company name was taken from the surnames of the founders. It originally started building engines for IndyCars with the money of IndyCar team owner and chassis manufacturer Roger Penske. Daim More: <http://booksllc.net/?id=7319192>

The M278 is derived from the company's previous M273 V8 engine, sharing its bore pitch, aluminum engine block, and Silitec aluminum/silicon low-friction cylinder liners. In contrast to the naturally aspirated M273, however, the M278 features twin turbochargers, one per cylinder bank, producing up to 0.9 bar boost pressure. The M278 also features gasoline direct injection, with piezo-electrically actuated fuel injectors for more precise fuel delivery, and multi-spark ignition, which enables
